The following graphic depicts the methodology for Cambria's Global Value ETF (GVAL). The GVAL ETF utilizes a quantitative approach to manage a portfolio of global equities. Global Value is a fundamentally focused deep value strategy with rules that are completely systematic.

To determine if this Fund is an appropriate investment for you, carefully consider the Fund's investment objectives, risk factors, charges and expense before investing. This and other information can be found in the Fund's prospectus which may be obtained by calling 855-383-4636 (ETF INFO) or visiting our website at www.cambriafunds.com. Read the prospectus carefully before investing or sending money.

The Cambria ETFs are distributed by SEI Investments Distribution Company, 1 Freedom Valley Drive, Oaks, PA 19456, which is not affiliated with Cambria Investment Management, LP, the Investment Adviser for the Fund.

ETFs are subject to commission costs each time a "buy" or "sell" is executed. Depending on the amount of trading activity, the low costs of ETFs may be outweighed by commissions and related trading costs.

Shares are bought and sold at market price (closing price) not net asset value (NAV) are not individually redeemed from the Fund. Market price return are based on the midpoint of the bid/ask spread at 4:00 pm Eastern Time (when NAV is normally determined), and do not represent the return you would receive if you traded at other times. Buying and selling shares will result in brokerage commissions. Brokerage commissions will reduce returns.

There is no guarantee that the Fund will achieve its investment goal. Investing involves risk, including the possible loss of principal. International investing may involve risk of capital loss from unfavorable fluctuations in currency values, from differences in generally accepted accounting principles, or from economic or political instability in other nations. In emerging markets, all these risks are heightened, and lower trading volumes may occur. Investments in smaller companies typically exhibit higher volatility.

There is no guarantee dividends will be paid. Diversification may not protect against market loss.

There are special risks associated with margin investing. As with stocks, you may be called upon to deposit additional cash or securities if your account equity declines.

Not FDIC Insured. May Lose Value. Not Bank Guaranteed.
