

**STATEMENT OF ADDITIONAL INFORMATION
CAMBRIA ETF TRUST**

Cambria Core Equity ETF (CCOR)

2321 Rosecrans Avenue, Suite 3225, El Segundo, CA 90245

PHONE: (310) 683-5500

May 24, 2017, as revised March 29, 2018

This SAI describes additional information related to the Cambria Core Equity ETF. The Fund is actively-managed. Cambria Investment Management, L.P. serves as the investment adviser to the Fund. SEI Investments Distribution Co. serves as the distributor for the Fund.

Shares of the Fund are listed and traded on NYSE Arca, Inc.

This SAI is not a prospectus. It should be read in conjunction with the Fund's Prospectus, dated May 24, 2017, as revised March 29, 2018, which incorporates this SAI by reference.

Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted. A copy of the Prospectus may be obtained without charge by writing to the Distributor, calling 855-ETF-INFO (383-4636) or visiting www.cambriafunds.com. When available, an annual report for the Fund will be available in the same manner at no charge by request to the Fund at the address, website, or phone number noted above. The Fund's audited financial statements for the most recent fiscal year (when available) are incorporated in this SAI by reference to the Fund's most recent annual report to shareholders.

THE SECURITIES AND EXCHANGE COMMISSION ("SEC") HAS NOT APPROVED OR DISAPPROVED THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS SAI. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

This SAI does not constitute an offer to sell securities.

GLOSSARY

The following terms are used throughout this SAI, and have the meanings used below:

“**1933 Act**” means the Securities Act of 1933, as amended.

“**1934 Act**” means the Securities Exchange Act of 1934, as amended.

“**Authorized Participant**” means a broker-dealer or other participant in the Continuous Net Settlement System of the National Securities Clearing Corporation (NSCC) or a participant in DTC with access to the DTC system, who has executed an agreement with the Distributor that governs transactions in the Fund’s Creation Units.

“**Balancing Amount**” means an amount equal to the difference between the NAV of a Creation Unit and the market value of the In-Kind Creation (or Redemption) Basket, used to ensure that the NAV of the Fund Deposit (or Redemption) (other than the Transaction Fee), is identical to the NAV of the Creation Unit being purchased.

“**Board**” means the Board of Trustees of the Trust.

“**Business Day**” means any day on which the Trust is open for business.

“**Cambria**” means Cambria Investment Management, L.P., the investment adviser to the Fund.

“**Cash Component**” means an amount of cash consisting of a Balancing Amount and a Transaction Fee calculated in connection with creations.

“**Cash Redemption Amount**” means an amount of cash consisting of a Balancing Amount and a Transaction Fee calculated in connection with redemptions.

“**CEA**” means the Commodity Exchange Act, as amended.

“**CFTC**” means the Commodity Futures Trading Commission.

“**Code**” means the Internal Revenue Code of 1986, as amended.

“**Creation Unit**” means an aggregation of 50,000 Shares that the Fund issues and redeems on a continuous basis at NAV. Shares will not be issued or redeemed except in Creation Units.

“**Distributor**” means SEI Investments Distribution Co., the distributor to the Fund.

“**Dodd-Frank Act**” means the Dodd-Frank Wall Street Reform and Consumer Protection Act.

“**DTC**” means the Depository Trust Company.

“**Exchange**” means the NYSE Arca, Inc.

“**FINRA**” means the Financial Industry Regulatory Authority.

“**Fund**” means the series of the Trust discussed in this SAI: the Cambria Core Equity ETF.

“**Fund Deposit**” means the In-Kind Creation Basket and Cash Component necessary to purchase a Creation Unit from the Fund.

“**Fund Redemption**” means the In-Kind Redemption Basket and Cash Redemption Amount received in connection with the redemption of a Creation Unit.

“**IV**” means an approximate per Share value of the Fund’s portfolio, disseminated every fifteen seconds throughout the trading day by the Exchange through the facilities of the Consolidated Tape Association or other information providers, known as the Intraday Indicative Value.

“**In-Kind Creation Basket**” means the basket of securities to be deposited to purchase Creation Units of the Fund.

“**In-Kind Redemption Basket**” means the basket of securities a shareholder will receive upon redemption of a Creation Unit.

“**Investment Company Act**” means the Investment Company Act of 1940, as amended.

“**IRS**” means the Internal Revenue Service.

“**NAV**” means the net asset value of a Share.

“**NSCC**” means the National Securities Clearing Corporation.

“**NYSE**” means the New York Stock Exchange, Inc.

“**Prospectus**” means the Fund’s Prospectus, dated May 24, 2017, as amended and supplemented from time to time.

“**SAI**” means this Statement of Additional Information, dated May 24, 2017, as amended and supplemented from time to time.

“**SEC**” means the United States Securities and Exchange Commission.

“**Shares**” means the shares of the Fund.

“**Transaction Fees**” are fees imposed to compensate the Trust for costs incurred in connection with transactions for Creation Units. The Transaction Fee is comprised of a flat (or standard) fee and may include a variable fee. For the Transaction Fees applicable to the Fund, see “Transaction Fees” in this SAI.

“**Trust**” means the Cambria ETF Trust, a Delaware statutory trust.

TRUST AND FUND OVERVIEW

The Trust is a Delaware statutory trust formed on September 9, 2011 and an open-end registered management investment company comprised of twelve funds, one of which is discussed in this SAI. The Fund is a diversified, actively-managed exchange-traded fund. The offering of the Shares is registered under the 1933 Act.

The Fund offers and issues Shares at NAV only in aggregations of a specified number of Shares, generally in exchange for a basket of securities constituting the portfolio holdings of the Fund, together with the deposit of a specified cash payment, or, in certain circumstances, for an all cash payment. Shares of the Fund will be listed and traded on the Exchange. Shares will trade on the Exchange at market prices that may be below, at, or above NAV.

Unlike mutual funds, Shares are not individually redeemable securities. Rather, the Fund issues and redeems Shares on a continuous basis at NAV, only in Creation Units of 50,000 Shares. In the event of the liquidation of the Fund, the Trust may lower the number of Shares in a Creation Unit.

In the instance of creations and redemptions, Transaction Fees may be imposed. Such fees are limited in accordance with requirements of the SEC applicable to management investment companies offering redeemable securities. Some of the information contained in this SAI and the Prospectus — such as information about purchasing and redeeming Shares from the Fund and Transaction Fees — is not relevant to most retail investors because it applies only to transactions for Creation Units and most retail investors do not transact for Creation Units.

Once created, Shares generally trade in the secondary market, at market prices that change throughout the day, in amounts less than a Creation Unit. Investors purchasing Shares in the secondary market through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges.

EXCHANGE LISTING AND TRADING

Shares of the Fund will be listed and traded on the Exchange. Shares trade on the Exchange or in secondary markets at prices that may differ from their NAV or IIV, including because such prices may be affected by market forces (such as supply and demand for Shares). As is the case for other securities traded on an exchange, when you buy or sell Shares on the Exchange or in the secondary markets your broker will normally charge you a commission or other transaction charges. Further, the Trust reserves the right to adjust the price of Shares in the future to maintain convenient trading ranges for investors (namely, to maintain a price per Share that is attractive to investors) by share splits or reverse share splits, which would have no effect on the NAV.

There can be no assurance that the requirements of the Exchange for maintaining the listing of Shares of the Fund will continue to be met. The Exchange may, but is not required to, remove the Shares of the Fund from listing if: (i) following the initial 12-month period beginning at the commencement of trading of the Fund, there are fewer than 50 beneficial owners of the Shares of the Fund for 30 or more consecutive trading days, or (ii) such other event shall occur or condition exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares of the Fund from listing and trading upon termination of the Fund.

The Fund is not sponsored, endorsed, sold or promoted by the Exchange. The Exchange makes no representation or warranty, express or implied, to the owners of Shares of the Fund or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Fund to achieve its objective. The Exchange has no obligation or liability in connection with the administration, marketing or trading of the Fund.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Board has adopted a policy regarding the disclosure of information about the Fund's portfolio securities. Under the policy, portfolio holdings of the Fund, which form the basis for the calculation of NAV on a Business Day, are publicly disseminated prior to the opening of trading on the Exchange that Business Day through financial reporting or news services, including the website www.cambriafunds.com. In addition, each Business Day a portfolio composition file, which displays the In-Kind Creation Basket and Cash Component, is publicly disseminated prior to the opening of the Exchange via the NSCC.

INTRADAY INDICATIVE VALUE

The IIV is an approximate per Share value of the Fund's portfolio holdings, which is disseminated every fifteen seconds throughout the trading day by the Exchange through the facilities of the Consolidated Tape Association or by market data vendors or other information providers. The IIV is based on the current market value of the Fund's Fund Deposit. The IIV does not necessarily reflect the precise composition of the current portfolio of securities held by the Fund at a particular point in time or the best possible valuation of the current portfolio. This approximate value should not be viewed as a "real-time" update of NAV because the approximate value may not be calculated in the same manner as the NAV, which is computed once a day. The Exchange calculates the IIV during hours of trading on the Exchange by dividing the "Estimated Fund Value" as of the time of the calculation by the total number of outstanding Shares. "Estimated Fund Value" is the sum of the estimated amount of cash held in the Fund's portfolio, the estimated amount of accrued interest owing to the Fund and the estimated value of the securities held in the Fund's portfolio, minus the estimated amount of liabilities. The IIV will be calculated based on the same portfolio holdings disclosed on the Fund's website. The IIV is generally determined by using both current market quotations and/or price quotations obtained from broker-dealers and other market intermediaries that may trade in the portfolio securities held by the Fund. As such, investors should not expect to buy or sell the Fund's shares at the IIV. The Fund is not involved in, or responsible for, the calculation or dissemination of such values and makes no warranty as to their accuracy.

INVESTMENT POLICIES AND RESTRICTIONS

The investment policies enumerated in this section may be changed with respect to the Fund only by a vote of the holders of a majority of the Fund's outstanding voting securities, except as noted below:

1. The Fund may not borrow money, except to the extent permitted by the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
2. The Fund may not issue senior securities, except to the extent permitted by the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
3. The Fund may not engage in the business of underwriting securities except to the extent that the Fund may be considered an underwriter within the meaning of the 1933 Act in the acquisition, disposition or resale of its portfolio securities or in connection with investments in other investment companies, or to the extent otherwise permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
4. The Fund may not purchase or sell real estate, except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
5. The Fund may not purchase or sell commodities, contracts relating to commodities or options on contracts relating to commodities except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief. This policy shall not prevent the Fund from purchasing or selling foreign currency or purchasing, selling or entering into futures contracts, options, forward contracts, swaps, caps, floors, collars and other financial instruments as currently exist or may in the future be developed.
6. The Fund may not make loans, except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
7. The Fund will not concentrate its investments in issuers of one or more particular industries.

With respect to the fundamental policy relating to borrowing money set forth in (1) above, the Investment Company Act permits the Fund to borrow money in amounts of up to one-third of the Fund's total assets, at the time of borrowing, from banks for any purpose (the Fund's total assets include the amounts being borrowed). To limit the risks attendant to borrowing, the Investment Company Act requires the Fund to maintain at all times an "asset coverage" of at least 300% of the amount of its borrowings (not including borrowings for temporary purposes in an amount not exceeding 5% of the value of the Fund's total assets). Asset coverage means the ratio that the value of the Fund's total assets (including amounts borrowed), minus liabilities other than borrowings, bears to the aggregate amount of all borrowings. In the event that such asset coverage falls below this percentage, the Fund is required to reduce the amount of its borrowings within three days (not including Sundays and holidays) so that the asset coverage is restored to at least 300%.

With respect to the fundamental policy relating to issuing senior securities set forth in (2) above, “senior securities” are defined as fund obligations that have a priority over the Fund’s shares with respect to the payment of dividends or the distribution of Fund assets. The Investment Company Act prohibits the Fund from issuing any class of senior securities or selling any senior securities of which it is the issuer, except that the Fund is permitted to borrow from banks, as described immediately above.

With respect to the fundamental policy relating to making loans set forth in (6) above, the Investment Company Act does not prohibit the Fund from making loans; however, SEC staff interpretations currently prohibit funds from lending more than one-third of their total assets, except through the purchase of debt obligations. (A repurchase agreement is an agreement to purchase a security, coupled with an agreement to sell that security back to the original seller on an agreed-upon date at a price that reflects current interest rates. The SEC staff treats repurchase agreements as loans).

Except with respect to borrowing, if a percentage limitation is satisfied at the time of investment, a later increase or decrease in such percentage resulting from a change in the value of the Fund’s investments will not constitute a violation of such limitation. Thus, the Fund may continue to hold a security even though it causes the Fund to exceed a percentage limitation because of fluctuation in the value of the Fund’s assets, except that any borrowing by the Fund that exceeds the fundamental investment limitations stated above must be reduced to meet such limitations within the period required by the Investment Company Act or the relevant rules, regulations or interpretations thereunder.

For purposes of applying the limitation set forth in the concentration policy, the Fund, with respect to its equity holdings, will generally use the industry classifications provided by the Global Industry Classification System. Securities of the U.S. government (including its agencies and instrumentalities) and tax-free securities of state or municipal governments and their political subdivisions (and repurchase agreements collateralized by government securities) are not considered to be issued by members of any industry.

In addition to the foregoing fundamental investment policies, the Fund is also subject to the following non-fundamental policy, which may be changed by the Board without a shareholder vote upon at least 60 days’ prior written notice to shareholders:

Under normal market conditions, at least 80% of the value of the Fund’s net assets (plus borrowings for investment purposes) will be invested in equity securities.

INVESTMENT OBJECTIVE, INVESTMENT STRATEGIES AND RISKS

The Fund’s investment objective, principal investment strategies and associated risks are described in the Fund’s Prospectus. The sections below supplement these principal investment strategies and risks and describe the Fund’s additional investment policies and the different types of investments that may be made by the Fund as a part of its non-principal investment strategies. Unless otherwise indicated in the Prospectus or this SAI, the investment objective and policies of the Fund may be changed without shareholder approval.

Cash Items

The Fund may invest a portion of its assets in cash or cash items pending other investments or to maintain liquid assets required in connection with some of the Fund’s investments. These cash items and other high quality debt securities may include money market instruments, such as securities issued by the U.S. Government and its agencies, bankers’ acceptances, commercial paper, bank certificates of deposit and investment companies that invest primarily in such instruments.

CFTC Regulation

Commodity Pool Exclusion and Registration. In February 2012, the CFTC announced substantial amendments to the exclusion in its Regulation 4.5 for registered investment companies from registration as a commodity pool operator (“CPO”). Under these amendments, if the Fund uses commodity interests (such as CFTC-regulated futures, options on futures and swaps) other than for *bona fide* hedging purposes (as defined by the CFTC) and seeks to claim the Regulation 4.5 exclusion from registration, the aggregate initial margin and premiums required to establish these positions (after taking into account unrealized profits and unrealized losses on any such positions and excluding the amount by which options are “in-the-money” at the time of purchase) may not exceed 5% of the Fund’s NAV. Alternatively, the aggregate net notional value of these positions, determined at the time the most recent position was established, may not exceed 100% of the Fund’s NAV (after taking into account unrealized profits and unrealized losses on any such positions).

Cambria has claimed the Regulation 4.5 exclusion from registration as a CPO under the CEA, in its management of the Fund and intends to comply with one of the two alternative limitations described above. To the extent these limits are approached, Cambria may not be able to take advantage of investment opportunities for the Fund in order to comply with and maintain the exclusion.

Cover. Transactions using derivative instruments, such as forward currency contracts, may expose the Fund to an obligation to another party. Under such circumstances, the Fund will comply with SEC guidelines regarding cover for these obligations and will, if the guidelines so require, set aside cash or liquid assets in an account or on the books with its custodian in the prescribed amount as determined daily. Such cover will generally be either (1) an offsetting (covered) position in securities, currencies or other options, futures contracts, forward contracts or swaps, or (2) cash and liquid assets with a value, marked-to-market daily, sufficient to cover its potential obligations.

Assets used as cover or held in an account cannot be sold while the position in the corresponding derivative is open, unless they are replaced with other appropriate assets. As a result, the commitment of a large portion of the Fund's assets to cover or to segregated accounts could impede portfolio management or the Fund's ability to meet redemption requests or other current obligations.

Turnover. The Fund's forward currency contracts activities, if any, may affect its turnover rate. The sale or purchase of forward currency contracts may cause the Fund to sell or purchase related investments, thus increasing its turnover rate.

Credit Quality Standards

When investing in fixed income securities and, if applicable, preferred or convertible stocks, the Fund maintains the following credit quality standards, which apply at the time of investment:

For securities that carry a rating assigned by a nationally recognized statistical rating organization (a "Rating Organization"), Cambria will use the highest rating assigned by the Rating Organization to determine a security's credit rating. Commercial paper must be rated at least "A-1" or equivalent by a Rating Organization. Corporate debt obligations, mortgage-backed and other asset-backed securities and municipal securities must be rated at least "B-" or equivalent by a Rating Organization. For securities that are not rated by a Rating Organization, Cambria's internal credit rating will apply and be subject to the equivalent rating minimums described here. The Funds may retain a debt security that has been downgraded below the initial investment criteria.

Debt-Related Investments

Debt and Other Fixed Income Securities Generally

Debt securities include securities issued or guaranteed by the U.S. Government, its agencies, instrumentalities, and political subdivisions, foreign governments, their authorities, agencies, instrumentalities, and political subdivisions, supra-national agencies, corporate debt securities, master-demand notes, Yankee dollar and Eurodollar bank certificates of deposit, time deposits, bankers' acceptances, commercial paper and other notes, inflation-indexed securities, and other debt securities. Debt securities may be investment grade securities or high yield securities, which are described below. Investment grade securities include securities issued or guaranteed by the U.S. Government, its agencies and instrumentalities, as well as securities rated in one of the four highest rating categories by at least two Rating Organizations rating that security, such as Standard & Poor's Ratings Services ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch Ratings Ltd. ("Fitch"), or rated in one of the four highest rating categories by one Rating Organization if it is the only Rating Organization rating that security or unrated, if deemed to be of comparable quality by Cambria and traded publicly on the world market. The Fund, at the discretion of Cambria, may retain a debt security that has been downgraded below the initial investment criteria.

Debt and other fixed income securities include fixed and floating rate securities of any maturity. Fixed rate securities pay a specified rate of interest or dividends. Floating rate securities pay a rate that is adjusted periodically by reference to a specified index or market rate. Fixed and floating rate securities include securities issued by federal, state, local, and foreign governments and related agencies, and by a wide range of private issuers, and generally are referred to in this SAI as "fixed income securities." Indexed bonds are a type of fixed income security whose principal value and/or interest rate is adjusted periodically according to a specified instrument, index, or other statistic (e.g., another security, inflation index, currency, or commodity).

Holders of fixed income securities are exposed to both market and credit risk. Market risk (or “interest rate risk”) relates to changes in a security’s value as a result of changes in interest rates. In general, the values of fixed income securities increase when interest rates fall and decrease when interest rates rise. Given the historically low interest rate environment, risks associated with rising rates are heightened. Credit risk relates to the ability of an issuer to make payments of principal and interest. Obligations of issuers are subject to bankruptcy, insolvency and other laws that affect the rights and remedies of creditors.

Because interest rates vary, the future income of the Fund that invests in fixed income securities cannot be predicted with certainty. The future income of the Fund that invests in indexed securities also will be affected by changes in those securities’ indices over time (*e.g.*, changes in inflation rates, currency rates, or commodity prices).

U.S. Government Securities

U.S. government securities include securities issued or guaranteed by the U.S. government or its authorities, agencies, or instrumentalities. Different kinds of U.S. government securities have different kinds of government support. For example, some U.S. government securities (*e.g.*, U.S. Treasury bonds) are supported by the full faith and credit of the U.S. Other U.S. government securities are issued or guaranteed by federal agencies or government-chartered or -sponsored enterprises but are neither guaranteed nor insured by the U.S. government (*e.g.*, debt securities issued by the Federal Home Loan Mortgage Corporation (“Freddie Mac”), Federal National Mortgage Association (“FNMA” or “Fannie Mae”), and Federal Home Loan Banks (“FHLBs”).

It is possible that the availability and the marketability (that is, liquidity) of the securities discussed in this section could be adversely affected by actions of the U.S. government to tighten the availability of credit.

As with other fixed income securities, U.S. government securities expose their holders to market risk because their values typically change as interest rates fluctuate. For example, the value of U.S. government securities may fall during times of rising interest rates. Yields on U.S. government securities tend to be lower than those of corporate securities of comparable maturities.

In addition to investing directly in U.S. government securities, the Fund may purchase certificates of accrual or similar instruments evidencing undivided ownership interests in interest payments and/or principal payments of U.S. government securities. Certificates of accrual and similar instruments may be more volatile than other government securities.

Equity-Related Investments

Common Stocks

Common stock represents an ownership interest in a company and usually possesses voting rights and earns dividends. Dividends on common stock are not fixed but are declared at the discretion of the issuer. Common stock generally represents the riskiest investment in a company. In addition, common stock generally has the greatest appreciation and depreciation potential because increases and decreases in earnings are usually reflected in a company's common stock price.

The fundamental risk of investing in common stock is the risk that the value of the stock might decrease. Stock values fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. Historically, common stocks have provided greater long-term returns and have entailed greater short-term risks than preferred stocks, fixed-income securities and money market investments. This may not be true currently or in the future. The market value of all securities, including common stocks, is based upon the market's perception of value and not necessarily the book value of an issuer or other objective measure of a company's worth. If you invest in the Fund, you should be willing to accept the risks of the stock market and should consider an investment in the Fund only as a part of your overall investment portfolio.

Convertible Securities

Convertible securities include fixed-income securities, preferred stock or other securities that may be converted into or exchanged for a given amount of common stock of the same or a different issuer during a specified period and at a specified price in the future. A convertible security entitles the holder to receive interest on debt or the dividend on preferred stock until the convertible security matures or is redeemed, converted or exchanged.

Convertible securities have unique investment characteristics in that they generally: (1) have higher yields than the underlying common stock, but lower yields than comparable non-convertible securities; (2) are less subject to fluctuation in value than

the underlying common stock since they have fixed-income characteristics; and (3) provide the potential for capital appreciation if the market price of the underlying common stock increases.

A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security is called for redemption, the Fund will be required to permit the issuer to redeem the security, convert it into the underlying common stock or sell it to a third party.

Convertible securities are typically issued by smaller capitalization companies whose stock price may be volatile. Therefore, the price of a convertible security may reflect variations in the price of the underlying common stock in a way that non-convertible debt does not. The extent to which such risk is reduced, however, depends in large measure upon the degree to which the convertible security sells above its value as a fixed-income security.

Master Limited Partnerships

The Fund may invest in master limited partnerships ("MLPs") which are publicly traded partnerships primarily engaged in the transportation, storage, processing, refining, marketing, exploration, production, and mining of minerals and natural resources. Their interests, or units, trade on public securities exchanges exactly like the shares of a corporation, without entity level taxation. MLPs generally have two classes of owners, one or more general partners and the limited partners (i.e., investors). The general partner typically controls the operations and management of the MLP through an equity interest in the MLP plus, in many cases, ownership of common units and subordinated units. Limited partners typically own the remainder of the partnership, through ownership of common units, and have a limited role in the partnership's operations and management. In certain instances, creditors of an MLP would have the right to seek a return of capital that had been distributed to a limited partner. The right of an MLP's creditors would continue even after the Fund had sold its investment in the partnership. MLPs typically invest in real estate, oil and gas equipment leasing assets, but they also finance entertainment, research and development, and other projects.

MLP common units, like other equity securities, can be affected by macroeconomic and other factors affecting the stock market in general, expectations of interest rates, investor sentiment towards an issuer or certain market sector, changes in a particular issuer's financial condition, or unfavorable or unanticipated poor performance of a particular issuer (in the case of MLPs, generally measured in terms of distributable cash flow). Prices of common units of individual MLPs, like the prices of other equity securities, also can be affected by fundamentals unique to the partnership or company, including earnings power and coverage ratios.

Investments in Other Investment Companies or Other Pooled Investments

The Fund may invest in the securities of other investment companies to the extent permitted by law. Subject to applicable regulatory requirements, the Fund may invest in shares of both open- and closed-end investment companies (including money market funds and ETFs). The market price for ETF and closed-end fund shares may be higher or lower than, respectively, the ETF's and closed-end fund's NAV. Investing in another investment company exposes the Fund to all the risks of that investment company and, in general, subjects it to a pro rata portion of the other investment company's fees and expenses. As a result, an investment by the Fund in an ETF or investment company could cause the Fund's operating expenses to be higher and, in turn, performance to be lower than if the Fund were to invest directly in the securities underlying the ETF or investment company. The Fund also may invest in private investment funds, vehicles, or structures.

Preferred Stocks

The Fund may invest in preferred stocks. Preferred stocks include convertible and non-convertible preferred and preference stocks that are senior to common stock. Preferred stocks are equity securities that are senior to common stock with respect to the right to receive dividends and a fixed share of the proceeds resulting from the issuer's liquidation. Some preferred stocks also entitle their holders to receive additional liquidation proceeds on the same basis as holders of the issuer's common stock, and thus represent an ownership interest in the issuer. Depending on the features of the particular security, holders of preferred stock may bear the risks disclosed in the Prospectus or this SAI regarding equity or fixed income securities.

Real Estate Investment Trusts ("REITs")

A REIT is a company that pools investor funds to invest primarily in income producing real estate or real estate related loans or interests. REITs are not taxed on income distributed to their shareholders if, among other things, they distribute substantially all of their taxable income (other than net capital gains) for each taxable year.

Because REITs have ongoing fees and expenses, which may include management, operating and administration expenses, REIT shareholders, including the Fund, will indirectly bear a proportionate share of those expenses in addition to the expenses of the Fund. However, such expenses are not considered to be Acquired Fund Fees and Expenses and, therefore, are not reflected as such in the Fund's fee table.

The Fund also may be subject to certain risks associated with the direct investments of the REITs. REITs may be affected by changes in their underlying properties and by defaults by borrowers or tenants. Mortgage REITs may be affected by the quality of the credit extended. Furthermore, REITs are dependent on specialized management skills. Some REITs may have limited diversification and may be subject to risks inherent in financing a limited number of properties. REITs depend generally on their ability to generate cash flow to make distributions to shareholders or unitholders, and may be subject to defaults by borrowers and to self-liquidations. In addition, the performance of a REIT may be affected by its failure to qualify for tax-free pass-through of income under the Code, including regulations thereunder and IRS interpretations or similar authority upon which the Fund may rely or its failure to maintain exemption from registration under the Investment Company Act.

Foreign Investments Generally

Foreign Market Risk. Foreign security investment or exposure involves special risks not present in U.S. investments that can increase the chances that the Fund will lose money. These risks are higher for emerging markets investments, which can be subject to greater social, economic, regulatory and political uncertainties, and may have significantly less liquidity, than developed markets. In particular, the Fund is subject to the risk that because there are generally fewer investors on foreign exchanges and a smaller number of shares traded each day, it may be difficult for the Fund to buy and sell securities, or increase or decrease exposures, on those exchanges. In addition, prices of foreign securities may fluctuate more than prices of securities traded in the U.S.

Foreign Economy Risk. The economies of certain foreign markets often do not compare favorably with that of the U.S. with respect to such issues as growth of gross domestic product, reinvestment of capital, resources, and balance of payments positions. Certain foreign economies may rely heavily on particular industries or foreign capital and are more vulnerable to diplomatic developments, the imposition of economic sanctions against a particular country or countries, changes in international trading patterns, trade barriers, and other protectionist or retaliatory measures. Investments in foreign markets may also be adversely affected by governmental actions such as the imposition of capital controls, nationalization of companies or industries, expropriation of assets, or the imposition of punitive taxes. In addition, the governments of certain countries may prohibit or impose substantial restrictions on foreign investing in their capital markets or in certain industries. Any of these actions could severely affect security prices, impair the Fund's ability to purchase or sell foreign securities, or obtain exposure to them, or transfer the Fund's assets back into the U.S., or otherwise adversely affect the Fund's operations. Other foreign market risks include foreign exchange controls, difficulties in pricing securities, defaults on foreign government securities, difficulties in enforcing favorable legal judgments in foreign courts, and political and social instability. Legal remedies available to investors in certain foreign countries may be less extensive than those available to investors in the U.S. or other foreign countries. Foreign corporate governance may not be as robust as in the U.S. As a result, protections for minority investors may not be strong, which could affect security prices.

Currency Risk and Exchange Risk. Securities in which the Fund invests, or to which they obtain exposure, may be denominated or quoted in currencies other than the U.S. dollar. Changes in foreign currency exchange rates will affect the value of these securities. Generally, when the U.S. dollar rises in value against a foreign currency, an investment in a security denominated in that currency loses value because the currency is worth fewer U.S. dollars. Similarly when the U.S. dollar decreases in value against a foreign currency, an investment in, or exposure to, a security denominated in that currency gains value because the currency is worth more U.S. dollars. This risk is generally known as "currency risk," which is the possibility that a stronger U.S. dollar will reduce returns for U.S. investors investing overseas. Foreign currencies also involve the risk that they will be devalued or replaced, adversely affecting the Fund's investments.

Governmental Supervision and Regulation/Accounting Standards. Many foreign governments supervise and regulate stock exchanges, brokers and the sale of securities to a lesser extent than the U.S. government. Some countries may not have laws to protect investors the way that the U.S. securities laws do. Accounting standards in other countries are not necessarily the same as in the U.S. If the accounting standards in another country do not require as much disclosure or detail as U.S. accounting standards, it may be harder to completely and accurately determine a company's financial condition.

Certain Risks of Holding Fund Assets Outside the U.S. Foreign securities in which the Fund invests, or to which it obtains exposure, are generally held outside the U.S. in foreign banks and securities depositories. The Fund's custodian is the Fund's "foreign custody manager" as provided in Rule 17f-5 under the Investment Company Act. The "foreign custody manager" is responsible for determining that the Fund's directly-held foreign assets will be subject to reasonable care, based on standards

applicable to custodians in relevant foreign markets. However, certain foreign banks and securities depositories may be recently organized or new to the foreign custody business. They may also have operations subject to limited or no regulatory oversight. Also, the laws of certain countries may put limits on the Fund's ability to recover its assets if a foreign bank or depository or issuer of a security or an agent of any of the foregoing goes bankrupt. In addition, it likely will be more expensive for the Fund to buy, sell and hold securities, or increase or decrease exposures thereto, in certain foreign markets than it is in the U.S. market due to higher brokerage, transaction, custody and/or other costs. The increased expense of investing in foreign markets reduces the amount the Fund can earn on its investments.

Settlement and clearance procedures in certain foreign markets differ significantly from those in the U.S. Foreign settlement and clearance procedures and trade regulations also may involve certain risks (such as delays in payment for or delivery of securities) not typically involved with the settlement of U.S. investments. Communications between the U.S. and emerging market countries may be unreliable, increasing the risk of delayed settlements or losses of security certificates. Settlements in certain foreign countries at times have not kept pace with the number of securities transactions. The problems may make it difficult for the Fund to carry out transactions. If the Fund cannot settle or is delayed in settling a purchase of securities, the Fund may miss attractive investment opportunities and certain of its assets may be uninvested with no return earned thereon for some period. If the Fund cannot settle or is delayed in settling a sale of securities, directly or indirectly, it may lose money if the value of the security then declines or, if it has contracted to sell the security to another party, the Fund could be liable to that party for any losses incurred.

Dividends and interest on, and proceeds from the sale of, foreign securities the Fund holds, or has exposure to, may be subject to foreign withholding or other taxes, and special federal tax considerations may apply.

Depository Receipts

The Fund may invest in foreign securities by purchasing sponsored and unsponsored depository receipts, including American Depository Receipts ("ADRs"), European Depository Receipts ("EDRs") and Global Depository Receipts ("GDRs") or other securities convertible into securities of issuers based in foreign countries. These securities may not necessarily be denominated in the same currency as the securities which they represent. Generally, ADRs, in registered form, are denominated in U.S. dollars and are designed for use in the U.S. securities markets, GDRs, in bearer form, are issued and designed for use outside the United States and EDRs (also referred to as Continental Depository Receipts ("CDRs")), in bearer form, may be denominated in other currencies and are designed for use in European securities markets. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities. EDRs are European receipts evidencing a similar arrangement. GDRs are receipts typically issued by non-United States banks and trust companies that evidence ownership of either foreign or domestic securities. For purposes of the Fund's investment policies, ADRs, GDRs and EDRs are deemed to have the same classification as the underlying securities they represent. Thus, an ADR, GDR or EDR representing ownership of common stock will be treated as common stock.

In an unsponsored arrangement, the foreign issuer assumes no obligations and the depository's transaction fees are paid by the depository holder. Unsponsored depository receipts may be created without the participation of the foreign issuer. Holders of these receipts generally bear all the costs of the depository receipt facility, whereas foreign issuers typically bear certain costs in a sponsored depository receipt. The bank or trust company depository of an unsponsored depository receipt may be under no obligation to distribute shareholder communications received from the foreign issuer or to pass through voting rights. Accordingly, available information concerning the issuer may not be current, and the prices of unsponsored depository receipts may be more volatile than the prices of sponsored depository receipts. In addition, the issuers of securities underlying unsponsored depository receipts may be subject to less stringent government supervision.

Futures Contracts and Related Options

The Fund may purchase or sell stock index futures contracts and options thereon, including as a substitute for a comparable market position in the underlying securities, to hedge the portfolio, or to satisfy regulatory requirements. A futures contract generally obligates the seller to deliver (and the purchaser to take delivery of) the specified commodity on the expiration date of the contract. A stock index futures contract obligates the seller to deliver (and the purchaser to take) an amount of cash equal to a specific dollar amount (the contract multiplier) multiplied by the difference between the final settlement price of a specific stock index futures contract and the price at which the agreement is made. No physical delivery of the underlying stocks in the index is made.

The Fund generally chooses to engage in closing or offsetting transactions before final settlement wherein a second identical futures contract is sold to offset a long position (or bought to offset a short position). In such cases the obligation is to deliver (or take delivery of) cash equal to a specific dollar amount (the contract multiplier) multiplied by the difference between the

price of the offsetting transaction and the price at which the original contract was entered into. If the original position entered into is a long position (futures contract purchased) there will be a gain (loss) if the offsetting sell transaction is done at a higher (lower) price, inclusive of commissions. If the original position entered into is a short position (futures contract sold) there will be a gain (loss) if the offsetting buy transaction is done at a lower (higher) price, inclusive of commissions.

Whether the Fund realizes a gain or loss from futures activities depends generally upon movements in the underlying asset. The extent of the Fund's loss from an unhedged short position in futures contracts is potentially unlimited. The Fund may engage in related closing transactions with respect to options on futures contracts. The Fund intends to engage in transactions in futures contracts that are traded on a U.S. exchange or board of trade or that have been approved for sale in the United States by the CFTC.

Upon entering into a futures contract, the Fund will be required to deposit with the broker an amount of cash or cash equivalents known as "initial margin," which is in the nature of a performance bond or good faith deposit on the contract, and that is returned to the Fund upon termination of the futures contract, assuming all contractual obligations have been satisfied. Subsequent payments, known as "variation margin," to and from the broker will be made daily as the price of the index underlying the futures contract fluctuates, making the long and short positions in the futures contract more or less valuable, a process known as "marking-to-market." At any time prior to expiration of a futures contract, the Fund may elect to close its position by taking an opposite position, which will operate to terminate the Fund's existing position in the contract.

The Fund may cover its long position in a futures contract by taking a short position in the instruments underlying the futures contract, or by taking positions in instruments the prices of which are expected to move relatively consistently inversely with the futures contract. The Fund may cover its short position in a futures contract by taking a long position in the instruments underlying the futures contract, or by taking positions in instruments, the prices of which are expected to move relatively consistently to the futures contract. The Fund may "cover" its short position in a futures contract by purchasing a call option on the same futures contract with a strike price (*i.e.*, an exercise price) as low or lower than the price of the futures contract, or, if the strike price of the call is greater than the price of the futures contract, the Fund will earmark or segregate cash or liquid instruments equal in value to the difference between the strike price of the call and the price of the future. The Fund may cover its long or short positions in futures by earmarking or segregating with its custodian bank or on the books and records of the Fund (and mark-to-market on a daily basis) cash or liquid instruments that, when added to any amounts deposited with a futures commission merchant as margin, are equal to the market value of the futures contract or otherwise "cover" its position.

Although the Fund intends to sell futures contracts only if there is an active market for such contracts, no assurance can be given that a liquid market will exist for any particular contract at any particular time. Many futures exchanges and boards of trade limit the amount of fluctuation permitted in futures contract prices during a single trading day. Once the daily limit has been reached in a particular contract, no trades may be made that day at a price beyond that limit or trading may be suspended for specified periods during the day. Futures contract prices could move to the limit for several consecutive trading days with little or no trading, thereby preventing prompt liquidation of futures positions and potentially subjecting the Fund to substantial losses. If trading is not possible, or if the Fund determines not to close a futures position in anticipation of adverse price movements, the Fund will be required to make daily cash payments of variation margin. The risk that the Fund will be unable to close out a futures position will be minimized by entering into such transactions on a national securities exchange with an active and liquid secondary market.

Illiquid Securities

The Fund may invest up to 15% of its net assets in illiquid securities. For this purpose, "illiquid securities" are securities that the Fund may not sell or dispose of within seven days in the ordinary course of business at approximately the amount at which the Fund has valued the securities. A repurchase agreement maturing in more than seven days is considered illiquid, unless it can be terminated after a notice period of seven days or less.

Cambria also may deem certain securities to be illiquid as a result of Cambria's receipt from time to time of material, non-public information about an issuer, which may limit Cambria's ability to trade such securities for the account of any of its clients, including the Fund. In some instances, these trading restrictions could continue in effect for a substantial period of time.

At times, the inability to sell illiquid securities can make it more difficult to determine their fair value for purposes of computing the Fund's net asset value. The judgment of Cambria normally plays a greater role in valuing these securities than in valuing publicly traded securities.

Options Contracts

The Fund may purchase put and call options on specific securities (including groups or “baskets” of specific securities), interest rates, and indices. In addition, the Fund may write put and call options on such financial instruments.

Options on Securities. The Fund may purchase put and call options on securities. A put option on a security gives the purchaser of the option the right (but not the obligation) to sell, and the writer of the option the obligation to buy, the underlying security at a stated price (the “exercise price”) at any time before the option expires. A call option on a security gives the purchaser the right (but not the obligation) to buy, and the writer the obligation to sell, the underlying security at the exercise price at any time before the option expires. The purchase price for a put or call option is the “premium” paid by the purchaser for the right to sell or buy.

The Fund may purchase put options to hedge against a decline in the value of its portfolio. By using put options in this way, the Fund would reduce any profit it might otherwise have realized in the underlying security by the amount of the premium paid for the put option and by transaction costs. In similar fashion, the Fund may purchase call options to protect against an increase in the price of securities that the Fund anticipates purchasing in the future, a practice sometimes referred to as “anticipatory hedging.” The premium paid for the call option plus any transaction costs will reduce the benefit, if any, realized by the Fund upon exercise of the option, and, unless the price of the underlying security rises sufficiently, the option may expire unexercised.

Options on Interest Rates and Indices. The Fund may purchase put and call options on interest rates and bond indices. An option on interest rates or on an index gives the holder the right to receive, upon exercise of the option, an amount of cash if the closing value of the underlying interest rate or index is greater than, in the case of a call, or less than, in the case of a put, the exercise price of the option. This amount of cash is equal to the difference between the exercise-settlement value of the interest rate option or the closing price of the index and the exercise price of the option expressed in dollars times a specified multiple (the “multiplier”). The writer of the option is obligated, for the premium received, to make delivery of this amount. Settlements for interest rate and index options are always in cash.

Repurchase Agreements

The Fund may enter into repurchase agreements with banks and broker-dealers. A repurchase agreement is an agreement under which securities are acquired by the Fund from a securities dealer or bank subject to resale at an agreed upon price on a later date. The Fund bears a risk of loss in the event that the other party to a repurchase agreement defaults on its obligations and the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities. Such a default may subject the Fund to expenses, delays, and risks of loss including: (i) possible declines in the value of the underlying security while the Fund seeks to enforce its rights, (ii) possible reduced levels of income and lack of access to income during this period, and (iii) the inability to enforce its rights and the expenses involved in attempted enforcement.

Repurchase agreements may be treated as loans by the SEC staff. The Fund will not enter into repurchase agreements if, as a result, the aggregate amount of the Fund’s loans would exceed 33 1/3% of its total assets.

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements, which involve the sale of securities held by the Fund subject to its agreement to repurchase the securities at an agreed-upon date or upon demand and at a price reflecting a market rate of interest. Reverse repurchase agreements are subject to the Fund’s limitation on borrowings and may be entered into only with banks or securities dealers or their affiliates. While a reverse repurchase agreement is outstanding, the Fund will maintain the segregation, either on its records or with the Trust’s custodian, of cash or other liquid securities, marked to market daily, in an amount at least equal to its obligations under the reverse repurchase agreement.

Reverse repurchase agreements involve the risk that the buyer of the securities sold by the Fund might be unable to deliver them when the Fund seeks to repurchase. If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the buyer or trustee or receiver may receive an extension of time to determine whether to enforce the Fund’s obligation to repurchase the securities, and the Fund’s use of the proceeds of the reverse repurchase agreement may effectively be restricted pending such decision.

Securities Lending

The Fund may make secured loans of their portfolio securities; however, securities loans will not be made if, as a result, the aggregate amount of all outstanding securities loans by the Fund exceeds 33 1/3% of its total assets (including the market value of collateral received). For purposes of complying with the Fund's investment policies and restrictions, collateral received in connection with securities loans is deemed an asset of the Fund to the extent required by law. The Fund continues to receive dividends or interest, as applicable, on the securities loaned and simultaneously earns either interest on the investment of the cash collateral or fee income if the loan is otherwise collateralized.

To the extent the Fund engages in securities lending, securities loans will be made to broker-dealers that Cambria believes to be of relatively high credit standing pursuant to agreements requiring that the loans continuously be collateralized by cash, liquid securities, or shares of other investment companies with a value at least equal to the market value of the loaned securities. As with other extensions of credit, the Fund bears the risk of delay in the recovery of the securities and of loss of rights in the collateral should the borrower fail financially. The Fund also bears the entire risk of loss on any reinvested collateral received in connection with securities lending.

Voting rights or rights to consent with respect to the loaned securities pass to the borrower. The Fund has the right to call loans at any time on reasonable notice. However, the Fund bears the risk of delay in the return of the security, impairing the Fund's ability to vote on such matters. Cambria will retain lending agents on behalf of the Fund based on a percentage of the Fund's return on its securities lending. The Fund may also pay various fees in connection with securities loans, including shipping fees and custodian fees. The costs of lending securities are not reflected in the Fund's Annual Fund Operating Expenses.

Cyber Security Risk

The Fund, and its service providers, may be prone to operational and information security risks resulting from cyber-attacks. Cyber-attacks include, among other behaviors, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential information or various other forms of cyber security breaches. Cyber-attacks affecting the Fund or its advisors, custodian, transfer agent, intermediaries and other third-party service providers may adversely impact the Fund. For instance, cyber-attacks may interfere with the processing of shareholder transactions, impact the Fund's ability to calculate its NAV, cause the release of private shareholder information or confidential business information, impede trading, subject the Fund to regulatory fines or financial losses and/or cause reputational damage. The Fund may also incur additional costs for cyber security risk management purposes. While the Fund's service providers have established business continuity plans, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Fund cannot control the cyber security plans and systems put in place by its service providers or any other third parties whose operations may affect the Fund or its shareholders. Similar types of cyber security risks are also present for issues or securities in which the Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund's investment in such companies to lose value.

PORTFOLIO TURNOVER

"Portfolio Turnover Rate" is defined under the rules of the SEC as the lesser of the value of the securities purchased or of the securities sold, excluding all securities whose maturities at the time of acquisition were one-year or less, divided by the average monthly value of such securities owned during the year. Based on this definition, instruments with a remaining maturity of less than one-year are excluded from the calculation of the portfolio turnover rate. Instruments excluded from the calculation of portfolio turnover generally would include the futures contracts and option contracts in which the Fund invests because such contracts generally have a remaining maturity of less than one-year.

The value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's shares also is excluded from the calculation of the Fund's portfolio turnover rate. As a result, the Fund's reported portfolio turnover may be low despite relatively high portfolio activity which would, in turn, produce correspondingly greater expenses for the Fund, including brokerage commissions or dealer mark-ups and other transaction costs on the sale of securities and reinvestments in other securities. Generally, the higher the rate of portfolio turnover of a fund, the higher these transaction costs borne by the fund and its long-term shareholders. Such sales may result in a substantial amount of distributions from the Fund to be taxed as ordinary income, which may limit the tax efficiency of the Fund.

The Fund has not commenced operations as of the date of this SAI. Accordingly, no portfolio turnover information is provided.

MANAGEMENT OF THE FUND

Trustees and Officers

The business and affairs of the Trust are managed by its officers under the oversight of its Board. The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of Cambria and the Trust's other service providers. Each Trustee serves until his or her successor is duly elected or appointed and qualified.

The Board is comprised of three Trustees. One Trustee and certain of the officers of the Trust are directors, officers or employees of Cambria. The other Trustees are not "interested persons" (as defined in Section 2(a)(19) of the Investment Company Act) of the Trust (the "Independent Trustees"). The fund complex includes all Funds advised by Cambria (the "Fund Complex").

The Trustees, their age (by year of birth), term of office and length of time served, their principal business occupations during the past five years, the number of portfolios in the Fund Complex overseen and other directorships, if any, held by each Trustee, are shown below. The officers, their age (by year of birth), term of office and length of time served and their principal business occupations during the past five years, are shown below. Unless noted otherwise, the address of each Trustee and each Officer is: c/o Cambria ETF Trust, 2321 Rosecrans Avenue, Suite 3225, El Segundo, California 90245.

Name and Year of Birth	Position(s) Held with Trust, Term of Office, and Length of Time Served	Principal Occupation During Past 5 Years	Number of Funds in Fund Complex Overseen by Trustee	Other Directorships Held by Trustee During Past 5 Years
Independent Trustees				
Eric Leake YOB: 1970	Trustee since 2013	Partner and Chief Investment Officer, Anchor Capital Management Group, Inc. (since 1996).	12	Board Member, National Association of Active Investment Management (NAAIM) (2008-2010).

Name and Year of Birth	Position(s) Held with Trust, Term of Office, and Length of Time Served	Principal Occupation During Past 5 Years	Number of Funds in Fund Complex Overseen by Trustee	Other Directorships Held by Trustee During Past 5 Years
Dennis G. Schmal YOB: 1947	Trustee since 2013	Self-employed consultant (since 2003).	12	Director, AssetMark (formerly Genworth) Mutual Funds (2007-present); Trustee, Grail Advisors ETF Trust (2009-2011); Director, Merriman Holdings Inc. (formerly MCF Corp.) (financial services) (2003-2016); Director, Owens Realty Mortgage Inc. (real estate) (2013-present); Director and Chairman, Pacific Metrics Corporation (2005-2014) (educational services); Director and Chairman, Sitoa Global (2011-2013) (e-commerce); Director, Varian Semiconductor (2004-2011); Trustee, Wells Fargo GAI Hedge Funds (2008-present); Director, Blue Calypso (2015-present) (e-commerce).
Interested Trustee*				
Mebane Faber YOB: 1977	Trustee and President of the Trust since 2018	Co-Founder and Chief Investment Officer, Cambria Investment Management, L.P. (2006 – present); Vice President, Cambria ETF Trust (2013 – 2018); Chairman and President, Cambria ETF Trust (2018 – present).	12	None

* Mr. Faber is an “interested person,” as defined by the Investment Company Act, because of his employment with and ownership interest in Cambria.

Officers

Name and Year of Birth	Position(s) Held with Trust, Term of Office and Length of Time Served	Principal Occupation During Past 5 Years
Eric Kleinschmidt YOB: 1968	Principal Financial Officer since 2016	Director of Fund Accounting at SEI since 2004.
Himanshu Sudhir Surti YOB: 1974	Vice President since 2018	Chief Operating Officer (2014 – present), Portfolio Manager (2014 – present), Cambria Investment Management, L.P.; Strategy Manager (2008 – 2013), Research Affiliates, LLC.
Syed Umar Faisal Ehtisham YOB: 1981	Chief Compliance Officer from 2015 to 2016 and since 2017	Compliance Consultant (2014 – present), Cipperman Compliance Services; Audit Manager (2013 – 2014), E*Trade Financial Services.

Additional Information About the Trustees

The following provides information additional to that set forth in the table above regarding other relevant qualifications, experience, attributes or skills applicable to each Trustee.

Eric Leake: Mr. Leake has extensive experience in the investment management industry as a partner and chief investment officer of an investment adviser.

Dennis G. Schmal: Mr. Schmal has extensive experience in the investment management industry, including as a member of senior management of the investment company audit practice at a large public accounting firm, as well as service on multiple boards of directors overseeing public companies, registered investment companies and private companies and funds.

Mebane Faber: Mr. Faber has extensive experience in the investment management industry, including as a portfolio manager, an author of multiple investment strategy books, and host of his own wealth management podcast.

The Board has determined that each Trustee on an individual basis and in combination with the other Trustees is qualified to serve, and should serve, on the Board. To make this determination the Board considered a variety of criteria, none of which in isolation was controlling. Among other things, the Board considered each Trustee’s experience, qualifications, attributes and skills.

Board Structure

Mr. Faber is considered to be an Interested Trustee and serves as Chairman of the Board. The Chairman’s responsibilities include: setting an agenda for each meeting of the Board; presiding at all meetings of the Board and, if present, meetings of the Independent Trustees; and, serving as a liaison between the other Trustees, Trust officers, management personnel and counsel.

The Board believes that having an interested Chairman, who is familiar with Cambria and its operations, while also having two-thirds of the Board composed of Independent Trustees, strikes an appropriate balance that allows the Board to benefit from the insights and perspective of a representative of management while empowering the Independent Trustees with the ultimate decision-making authority. The Board has not appointed a lead Independent Trustee at this time. The Board does not believe that an independent Chairman or lead Independent Trustee would enhance the Board’s effectiveness, as the relatively small size of the Board allows for diverse viewpoints to be shared and for effective communications between and among Independent Trustees and management so that meetings proceed efficiently. Independent Trustees have effective control over the Board’s agenda because they form a majority of the Board and can request presentations and agenda topics at Board meetings.

The Board normally holds four regularly scheduled meetings each year, at least one of which is in person. The Board may hold special meetings, as needed, either in person or by telephone, to address matters arising between regular meetings. The Independent Trustees meet separately at each regularly scheduled in-person meeting of the Board; during a portion of each such separate meeting management is not present. The Independent Trustees may also hold special meetings, as needed, either in person or by telephone.

The Board conducts a self-assessment on an annual basis, as part of which it considers whether the structure of the Board and its Committees is appropriate under the circumstances. Based on such self-assessment, among other things, the Board considers whether its current structure is appropriate. As part of this self-assessment, the Board considers several factors, including the number of Funds overseen by the Board, their investment objectives, and the responsibilities entrusted to Cambria and other service providers with respect to the oversight of the day-to-day operations of the Trust and the Funds.

The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of Cambria and the Trust's other service providers. As part of its oversight function, the Board monitors Cambria's risk management, including, as applicable, its management of investment, compliance and operational risks, through the receipt of periodic reports and presentations. The Board has not established a standing risk committee. Rather, the Board relies on Trust officers, advisory personnel and service providers to manage applicable risks and report exceptions to the Board in order to enable it to exercise its oversight responsibility. To this end, the Board receives reports from such parties at least quarterly, including, but not limited to, investment and/or performance reports, distribution reports, Rule 12b-1 reports, valuation and internal controls reports. Similarly, the Board receives quarterly reports from the Trust's chief compliance officer ("CCO"), including, but not limited to, a report on the Trust's compliance program, and the Independent Trustees have an opportunity to meet separately each quarter with the CCO. The CCO typically provides the Board with updates regarding the Trust's compliance policies and procedures, including any enhancements to them. The Board expects all parties, including, but not limited to, Cambria, other service providers and the CCO, to inform the Board on an intra-quarter basis if a material issue arises that requires the Board's oversight.

The Board generally exercises its oversight as a whole, but has delegated certain oversight functions to an Audit Committee. The function of the Audit Committee is discussed in detail below.

Committees

The Board currently has two standing committees: an Audit Committee and a Nominating Committee. Each Independent Trustee serves on each of these committees.

The purposes of the Audit Committee are to: (1) oversee generally the Fund's accounting and financial reporting policies and practices, their internal controls and, as appropriate, the internal controls of certain service providers; (2) oversee the quality, integrity, and objectivity of the Fund's financial statements and the independent audit thereof; (3) assist the full Board with its oversight of the Trust's compliance with legal and regulatory requirements that relate to the Fund's accounting and financial reporting, internal controls and independent audits; (4) approve, prior to appointment, the engagement of the Trust's independent auditors and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust's independent auditors; and (5) act as a liaison between the Trust's independent auditors and the full Board. During the fiscal year ended April 30, 2017, the Audit Committee met two times.

The purposes of the Nominating Committee are, among other things, to: (1) identify and recommend for nomination candidates to serve as Trustees and/or on Board committees who are not "interested persons" as defined in Section 2(a)(19) of the Investment Company Act ("Interested Person") of the Trust and who meet any independence requirements of Exchange Rule 5.3(k)(1) or the applicable rule of any other exchange on which shares of the Trust are listed; (2) evaluate and make recommendations to the full Board regarding potential trustee candidates who are Interested Persons of the Trust; and (3) review periodically the workload and capabilities of the Trustees and, as the Committee deems appropriate, to make recommendations to the Board if such a review suggests that changes to the size or composition of the Board and/or its committees are warranted. The Committee does not consider potential candidates for nomination identified by shareholders. During the fiscal year ended April 30, 2017, the Nominating Committee did not meet.

Compensation of Trustees. The Independent Trustees determine the amount of compensation that they receive. In determining compensation for the Independent Trustees, the Independent Trustees take into account a variety of factors including, among other things, their collective significant work experience (*e.g.*, in business and finance, government or academia). The Independent Trustees also recognize that these individuals' advice and counsel are in demand by other organizations, that these individuals may reject other opportunities because of the time demands of their duties as Independent Trustees, and that they undertake significant legal responsibilities. The Independent Trustees also consider the compensation paid to independent board members of other registered investment company complexes of comparable size.

The Independent Trustees are paid \$7,500 per quarter for attendance at meetings of the Board and the Chairman of the Audit Committee receives an additional \$1,250 per quarter. The Trust's officers and any interested Trustees receive no compensation directly from the Trust. All Trustees are reimbursed for their travel expenses and other reasonable out-of-pocket expenses incurred in connection with attending Board meetings. The Trust does not accrue pension or retirement benefits as part of the Fund's expenses, and Trustees are not entitled to benefits upon retirement from the Board.

The following table reflects the compensation paid to the Trustees for the fiscal year ended April 30, 2017:

Independent Trustees	Compensation*	Compensation Deferred*	Total Compensation from the Fund Complex Paid to Trustee*
Eric Leake	\$30,000	\$0	\$30,000
Dennis G. Schmal	\$35,000	\$0	\$35,000
Interested Trustee			
Eric W. Richardson**	\$0	\$0	\$0
Mebane Faber***	\$0	\$0	\$0

* Trustee compensation is allocated across the series of the Fund Complex on the basis of assets under management. Under the Fund’s Management Agreements, however, Cambria ultimately pays the compensation and expenses of the Trustees.

** Mr. Richardson was an “interested person,” as defined by the Investment Company Act, for the fiscal year ended April 30, 2017, because of his employment with and ownership interest in Cambria.

*** Mr. Faber was not a Trustee during the fiscal year ended April 30, 2017.

Equity Ownership of Trustees. As of the date of this SAI, the Trustees did not own any Shares of the Fund. In addition, as of April 30, 2017, (i) the Independent Trustees did not own any shares of the other series of the Trust, and (ii) Mr. Faber owned, on an aggregate basis, shares of the other series of the Trust valued over \$100,000 as of February 22, 2018.

As of December 31, 2016, none of the Independent Trustees or their immediate family members beneficially owned any securities in any investment adviser or principal underwriter of the Trust, or in any person (other than a registered investment company) directly or indirectly controlling, controlled by, or under common control with an investment adviser or principal underwriter of the Trust.

Codes of Ethics

The Board, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the Investment Company Act. In addition, Cambria and the Distributor each have adopted a Code of Ethics pursuant to Rule 17j-1. These Codes of Ethics (each a “Code of Ethics” and together the “Codes of Ethics”) apply to the personal investing activities of trustees, directors, officers and certain employees (“access persons”). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. In addition, certain access persons are required to obtain approval before investing in private placements and are prohibited from investing in IPOs. Copies of the Codes of Ethics are on file with the SEC, and are available to the public.

Proxy Voting

The Board has delegated to Cambria the responsibility to vote proxies related to the securities held in the Fund’s portfolio. Under this authority, Cambria is required by the Board to vote proxies related to portfolio securities in the best interests of the Fund and its shareholders. Cambria will vote such proxies in accordance with its proxy policies and procedures, which are included in Appendix A to this SAI.

The Trust discloses its complete proxy voting record on Form N-PX annually. The Trust’s most recent Form N-PX is available without charge, upon request, by calling 855-ETF-INFO (383-4636). The Trust’s Form N-PX also is available on the SEC’s website at www.sec.gov.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

Cambria owns all of the initial Shares issued by the Fund prior to the commencement of investment operations and the public launch of the Fund.

INVESTMENT MANAGEMENT AND OTHER SERVICES

Investment Advisory Agreement

Under an investment advisory agreement between Cambria and the Trust (“Management Agreement”), the Fund pays Cambria a fee at an annualized rate, which is calculated daily and paid monthly, based on its average daily net assets, set forth in the table below:

Fund	Advisory Fee
Cambria Core Equity ETF	1.05%

Cambria manages the investment and the reinvestment of the Fund’s assets, in accordance with its investment objective, policies, and limitations, subject to the general supervision and control of the Board. Cambria is a registered investment adviser under the Investment Advisers Act of 1940 and is a limited partnership organized under the laws of Delaware. The address of Cambria is 2321 Rosecrans Avenue, Suite 3225, El Segundo, California 90245. Mebane Faber, Pursell Management Co., LLC, Angel Reyes, IV Descendants Trust, Sofia Reyes Descendants Trust, Cambria Investments Holdings, LLC, and Cambria Investments Holdings II, LLC are limited partners and Cambria GP, LLC is the general partner. Cambria GP, LLC is owned by Mebane Faber. Cambria was founded in 2006 and provides investment advisory services to registered and unregistered investment companies, individuals (including high net worth individuals), pensions and charitable organizations.

Under the Management Agreement, Cambria bears all of the costs of the Fund, except for the advisory fee, payments under the Fund’s 12b-1 plan, brokerage expenses, acquired fund fees and expenses, taxes, interest (including borrowing costs and dividend expenses on securities sold short), litigation expenses and other extraordinary expenses (including litigation to which the Trust or the Fund may be a party and indemnification of the Trustees and officers with respect thereto).

The Management Agreement provides that Cambria will not be liable for any error of judgment or mistake of law or for any loss suffered by the Trust in connection with the matters to which the Management Agreement relates, but will be liable to the Trust and its shareholders only for willful misfeasance, bad faith, or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

The Management Agreement also provides that Cambria may engage in other businesses, devote time and attention to any other business whether of a similar or dissimilar nature, and render investment advisory services to others.

The Management Agreement will remain in effect for two (2) years from its effective date and thereafter continue in effect for as long as its continuance is specifically approved at least annually, by (1) the vote of the Trustees or by a vote of a majority of the shareholders of the Fund, and (2) by the vote of a majority of the Trustees who are not parties to the Management Agreement or Interested Persons of any person thereto, cast in person at a meeting called for the purpose of voting on such approval. The Management Agreement provides that it may be terminated at any time, without the payment of any penalty, by the Board of Trustees or by a majority of the outstanding shares of the Fund, on 60 days’ written notice to Cambria, and by Cambria upon 60 days’ written notice and that it shall be automatically terminated if it is assigned.

On January 24, 2018, Eric Richardson, a controlling owner of Cambria passed away, which resulted in a change in control of Cambria and the automatic termination of the Management Agreement. At a special telephonic meeting on February 7, 2018, the Board, including all of the Independent Trustees, approved an interim advisory agreement between Cambria and the Trust, on behalf of the Fund, pursuant to Rule 15a-4(b)(1) of the Investment Company Act. The terms and compensation payable to Cambria under the interim advisory agreement are identical to those of the Management Agreement, except that the interim agreement terminates upon either shareholder approval of a new advisory agreement for the Fund or the 150th day following the interim agreement’s effective date, whichever occurs first.

Custodian and Transfer Agent

Brown Brothers Harriman & Co. (“BBH”), located at 50 Post Office Square, Boston, Massachusetts 02109, serves as the Custodian and Transfer Agent of the Fund’s assets. As Custodian, BBH has agreed to: (1) make receipts and disbursements of money on behalf of the Fund, (2) collect and receive all income and other payments and distributions on account of the Fund’s portfolio investments, and (3) make periodic reports to the Fund concerning the Fund’s operations. BBH does not exercise any supervisory function over the purchase and sale of securities. As compensation for these services, the Custodian receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by Cambria from its fees.

As Transfer Agent, BBH has agreed to: (1) issue and redeem shares of the Fund in Creation Units, (2) make dividend and other distributions to shareholders of the Fund, (3) maintain shareholder accounts, and (4) make periodic reports to the Fund. As compensation for these services, the Transfer Agent receives certain out-of-pocket costs and transaction fees which are accrued daily and paid monthly by Cambria from its fees.

Administrator

SEI Investments Global Funds Services (the “Administrator”), located at 1 Freedom Valley Drive, Oaks, Pennsylvania 19456, serves as the Administrator, and Fund Accountant to the Fund. The Administrator provides the Fund with all required general administrative services, including, without limitation, clerical and general back office services; bookkeeping, internal accounting and secretarial services; the calculation of NAV; and the preparation and filing of all reports, updates to registration statements, and all other materials required to be filed or furnished by the Fund under federal and state securities laws. As compensation for these services, the Administrator receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by Cambria from its fees.

PORTFOLIO MANAGERS

The following table provides information about the Cambria portfolio managers who have day-to-day responsibility for management of the Fund. None of the accounts listed below are subject to a performance-based advisory fee. The reporting information is provided as of May 15, 2017:

Name	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Number of Accounts	Total Assets (in millions)	Number of Accounts	Total Assets (in millions)	Number of Accounts	Total Assets (in millions)
David Pursell	10	\$420	1	\$3	377	\$40
Mebane Faber	10	\$420	1	\$3	377	\$40

Potential Conflicts of Interest

The portfolio managers’ management of “other accounts” may give rise to potential conflicts of interest in connection with their management of the Fund’s investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the portfolio managers could favor one account over another. Another potential conflict could include the portfolio managers’ knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. Cambria has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated. There can be no assurance, however, that these policies and procedures will be effective.

Compensation

Each portfolio manager owns an equity interest in Cambria and their compensation is determined by the advisory fee revenue generated by the firm’s assets under management. Thus, portfolio manager compensation is aligned with the interests of Cambria’s clients, including the Fund and its investors, because it is in the portfolio managers’ best interests to grow the assets of its clients, including the Fund, by delivering strong performance to each. The portfolio managers may also earn a bonus each year based on the profitability of Cambria.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Brokerage Transactions

Portfolio changes will generally be implemented through in-kind transactions for Creation Units; however, Cambria may execute brokerage transactions for the Fund and the Fund may incur brokerage commissions, particularly during the early stages of the Fund’s development or in the case of transactions involving realized losses. Also, the Fund may accept cash as part or all of an In-Kind Creation or Redemption Basket, in which case Cambria may need to execute brokerage transactions for the Fund. Generally, equity securities, including securities of underlying ETFs, are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or

concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. Money market securities and other debt securities are usually bought and sold directly from the issuer or an underwriter or market maker for the securities. Generally, the Fund will not pay brokerage commissions for such purchases. When a debt security is bought from an underwriter, the purchase price will usually include an underwriting commission or concession. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark-up or reflect a dealer's mark-down. When the Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In addition, Cambria may place a combined order, often referred to as "bunching," for two or more accounts it manages, including the Fund, engaged in the purchase or sale of the same security or other instrument if, in its judgment, joint execution is in the best interest of each participant and will result in best price and execution. Transactions involving commingled orders are allocated in a manner deemed equitable to each account or Fund. Although it is recognized that, in some cases, the joint execution of orders could adversely affect the price or volume of the security that a particular account or the Fund may obtain, it is the opinion of Cambria that the advantages of combined orders outweigh the possible disadvantages of separate transactions. In addition, in some instances the Fund effecting the larger portion of a combined order may not benefit to the same extent as participants effecting smaller portions of the combined order. Nonetheless, Cambria believes that the ability of the Fund to participate in higher volume transactions will generally be beneficial to the Fund.

The Fund had not commenced operations as of the date of this SAI. Accordingly, for the fiscal year ended April 30, 2017, the Fund did not pay any brokerage commissions.

Brokerage Selection

The Trust does not expect to use one particular broker-dealer to effect the Trust's portfolio transactions. When one or more broker-dealers is believed capable of providing the best combination of price and execution, Cambria may not select a broker-dealer based on the lowest commission rate available for a particular transaction. In such cases, Cambria may pay a higher commission than otherwise obtainable from other brokers in return for brokerage or research services provided to Cambria consistent with Section 28(e) of the 1934 Act, which provides that Cambria may cause the Fund to pay a broker-dealer a commission for effecting a transaction in excess of the amount of commission another broker-dealer would have charged as long as Cambria makes a good faith determination that the amount of commission is reasonable in relation to the value of the brokerage and research services provided by the broker-dealer. To the extent Cambria obtains brokerage and research services that it otherwise would acquire at its own expense, Cambria may have an incentive to place a greater volume of transactions or pay higher commissions than would otherwise be the case.

Cambria will only obtain brokerage and research services from broker-dealers in arrangements that are consistent with Section 28(e) of the 1934 Act. The types of products and services that Cambria may obtain from broker-dealers through such arrangements will include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. Cambria may use products and services provided by brokers in servicing all of its client accounts and not all such products and services may necessarily be used in connection with the account that paid commissions to the broker-dealer providing such products and services. Any advisory or other fees paid to Cambria are not reduced as a result of the receipt of brokerage and research services.

In some cases Cambria may receive a product or service from a broker that has both a "research" and a "non-research" use. When this occurs, Cambria will make a good faith allocation between the research and non-research uses of the product or service. The percentage of the service that is used for research purposes may be paid for with brokerage commissions, while Cambria will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, Cambria faces a potential conflict of interest, but Cambria believes that its allocation procedures are reasonably designed to appropriately allocate the anticipated use of such products and services to research and non-research uses.

The Fund had not commenced operations as of the date of this SAI. Accordingly, for the fiscal year ended April 30, 2017, the Fund did not pay any commissions on brokerage transactions directed to brokers pursuant to an agreement or understanding whereby the broker provides research or other brokerage services to Cambria.

Brokerage with Fund Affiliates

Although not expected, the Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Fund, Cambria, or the Distributor for a commission in conformity with the Investment Company Act, the 1934 Act and rules promulgated by the SEC. Under the Investment Company Act and the 1934 Act, affiliated broker-dealers

are permitted to receive and retain compensation for effecting portfolio transactions for the Fund on an exchange if a written contract is in effect between the affiliate and the Fund expressly permitting the affiliate to receive and retain such compensation. These rules further require that commissions paid to the affiliate by the Fund for exchange transactions not exceed “usual and customary” brokerage commissions. The rules define “usual and customary” commissions to include amounts that are “reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time.” The Board, including those who are not “interested persons” of the Fund, has adopted procedures for evaluating the reasonableness of commissions paid to affiliates and reviews these procedures periodically.

The Fund had not commenced operations as of the date of this SAI. Accordingly, for the fiscal year ended April 30, 2017, the Fund did not pay any commissions to affiliated broker-dealers.

Securities of “Regular Broker-Dealers”

The Fund is required to identify any securities of its “regular brokers and dealers” (as such term is defined in the Investment Company Act) (or the parent of the regular broker-dealers) that the Fund may hold at the close of its most recent fiscal year. “Regular brokers and dealers” of the Trust are the ten brokers or dealers that, during the most recent fiscal year: (i) received the greatest dollar amounts of brokerage commissions from the Trust’s portfolio transactions; (ii) engaged as principal in the largest dollar amounts of portfolio transactions of the Trust; or (iii) sold the largest dollar amounts of the Trust’s shares.

The Fund had not commenced operations as of the date of this SAI. Accordingly, for the fiscal year ended April 30, 2017, the Fund did not hold any securities of its “regular brokers and dealers.”

THE DISTRIBUTOR

The Distributor is SEI Investments Distribution Co., 1 Freedom Valley Drive, Oaks, Pennsylvania 19456.

Shares will be continuously offered for sale by the Trust through the Distributor only in Creation Units, as described below under “Transactions in Creation Units.” Shares in less than Creation Units are not distributed by the Distributor. The Distributor also acts as agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority, Inc. The Distributor has no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

The Board has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the Investment Company Act (“Plan”). In accordance with its Plan, the Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year for certain distribution-related activities. In addition, if the payment of management fees by the Fund is deemed to be indirect financing by the Fund of the distribution of its shares, such payment is authorized by the Plan. The Plan specifically recognizes that Cambria may use its legitimate profits to pay for expenses incurred in connection with providing services intended to result in the sale of Shares. Cambria may pay amounts to third parties for distribution or marketing services on behalf of the Fund.

The Plan was adopted in order to permit the implementation of the Fund’s method of distribution. No fees are currently paid by the Fund under the Plan, however, and there are no current plans to impose such fees. In the event such fees were to be charged, over time they would increase the cost of an investment in the Fund because they would be paid on an ongoing basis. If fees were charged under the Plan, the Trustees would receive and review at the end of each quarter a written report provided by the Distributor of the amounts expended under the Plan and the purpose for which such expenditures were made. The Plan is a compensation plan, which means that, if the Plan were activated, the Distributor would be compensated regardless of its expenses, as opposed to a reimbursement plan which would reimburse only for expenses incurred.

The Plan will remain in effect for a period of one year and is renewable from year to year with respect to the Fund, so long as its continuance is approved at least annually (1) by the vote of a majority of the Trustees and (2) by a vote of the majority of those Independent Trustees who have no direct or indirect financial interest in the Plan (“Rule 12b-1 Trustees”), cast in person at a meeting called for the purpose of voting on such approval. The Plan may not be amended to increase materially the amount of fees paid by the Fund unless such amendment is approved by an Investment Company Act majority vote of the outstanding shares and by the Fund Trustees in the manner described above. The Plan is terminable with respect to the Fund at any time by a vote of a majority of the Rule 12b-1 Trustees or by an Investment Company Act majority vote of the outstanding shares.

Payments to Financial Intermediaries

The Fund, at its own expense, may pay additional compensation to financial intermediaries for shareholder-related services, including administrative, recordkeeping and shareholder communication services. In addition, pursuant to any applicable 12b-1 plan, the Fund may pay compensation to financial intermediaries for distribution-related services. For example, compensation may be paid to make Fund shares available to sales representatives and/or customers of a fund supermarket platform or a similar program sponsor or for services provided in connection with such fund supermarket platforms and programs. To the extent that the Fund pays all or a portion of such compensation, the payment is designed to compensate the financial intermediary for distribution activities and for providing services that would otherwise be provided by the Fund's transfer agent and/or administrator.

Cambria or another affiliate of the Fund, out of its own resources and not as an expense of the Fund, may provide additional compensation to financial intermediaries. Such compensation is sometimes referred to as "revenue sharing." Compensation received by a financial intermediary from Cambria or another Fund affiliate may include payments for shareholder servicing, marketing and/or training expenses incurred by the financial intermediary, including expenses incurred by the financial intermediary in educating its salespersons with respect to Fund shares. For example, such compensation may include reimbursements for expenses incurred in attending educational seminars regarding the Fund, including travel and lodging expenses. It may also cover costs incurred by financial intermediaries in connection with their efforts to sell Fund shares, including costs incurred in compensating registered sales representatives and preparing, printing and distributing sales literature.

The amount of compensation paid to different financial intermediaries may vary. The compensation paid to a financial intermediary may be based on a variety of factors, including average assets under management in accounts distributed and/or serviced by the financial intermediary, gross sales by the financial intermediary and/or the number of accounts serviced by the financial intermediary that invest in the Fund.

Any compensation received by a financial intermediary, whether from the Fund or its affiliates, and the prospect of receiving such compensation, may provide the financial intermediary with an incentive to recommend the shares of the Fund over other potential investments. Similarly, the compensation may cause financial intermediaries to elevate the prominence of the Fund within its organization by, for example, placing it on a list of preferred funds.

ACCOUNTING AND LEGAL SERVICE PROVIDERS

Independent Registered Public Accounting Firm

Cohen & Company, Ltd., located at 1350 Euclid Avenue, Suite 800, Cleveland, Ohio 44115, serves as the Fund's independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Fund.

Legal Counsel

Morgan, Lewis & Bockius LLP, located at 1111 Pennsylvania Avenue, N.W., Washington, D.C. 20004, serves as legal counsel to the Trust.

ADDITIONAL INFORMATION CONCERNING SHARES

Organization and Description of Shares of Beneficial Interest

The Trust is a Delaware statutory trust and registered open-end investment company. The Trust was organized on September 9, 2011 and has authorized capital of unlimited Shares of beneficial interest of no par value that may be issued in more than one class or series. Currently, the Trust consists of six actively managed series—the Cambria Core Equity ETF, Cambria Tail Risk ETF, Cambria Global Income and Currency Strategies ETF, Cambria Sovereign Bond ETF, Cambria Global Momentum ETF, and Cambria Value and Momentum ETF—and five series that are passively managed and seek investment results that correspond (before fees and expenses) generally to the price and yield performance of their respective Underlying Index—the Cambria Shareholder Yield ETF, Cambria Foreign Shareholder Yield ETF, Cambria Emerging Shareholder Yield ETF, Cambria Global Value ETF, and Cambria Global Asset Allocation ETF. Each of these Funds, except the Cambria Core Equity ETF, Cambria Tail Risk ETF and Cambria Global Income and Currency Strategies ETF, had commenced operations as of the date of this SAI. The Board may designate additional series and classify Shares of a particular series into one or more classes of that series.

Under Delaware law, the Trust is not required to hold an annual shareholders meeting if the Investment Company Act does not require such a meeting. Generally, there will not be annual meetings of Trust shareholders, but if requested in writing by shareholders of at least 25% of the outstanding Shares of the Fund, the Trust will call a meeting of shareholders of the Fund. Shareholders holding two-thirds of Shares outstanding of the Fund may remove Trustees from office by votes cast at a meeting of Trust shareholders or by written consent.

All Shares are freely transferable. Shares will not have preemptive rights or cumulative voting rights, and none of the Shares will have any preference to conversion, exchange, dividends, retirements, liquidation, redemption, or any other feature. Shares have equal voting rights. The Trust Instrument confers upon the Board the power, by resolution, to alter the number of Shares constituting a Creation Unit or to specify that Shares of the Fund may be individually redeemable. The Trust reserves the right to adjust the stock prices of Shares to maintain convenient trading ranges for investors. Any such adjustments would be accomplished through stock splits or reverse stock splits that would have no effect on the value of an investor's investment in the Fund.

The Trust Instrument of the Trust disclaims liability of the shareholders or the officers of the Trust for acts or obligations of the Trust that are binding only on the assets and property of the Trust. The Trust Instrument provides for indemnification out of the Fund's property for all loss and expense of the Fund's shareholders being held personally liable solely by reason of his or her being or having been a shareholder and not because of his or her acts or omissions or for some other reason. The risk of a Trust shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund itself would not be able to meet the Trust's obligations and this risk should be considered remote.

If the Fund does not grow to a size to permit it to be economically viable, the Fund may cease operations. In such an event, shareholders may be required to liquidate or transfer their Shares at an inopportune time and shareholders may lose money on their investment.

Book Entry Only System

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Book Entry."

DTC acts as Securities Depository for Shares. Shares of the Fund are represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited purpose trust company, was created to hold securities of its participants (the "DTC Participants") and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by NYSE and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the "Indirect Participants").

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as "Beneficial Owners") is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase and sale of Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depository Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Fund distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in Shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to Shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

TRANSACTIONS IN CREATION UNITS

The Fund sells and redeems Shares in Creation Units on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt of an order in proper form on any Business Day. As of the date of this SAI, the NYSE observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The Fund will not issue fractional Creation Units. Shares of the Fund will only be issued against full payment, as further described in the Prospectus and this SAI.

A Creation Unit is an aggregation of 50,000 Shares. The Board may declare a split or a consolidation in the number of Shares outstanding of the Fund or Trust, and make a corresponding change in the number of Shares in a Creation Unit.

To purchase or redeem any Creation Units from the Fund, you must be, or transact through, an Authorized Participant. In order to be an Authorized Participant, you must be either a broker-dealer or other participant ("Participating Party") in the Continuous Net Settlement System ("Clearing Process") of the National Securities Clearing Corporation ("NSCC") or a participant in DTC with access to the DTC system ("DTC Participant"), and you must execute an agreement ("Participant Agreement") with the Distributor that governs transactions in the Fund's Creation Units.

Transactions by an Authorized Participant that is a Participating Party using the NSCC system are referred to as transactions "through the Clearing Process." Transactions by an Authorized Participant that is a DTC Participant using the DTC system are referred to as transactions "outside the Clearing Process."

Investors who are not Authorized Participants but want to transact in Creation Units may contact the Distributor for the names of Authorized Participants. An Authorized Participant may require investors to enter into a separate agreement to transact through it for Creation Units and may require orders for purchases of shares placed with it to be in a particular form. Investors should be aware that their broker may not be an Authorized Participant and, therefore, may need to place any order to purchase or redeem Creation Units through another broker or person that is an Authorized Participant, which may result in additional charges. There are expected to be a limited number of Authorized Participants at any one time.

Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement. Market disruptions and telephone or other communication failures may impede the transmission of orders.

Purchasing Creation Units

Fund Deposit. The consideration for a Creation Unit of the Fund is the Fund Deposit. The Fund Deposit will consist of the In-Kind Creation Basket and Cash Component, or an all cash payment ("Cash Value"), as determined by Cambria to be in the best interest of the Fund. Because any short positions in the Fund's portfolio cannot be transferred in-kind, they will be represented by cash in the Cash Component and not in the In-Kind Creation Basket.

The Cash Component will typically include a "Balancing Amount" reflecting the difference, if any, between the NAV of a Creation Unit and the market value of the securities in the In-Kind Creation Basket. If the NAV per Creation Unit exceeds the market value of the securities in the In-Kind Creation Basket, the purchaser pays the Balancing Amount to the Fund. By contrast, if the NAV per Creation Unit is less than the market value of the securities in the In-Kind Creation Basket, the Fund

pays the Balancing Amount to the purchaser. The Balancing Amount ensures that the consideration paid by an investor for a Creation Unit is exactly equal to the value of the Creation Unit.

The Transfer Agent, in a portfolio composition file sent via the NSCC, generally makes available on each Business Day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), a list of the names and the required number of shares of each security in the In-Kind Creation Basket to be included in the current Fund Deposit for the Fund (based on information about the Fund's portfolio at the end of the previous Business Day) (subject to amendment or correction). If applicable, the Transfer Agent, through the NSCC, also makes available on each Business Day, the estimated Cash Component or Cash Value, effective through and including the previous Business Day, per Creation Unit.

The announced Fund Deposit is applicable, subject to any adjustments as described below, for purchases of Creation Units of the Fund until such time as the next-announced Fund Deposit is made available. From day to day, the composition of the In-Kind Creation Basket may change as, among other things, corporate actions and investment decisions by Cambria are implemented for the Fund's portfolio. All questions as to the composition of the In-Kind Creation Basket and the validity, form, eligibility, and acceptance for deposit of any securities shall be determined by the Fund, and the Fund's determination shall be final and binding. The Fund reserves the right to accept a nonconforming (*i.e.*, custom) Fund Deposit.

Payment of any stamp duty or the like shall be the sole responsibility of the Authorized Participant purchasing a Creation Unit. The Authorized Participant must ensure that all Deposit Securities properly denote change in beneficial ownership.

Cash in lieu. The Fund may, in its sole discretion, permit or require the substitution of an amount of cash ("cash in lieu") to be added to the Cash Component to replace any security in the In-Kind Creation Basket. The Fund may permit or require cash in lieu:

- (a) in the case of bonds, for minor differences when it is impossible to break up bonds beyond certain minimum sizes needed for transfer and settlement;
- (b) for minor differences when rounding is necessary to eliminate fractional shares or lots that are not tradeable round lots;
- (c) TBA Transactions, short position and other positions that cannot be transferred in kind will be excluded from the Fund Deposit instruments;
- (d) to the extent the Fund determines, on a given Business Day, to use a representative sampling of the Fund's portfolio; or
- (e) for temporary periods, to effect changes in the Fund's portfolio as a result of the rebalancing of its Underlying Index.

In addition, purchases of Creation Units may be made in whole or in part on a cash basis, rather than in kind, under the following circumstances:

- (a) to the extent there is a Balancing Amount;
- (b) if, on a given Business Day, the Fund announces before the open of trading that all purchases or all purchases and redemptions on that day will be made entirely in cash;
- (c) if, upon receiving a purchase order from an Authorized Participant, the Fund determines to require the purchase to be made entirely in cash;
- (d) if, on a given Business Day, the Fund requires all Authorized Participants purchasing Shares on that day to deposit cash in lieu of some or all of the Fund Deposit instruments solely because:
 - (i) such instruments are not eligible for transfer either through the NSCC or DTC; or
 - (ii) in the case of the Fund's foreign holdings, such instruments are not eligible for trading due to local trading restrictions, local restrictions on securities transfers or other similar circumstances;

(e) if the Fund permits an Authorized Participant to deposit cash in lieu of some or all of the Fund Deposit instruments because such instruments are not available in sufficient quantity; or

(f) if the Fund permits a “custom” order, which is an order in which an Authorized Participant is permitted to deposit cash in lieu of some or all of the Fund Deposit instruments because such instruments are not eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting.

The Fund will comply with the federal securities laws in accepting securities in the In-Kind Creation Basket, including the securities in the In-Kind Creation Basket that are sold in transactions that would be exempt from registration under the 1933 Act. All orders involving cash in lieu are considered to be “custom orders.”

Order Cut-Off Time. For an order involving a Creation Unit to be effectuated at the Fund’s NAV on a particular day, it must be received by the Distributor by or before the deadline for such order (“Order Cut-Off Time”). The Order Cut-Off Time for creation and redemption orders for the Fund is generally expected to be 4:00 p.m. Eastern time for In-Kind Creation and Redemption Baskets, and 3:00 p.m. Eastern time for Cash Value transactions. Accordingly, In-Kind Creation and Redemption Baskets are expected to be accepted until the close of regular trading on the Exchange on each Business Day, which is usually 4:00 p.m. Eastern time. On days when the Exchange or bond markets close earlier than normal (such as the day before a holiday), the Order Cut-Off Time is expected to track the Exchange closing and be similarly earlier than normal.

Custom orders typically clear outside the Clearing Process and, therefore, like other orders outside the Clearing Process, may need to be transmitted early on the relevant Business Day to be effectuated at that day’s NAV. A custom order may be placed when, for example, an Authorized Participant cannot transact in a security in the In-Kind Creation or Redemption Basket and additional cash is included in the Fund Deposit or Fund Redemption in lieu of such security. Custom orders may be required to be received by the Distributor by 3:00 p.m. Eastern time to be effectuated based on the Fund’s NAV on that Business Day.

In all cases, cash and securities should be transferred to the Fund by the “Settlement Date,” which is generally the Business Day immediately following the Transmittal Date for cash and the third Business Day following the Transmittal Date for securities. Persons placing custom orders or orders involving Cash Value should be aware of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve Bank wire system, which may delay the delivery of cash and securities by the Settlement Date.

Placement of Creation Orders. All purchase orders must be placed by or through an Authorized Participant. To order a Creation Unit, an Authorized Participant must submit an irrevocable purchase order to the Distributor. In-kind (portions of) purchase orders will be processed through the Clearing Process when it is available. The Clearing Process is an enhanced clearing process that is available only for certain securities and only to DTC Participants that are also participants in the Clearing Process of the NSCC. In-kind (portions of) purchase orders not subject to the Clearing Process will go through a manual clearing process run by DTC. Fund Deposits that include government securities must be delivered through the Federal Reserve Bank wire transfer system (“Federal Reserve System”). Fund Deposits that include cash may be delivered through the Clearing Process or the Federal Reserve System. Certain orders for the Fund may be made outside the Clearing Process. In-kind deposits of securities for such orders must be delivered through the Federal Reserve System (for government securities) or through DTC (for corporate securities).

Orders Using Clearing Process. In connection with creation orders made through the Clearing Process, the Distributor transmits, on behalf of the Authorized Participant, such trade instructions as are necessary to effect the creation order. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Fund Deposit to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor on the Business Day the order is placed (“Transmittal Date”) if (i) such order is received by the Distributor by the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System, as described below.

Orders Outside Clearing Process. Fund Deposits made outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. With respect to such orders, the Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of securities in the In-Kind Creation Basket (whether standard or custom) through DTC to the relevant Trust account by 11:00 a.m., Eastern time, (the “DTC Cut-Off Time”) on the Business Day immediately following the Transmittal Date. The amount of cash equal to the Cash Component, along with any cash in lieu and Transaction Fee, must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date. The delivery of corporate securities through

DTC must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date. The delivery of government securities through the Federal Reserve System must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date.

An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor by the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed. If the Custodian does not receive both the required In-Kind Creation Basket by the DTC Cut-Off Time and the Cash Component by the appointed time, such order may be canceled. Upon written notice to the Distributor, a canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then-current In-Kind Creation Basket and Cash Component. The delivery of Creation Units so created will occur no later than the third Business Day following the day on which the order is deemed received by the Distributor. Authorized Participants that submit a canceled order will be liable to the Fund for any losses resulting therefrom.

Acceptance of Orders for Creation Units. The Trust reserves the absolute right to reject a creation order transmitted to it by the Distributor in respect of the Fund if: (i) the order is not in proper form; (ii) the investor(s), upon obtaining the Shares, would own 80% or more of the currently outstanding Shares of the Fund; (iii) the securities delivered do not conform to the In-Kind Creation Basket for the relevant date; (iv) acceptance of the Fund Deposit would have adverse tax consequences to the Fund; (v) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (vi) acceptance of the Fund Deposit would otherwise, in the discretion of the Trust, the Fund or Cambria, have an adverse effect on the Trust, the Fund or the rights of beneficial owners; or (vii) in the event that circumstances that are outside the control of the Trust, Custodian, Distributor and Cambria make it practically impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems resulting in telephone, telecopy and computer failures; fires, floods or extreme weather conditions; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, Cambria, the Distributor, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process; and similar extraordinary events. The Distributor shall notify an Authorized Participant of its rejection of the order. The Fund, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits, and they shall not incur any liability for the failure to give any such notification.

Issuance of a Creation Unit. Once the Fund has accepted a creation order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Creation Unit, against receipt of payment, at such NAV. The Distributor will transmit a confirmation of acceptance to the Authorized Participant that placed the order.

Except as provided below, a Creation Unit will not be issued until the Fund obtains good title to the In-Kind Creation Basket securities and the Cash Component, along with any cash in lieu and Transaction Fee. The delivery of Creation Units will generally occur no later than the third Business Day following the Transmittal Date for securities.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable In-Kind Creation Basket, provided the purchaser tenders an initial deposit consisting of any available securities in the In-Kind Creation Basket and cash equal to the sum of the Cash Component and at least 115% of the market value, as adjusted from time to time by Cambria, of the In-Kind Creation Basket securities not delivered ("Additional Cash Deposit"). Such initial deposit will have a value greater than the NAV of the Creation Unit on the date the order is placed. The order shall be deemed to be received on the Transmittal Date provided that it is placed in proper form prior to 4:00 p.m., Eastern time, on such date, and federal funds in the appropriate amount are deposited with the Custodian by the DTC Cut-Off Time the following Business Day. If the order is not placed in proper form by 4:00 p.m., Eastern time, or federal funds in the appropriate amount are not received by the DTC Cut-Off Time the next Business Day, then the order will be canceled or deemed unreceived and the Authorized Participant effectuating such transaction will be liable to the Fund for any losses resulting therefrom.

To the extent securities in the In-Kind Creation Basket remain undelivered, pending delivery of such securities additional cash will be required to be deposited with the Trust as necessary to maintain an Additional Cash Deposit equal to at least 115% (as adjusted by Cambria) of the daily marked-to-market value of the missing securities. To the extent that either such securities are still not received by 1:00 p.m., Eastern time, on the third Business Day following the day on which the purchase order is deemed received by the Distributor or a marked-to-market payment is not made within one Business Day following notification to the purchaser and/or Authorized Participant that such a payment is required, the Trust may use the cash on deposit to purchase the missing securities, and the Authorized Participant effectuating such transaction will be liable to the Fund for any costs incurred therein or losses resulting therefrom, including any Transaction Fee, any amount by which the actual purchase price of the missing securities exceeds the Additional Cash Deposit or the market value of such securities on

the day the purchase order was deemed received by the Distributor, as well as brokerage and related transaction costs. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing securities have been received by the Trust. The delivery of Creation Units so created will occur no later than the third Business Day following the day on which the purchase order is deemed received by the Distributor.

Transaction Fees

To compensate the Trust for costs incurred in connection with creation and redemption transactions, investors will be required to pay to the Trust a Transaction Fee as follows:

Fund	Standard Transaction Fee	Variable Charge
Cambria Core Equity ETF	\$500*	None

* The Transaction Fee may be higher for transactions outside the Clearing Process.

The Standard Transaction Fee applies to in-kind purchases of the Fund effected through the Clearing Process on any Business Day, regardless of the number of Creation Units purchased or redeemed that day (assuming, in the case of multiple orders on the same day, that the orders are received at or near the same time). A Transaction Fee of up to four times the standard fee may apply to creation and redemption transactions that occur outside the Clearing Process.

Cambria may adjust or waive the Transaction Fee from time to time. The Standard Creation/Redemption Transaction Fee is based, in part, on the number of holdings in the Fund's portfolio and may be adjusted on a quarterly basis if the number of holdings increase. Investors will also be responsible for the costs associated with transferring the securities in the In-Kind Creation (and Redemption) Baskets to (and from) the account of the Trust. Further, investors who, directly or indirectly, use the services of a broker or other intermediary to compose a Creation Unit in addition to an Authorized Participant to effect a transaction in Creation Units may be charged an additional fee for such services.

Cash Purchase Method. When cash purchases of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind purchases. In the case of a cash purchase, the investor must pay the cash equivalent of the Fund Deposit. In addition, cash purchases may be subject to Transaction Fees.

Redeeming Creation Units

Fund Redemptions. Fund Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a Business Day. The redemption proceeds for a Creation Unit will consist of the In-Kind Redemption Basket and a Cash Redemption Amount, or an all cash payment ("Cash Value"), in all instances equal to the value of a Creation Unit. Because short positions cannot be transferred in kind, however, any short positions in the Fund's portfolio will be represented by cash in the Cash Redemption Amount and not in the In-Kind Redemption Basket.

There can be no assurance that there will be sufficient liquidity in Shares in the secondary market to permit assembly of a Creation Unit. In addition, investors may incur brokerage and other costs in connection with assembling a Creation Unit.

The Cash Redemption Amount will typically include a Balancing Amount, reflecting the difference, if any, between the NAV of a Creation Unit and the market value of the securities in the In-Kind Redemption Basket. If the NAV per Creation Unit exceeds the market value of the securities in the In-Kind Redemption Basket, the Fund pays the Balancing Amount to the redeeming investor. By contrast, if the NAV per Creation Unit is less than the market value of the securities in the In-Kind Redemption Basket, the redeeming investor pays the Balancing Amount to the Fund.

The composition of the In-Kind Creation Basket will normally be the same as the composition of the In-Kind Redemption Basket. Otherwise, the In-Kind Redemption Basket will be made available by Cambria or the Transfer Agent. The Fund reserves the right to accept a nonconforming (*i.e.*, custom) Fund Redemption.

In lieu of an In-Kind Redemption Basket and Cash Redemption Amount, Creation Units may be redeemed consisting solely of cash in an amount equal to the NAV of a Creation Unit, which amount is referred to as the Cash Value. If applicable, information about the Cash Value will be made available by Cambria or the Transfer Agent.

From day to day, the composition of the In-Kind Redemption Basket may change as, among other things, corporate actions are implemented for the Fund's portfolio. All questions as to the composition of the In-Kind Redemption Basket and the validity, form, eligibility, and acceptance for deposit of any securities shall be determined by the Fund, and the Fund's determination shall be final and binding.

The right of redemption may be suspended or the date of payment postponed: (i) for any period during which the NYSE is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on the NYSE is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the Shares or determination of the Fund's NAV is not reasonably practicable; or (iv) in such other circumstances as permitted by the SEC, including as described below.

Cash in lieu. The Fund may, in its sole discretion, permit or require the substitution of an amount of cash to be added to the Cash Redemption Amount to replace any security in the In-Kind Redemption Basket. The Fund may permit or require cash in lieu:

- (a) in the case of bonds, for minor differences when it is impossible to break up bonds beyond certain minimum sizes needed for transfer and settlement;
- (b) for minor differences when rounding is necessary to eliminate fractional shares or lots that are not tradeable round lots;
- (c) TBA Transactions, short position and other positions that cannot be transferred in kind will be excluded from the Fund Redemption instruments;
- (d) to the extent the Fund determines, on a given Business Day, to use a representative sampling of the Fund's portfolio; or
- (e) for temporary periods, to effect changes in the Fund's portfolio as a result of the rebalancing of its Underlying Index.

In addition, redemptions of Creation Units may be made in whole or in part on a cash basis, rather than in kind, under the following circumstances:

- (a) to the extent there is a Balancing Amount;
- (b) if, on a given Business Day, the Fund announces before the open of trading that all redemptions or all purchases and redemptions on that day will be made entirely in cash;
- (c) if, upon receiving a redemption order from an Authorized Participant, the Fund determines to require the redemption to be made entirely in cash;
- (d) if, on a given Business Day, the Fund requires all Authorized Participants redeeming Shares on that day to receive cash in lieu of some or all of the Fund Redemption instruments solely because:
 - (i) such instruments are not eligible for transfer either through the NSCC or DTC; or
 - (ii) in the case of the Fund's foreign holdings, such instruments are not eligible for trading due to local trading restrictions, local restrictions on securities transfers or other similar circumstances; or
- (e) if the Fund permits a "custom" order, which is an order in which an Authorized Participant is permitted to receive cash in lieu of some or all of the Fund Redemption instruments because:
 - (i) such instruments are not eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting; or
 - (ii) a holder of Shares of the Fund's foreign holdings would be subject to unfavorable income tax treatment if the holder receives redemption proceeds in kind.

The Fund will comply with the federal securities laws in satisfying redemptions with the applicable In-Kind Redemption Basket, including the securities in the In-Kind Redemption Basket that are sold in transactions that would be exempt from registration under the 1933 Act. All redemption orders involving cash in lieu are considered to be “custom redemptions.”

Placement of Redemption Orders. Redemptions must be placed to the Transfer Agent through the Distributor. In addition, redemption orders must be processed either through the DTC process or the Clearing Process. To redeem a Creation Unit, an Authorized Participant must submit an irrevocable redemption order to the Distributor.

An Authorized Participant submitting a redemption order is deemed to represent to the Fund that it or, if applicable, the investor on whose behalf it is acting, (i) owns outright or has full legal authority and legal beneficial right to tender for redemption the Creation Unit to be redeemed and can receive the entire proceeds of the redemption, and (ii) all of the Shares in the Creation Unit to be redeemed have not been borrowed, loaned or pledged to another party nor are they the subject of a repurchase agreement, securities lending agreement or such other arrangement which would preclude the delivery of such Shares to the Fund. The Fund reserves the absolute right, in its sole discretion, to verify these representations, but will typically require verification in connection with higher levels of redemption activity and/or short interest in the Fund. If the Authorized Participant, upon receipt of a verification report, does not provide sufficient verification of the requested representations, the redemption order will not be considered to be in proper form and may be rejected by the Fund.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Placement of Redemption Orders Using Clearing Process. Orders to redeem Creation Units through the Clearing Process are deemed received by the Trust on the Transmittal Date if (i) such order is received by the Transfer Agent not later than the Order Cut-Off Time on such Transmittal Date, and (ii) all other procedures set forth in the Participant Agreement are properly followed. Orders deemed received will be effectuated based on the NAV of the Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Trust after the Order Cut-Off Time will be deemed received on the next Business Day and will be effected at the NAV next determined on such next Business Day. In connection with such orders, the Distributor transmits on behalf of the Authorized Participant such trade instructions as are necessary to effect the redemption. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Creation Unit(s) to the Fund, together with such additional information as may be required by the Distributor. Cash Redemption Amounts will be delivered using either the Clearing Process or the Federal Reserve System. The applicable In-Kind Redemption Basket and the Cash Redemption Amount will be transferred to the investor by the third NSCC business day following the date on which such request for redemption is deemed received.

Placement of Redemption Orders Outside Clearing Process. Orders to redeem Creation Units outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. Such orders are deemed received by the Trust on the Transmittal Date if: (i) such order is received by the Transfer Agent not later than the Order Cut-Off Time on the Transmittal Date; (ii) such order is accompanied or followed by the delivery of both (a) the Creation Unit(s), which delivery must be made through DTC to the Custodian no later than the DTC Cut-Off Time on the Business Day immediately following the Transmittal Date and (b) the Cash Redemption Amount by 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date; and (iii) all other procedures set forth in the Participant Agreement are properly followed. After the Trust has deemed such an order received, the Trust will initiate procedures to transfer, and expect to deliver, the requisite In-Kind Redemption Basket and/or any Cash Redemption Amount owed to the redeeming party by the third Business Day following the Transmittal Date on which such redemption order is deemed received by the Trust.

The calculation of the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received upon redemption will be made by the Custodian computed on the Business Day on which a redemption order is deemed received by the Trust. Therefore, if a redemption order in proper form is submitted to the Transfer Agent by a DTC Participant or an Authorized Participant with the ability to transact through the Federal Reserve System, as applicable, not later than Closing Time on the Transmittal Date, and the requisite number of Shares of the Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received will be determined by the Custodian on such Transmittal Date. If, however, either: (i) the requisite number of Shares of the Fund are not delivered by the DTC Cut-Off-Time, as described above, or (ii) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received will be computed on the Business Day following the Transmittal Date provided that the Fund Shares of the Fund are delivered through DTC to the Custodian by 11:00 a.m., Eastern time, the following Business Day pursuant to a properly submitted redemption order.

The Authorized Participant may request the redeeming beneficial owner of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of shares or delivery instructions.

Delivery of Redemption Basket. Once the Fund has accepted a redemption order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of an In-Kind Redemption Basket, against receipt of the Creation Unit(s) at such NAV, any cash in lieu and Transaction Fee. A Creation Unit tendered for redemption and the payment of the Cash Redemption Amount, any cash in lieu and Transaction Fee will be effected through DTC. The Authorized Participant, or the investor on whose behalf it is acting, will be recorded on the book-entry system of DTC.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Cash Redemption Method. When cash redemptions of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind redemptions. In the case of a cash redemption, the investor will receive the cash equivalent of the In-Kind Redemption Basket minus any Transaction Fees.

DETERMINATION OF NET ASSET VALUE

The net asset value, or NAV, of Shares is calculated each business day as of the close of regular trading on the NYSE, generally 4:00 p.m. Eastern time. The Fund's NAV per Share is computed by dividing the net assets by the number of Shares outstanding. For further information, see the "Net Asset Value" section of the Prospectus, which is incorporated by reference here.

TAXATION

The following is only a summary of certain additional U.S. federal income tax considerations generally affecting the Fund and their shareholders that is intended to supplement the tax information contained in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Fund or their shareholders, and the discussion here does not address investors subject to special rules, such as investors who hold shares through an IRA, 401(k) or other tax-advantaged account. The discussion here and in the Prospectus is not intended as a substitute for careful tax planning. Shareholders are urged to consult their tax advisors with specific reference to their own tax situations, including their state, local, and foreign tax liabilities.

The following general discussion of certain federal income tax consequences is based on the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein.

Qualification as a Regulated Investment Company. For federal income tax purposes, the Fund will seek to qualify and elect to be treated as a regulated investment company ("RIC") under Subchapter M of the Code. By following such a policy, the Fund expects to eliminate or reduce to a nominal amount the federal taxes to which it may be subject. A Fund that qualifies as a RIC will generally not be subject to federal income taxes on the net investment income and net realized capital gains that the Fund timely distributes to its shareholders. The Board reserves the right not to maintain the qualification of the Fund as a RIC if it determines such course of action to be beneficial to shareholders.

In order to qualify as a RIC under the Code, the Fund must distribute annually to its shareholders at least 90% of its net investment income (which, includes dividends, taxable interest, and the excess of net short-term capital gains over net long-term capital losses, less operating expenses) and at least 90% of its net tax exempt interest income, for each tax year, if any (the "Distribution Requirement") and also must meet certain additional requirements. Among these requirements are the following: (i) at least 90% of the Fund's gross income each taxable year must be derived from dividends, interest, payments with respect to certain securities loans, and gains from the sale or other disposition of stock, securities, or foreign currencies, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities, or currencies, and net income derived from an interest in a qualified publicly traded partnership (the "Qualifying Income Test"); and (ii) at the close of each quarter of the Fund's taxable year: (A) at least 50% of the value of the Fund's total assets must be represented by cash and cash items, U.S. government securities, securities of other RICs and other securities, with such other securities limited, in respect to any one issuer, to an amount not greater than 5% of the value of the Fund's total assets and that does not represent more than 10% of the outstanding voting securities of such issuer, including the equity securities of a qualified publicly traded partnership, and (B) not more than 25% of the value of the Fund's total assets is invested, including through corporations in which the Fund owns a 20% or more voting

stock interest, in the securities (other than U.S. government securities or the securities of other RICs) of any one issuer or the securities (other than the securities of another RIC) of two or more issuers that the Fund controls and which are engaged in the same or similar trades or businesses or related trades or businesses, or the securities of one or more qualified publicly traded partnerships (the “Asset Test”).

If the Fund fails to satisfy the Qualifying Income or Asset Tests in any taxable year, the Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain de minimis failures of the Asset Test where the Fund corrects the failure within a specified period. In order to be eligible for the relief provisions with respect to a failure to meet the Asset Test, the Fund may be required to dispose of certain assets. If the Fund fails to maintain qualification as a RIC for a tax year, and the relief provisions are not available, the Fund would be subject to federal tax on all of its taxable income at regular corporate rates, without any deduction for dividends to shareholders. In such event, dividend distributions (including capital gains distributions) would be taxable as ordinary income to shareholders to the extent of such Fund’s current and accumulated earnings and profits and non-corporate shareholders may be eligible for taxation at reduced rates for qualified dividend income and corporate shareholders may benefit from the dividends received deduction available in some circumstances. In addition, the Fund could be required to recognize unrealized gains, pay substantial taxes and interest, and make substantial distributions before requalifying as a RIC. If the Fund determines that it will not qualify for treatment as a RIC, the Fund will establish procedures to reflect the anticipated tax liability in the Fund’s NAV.

The Fund intends to distribute annually to its shareholders substantially all of its investment company taxable income (computed without regard to the dividends-paid deduction) and any realized net capital gain (after taking into account any capital loss carryovers). If the Fund failed to satisfy the Distribution Requirement for any taxable year, the Fund would be taxed as a regular corporation, with consequences generally similar to those described above. If the Fund meets the Distribution Requirement but retains some or all of its income or gains, it will be subject to federal income tax to the extent any such income or gains are not distributed.

The Fund may elect to treat part or all of any “qualified late year loss” as if it had been incurred in the succeeding taxable year in determining the Fund’s taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such “qualified late year loss” as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A “qualified late year loss” generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (commonly referred to as “post-October losses”) and certain other late-year losses.

The treatment of capital loss carryovers for the Fund is similar to the rules that apply to capital loss carryovers of individuals, which provide that such losses are carried over indefinitely. If the Fund has a “net capital loss” (that is, capital losses in excess of capital gains) the excess of the Fund’s net short-term capital losses over its net long-term capital gains is treated as a short-term capital loss arising on the first day of the Fund’s next taxable year, and the excess (if any) of the Fund’s net long-term capital losses over its net short-term capital gains is treated as a long-term capital loss arising on the first day of the Fund’s next taxable year. The carryover of capital losses may be limited under the general loss limitation rules if the Fund experiences an ownership change as defined in the Code.

Federal Excise Tax. Notwithstanding the Distribution Requirement described above, which generally requires the Fund to distribute at least 90% of its annual investment company taxable income and the excess of its exempt interest income (but does not require any minimum distribution of net capital gain), a 4% non-deductible excise tax will be imposed to the extent the Fund fails to distribute by the end of the calendar year at least 98% of its ordinary taxable income and 98.2% of capital gain net income (excess of capital gains over capital losses) for the one-year period ending on October 31 of such year (including any retained amount from the prior calendar year on which the Fund paid no federal income tax). The Fund intends to make sufficient distributions to avoid liability for this excise tax, but can make no assurance that such tax will be completely eliminated. The Fund may in certain circumstances be required to liquidate Fund investments in order to make sufficient distributions to avoid federal excise tax liability at a time when the investment adviser might not otherwise have chosen to do so, and liquidation of investments in such circumstances may affect the ability of the Fund to satisfy the requirement for qualification as a RIC.

Distributions to Shareholders. The Fund receives income generally in the form of dividends on investments. This income, plus net short-term capital gains, if any, less expenses incurred in the operation of the Fund, constitutes the Fund’s net investment income from which dividends may be paid to you. Any distributions by the Fund from such income will be taxable to you as ordinary income or at the lower capital gains rates that apply to individuals receiving qualified dividend income (as discussed below), whether you take them in cash or in additional shares.

Distributions by the Fund is currently eligible for the reduced maximum tax rate to individuals of 20% (lower rates apply to individuals in lower tax brackets) to the extent that the Fund receives qualified dividend income on the securities they hold and the Fund reports the distributions as qualified dividend income. Qualified dividend income is, in general, dividend income from taxable domestic corporations and certain foreign corporations (e.g., foreign corporations incorporated in a possession of the United States or in certain countries with a comprehensive tax treaty with the United States, or the stock of which is readily tradable on an established securities market in the United States). A dividend will not be treated as qualified dividend income to the extent that: (i) the shareholder has not held the shares on which the dividend was paid for more than 60 days during the 121-day period that begins on the date that is 60 days before the date on which the shares become “ex-dividend” (which is the day on which declared distributions (dividends or capital gains) are deducted from the Fund’s assets before it calculates the net asset value) with respect to such dividend, (ii) the Fund has not satisfied similar holding period requirements with respect to the securities it holds that paid the dividends distributed to the shareholder), (iii) the shareholder is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to substantially similar or related property, or (iv) the shareholder elects to treat such dividend as investment income under section 163(d)(4)(B) of the Code. Therefore, if you lend your shares in the Fund, such as pursuant to a securities lending arrangement, you may lose the ability to treat dividends (paid while the shares are held by the borrower) as qualified dividend income. Distributions that the Fund receives from an ETF or an underlying fund taxable as a RIC will be treated as qualified dividend income only to the extent so reported by such ETF or underlying fund.

The Fund’s trading strategies may limit its ability to distribute dividends eligible for treatment as qualified dividend income.

Distributions by the Fund of its net short-term capital gains will be taxable as ordinary income. Capital gain distributions consisting of the Fund’s net capital gains will be taxable as long-term capital gains for individual shareholders currently set at a maximum rate of 20% regardless of how long you have held your shares in such Fund.

Certain dividends received by the Fund on stock of U.S. corporations (generally, dividends received by the Fund in respect of any share of stock (1) as to which the Fund has met certain holding period requirements and (2) that is held in an unleveraged position) may be eligible for the dividends-received deduction generally available to corporate shareholders under the Code, provided such dividends are also appropriately reported as eligible for the dividends-received deduction by the Fund. In order to qualify for the dividends-received deduction, corporate shareholders must also meet minimum holding period requirements with respect to their Fund Shares, taking into account any holding period reductions from certain hedging or other transactions or positions that diminish their risk of loss with respect to their Fund Shares. The Fund’s trading strategies may limit its ability to distribute dividends eligible for the dividends-received deduction.

To the extent that the Fund makes a distribution of income received by such Fund in lieu of dividends (a “substitute payment”) with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If, for any calendar year, the total distributions made exceed the Fund’s current and accumulated earnings and profits, the excess will, for federal income tax purposes, be treated as a tax-free return of capital to each shareholder up to the amount of the shareholder’s basis in his or her Shares, and thereafter as gain from the sale of Shares. The amount treated as a tax-free return of capital will reduce the shareholder’s adjusted basis in his or her Shares, thereby increasing his or her potential gain or reducing his or her potential loss on the subsequent sale of his or her Shares.

A dividend or distribution received shortly after the purchase of shares reduces the net asset value of the shares by the amount of the dividend or distribution and, although in effect a return of capital, will be taxable to the shareholder. If the net asset value of shares were reduced below the shareholder's cost by dividends or distributions representing gains realized on sales of securities, such dividends or distributions would be a return of investment though taxable to the shareholder in the same manner as other dividends or distributions.

The Fund (or its administrative agents) will inform you of the amount of your ordinary income dividends, qualified dividend income and capital gain distributions, if any, and will advise you of their tax status for federal income tax purposes shortly after the close of each calendar year. Distributions may be subject to state and local taxes. If you have not held Fund shares for a full year, the Fund may report and distribute to you, as ordinary income, qualified dividend income or capital gain, a percentage of income that is not equal to the actual amount of such income earned during the period of your investment in the Fund.

Dividends declared to shareholders of record in October, November or December and actually paid in January of the following year will be treated as having been received by shareholders on December 31 of the calendar year in which declared.

Under this rule, therefore, a shareholder may be taxed in one year on dividends or distributions actually received in January of the following year.

Sales, Exchanges or Redemptions. The sale of Shares or redemption of Creation Units in the Fund may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of Shares will be treated as capital gain or loss if the Shares are capital assets in the shareholder's hands, and will be long-term capital gain or loss if the Shares have been held for more than twelve months, and short-term capital gain or loss if the Shares are held for 12 months or less. A loss realized on a sale or exchange of Shares of the Fund may be disallowed if other substantially identical Shares are acquired (whether through the automatic reinvestment of dividends or otherwise) within a sixty-one (61) day period beginning thirty (30) days before and ending thirty (30) days after the date that the Shares are disposed of. In such a case, the basis of the Shares acquired must be adjusted to reflect the disallowed loss. Any loss upon the sale or exchange of Shares held for six (6) months or less is treated as long-term capital loss to the extent of any long-term capital gain dividends received by the shareholders.

An Authorized Participant who exchanges securities for Creation Units generally will recognize gain or loss from the exchange. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of the exchange and the sum of the exchanger's aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. The ability of Authorized Participants to receive a full or partial cash redemption of Creation Units of the Fund may limit the tax efficiency of the Fund. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units and the exchanger's basis in the Creation Units. The IRS, however, may assert that a loss that is realized by an Authorized Participant upon an exchange of securities for Creation Units may not be currently deducted, under the rules governing "wash sales" (for an Authorized Participant that does not mark-to-market its holdings) or, on the basis that there has been no significant change in economic position.

Any gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year and were held as capital assets in the hands of the exchanging Authorized Participant. Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if the Shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will be treated as short-term capital gains or losses. Any loss realized upon a redemption of Creation Units held for six months or less should be treated as a long-term capital loss to the extent of any amounts treated as distributions to the applicable Authorized Participant of long-term capital gains with respect to the Creation Units (including any amounts credited to the Authorized Participant as undistributed capital gains).

The Trust on behalf of the Fund has the right to reject an order for a purchase of Shares of the Fund if the purchaser (or a group of purchasers) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to Section 351 of the Code, the Fund would have a basis in the securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial Share ownership for purposes of the 80% determination. If the Fund does issue Creation Units to a purchaser (or a group of purchasers) that would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund, the purchaser (or a group of purchasers) may not recognize gain or loss upon the exchange of securities for Creation Units.

Persons purchasing or redeeming Creation Units should consult their own tax advisers with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rule applies and when a loss may be deductible.

Medicare Tax. Certain net investment income received by an individual having adjusted gross income in excess of \$200,000 (or \$250,000 for married individuals filing jointly) will be subject to a U.S. federal Medicare contribution tax of 3.8 percent. Undistributed net investment income of trusts and estates in excess of a specified amount also will be subject to this tax. Any taxable dividends (including capital gain distributions) paid by the Fund, and gain realized on the sale or redemption of Fund shares, will constitute investment income of the type subject to this tax.

Cost Basis Reporting. The cost basis of Shares acquired by purchase will generally be based on the amount paid for the Shares and then may be subsequently adjusted for other applicable transactions as required by the Code. The difference between the selling price and the cost basis of Shares generally determines the amount of the capital gain or loss realized on the sale or exchange of Shares. Contact the broker through whom you purchased your Shares to obtain information with respect to the available cost basis reporting methods and elections for your account.

Tax Treatment of Complex Securities. The tax principles applicable to transactions in financial instruments that may be engaged in by the Fund are complex and, in some cases, uncertain. Such transactions and investments may affect the Fund's ability to qualify as a RIC and/or cause the Fund to recognize taxable income prior to the receipt of cash, thereby requiring the Fund to liquidate other positions or to borrow money so as to make sufficient distributions to shareholders to avoid

corporate-level tax. Moreover, some or all of the taxable income recognized may be ordinary income or short-term capital gain, so that the distributions may be taxable to shareholders as ordinary income. In limited cases, the tax rules applicable to the Fund's investment in complex securities may subject the Fund to U.S. federal income tax on income from certain of their foreign securities. In turn, these rules may affect the amount, timing or character of the income distributed to you by the Fund. To the extent the Fund invests in an underlying fund that is taxable as a RIC, the following discussion regarding the tax treatment of complex securities will also apply to the underlying funds that also invest in such complex securities and investments.

The Fund's investments in derivatives may be subject to numerous special and complex tax rules. These rules could affect whether gains and losses recognized by the Fund are treated as ordinary income and loss or capital gain and loss or whether capital gains and losses are long-term or short-term in nature, accelerate the recognition of income to the Fund and/or defer the Fund's ability to recognize losses. In turn, those rules may affect the amount, timing or character of the income distributed by the Fund. Certain derivative investment by the Fund, such as exchange-traded products and over-the-counter derivatives may not produce qualifying income for purposes of the "Qualifying Income Test" described above, which must be met in order for the Fund to maintain its status as a RIC under the Code. In addition, the determination of the value and the identity of the issuer of such derivative investments are often unclear for purposes of the "Asset Test" described above. The Fund intends to carefully monitor such investments to ensure that any non-qualifying income does not exceed permissible limits and to ensure that it is adequately diversified under the Asset Test. The Fund, however, may not be able to accurately predict the non-qualifying income from these investments and there are no assurances that the IRS will agree with the Fund's determination under the "Asset Test" with respect to such derivatives.

The Fund may write options on "broad based" securities indices that are classified as "non-equity options" under section 1256 of the Code. Gains and losses resulting from the expiration, exercise, or closing of such non-equity options are treated as 60% long-term capital gain or loss and 40% short-term capital gain or loss (hereinafter, "blended gain or loss"). In addition, any non-equity option issued by the Fund will be treated as sold for market value on the last day of the Fund's fiscal year, and gain or loss recognized as a result of such deemed sale will be blended gain or loss; however, there are no assurances that the IRS will agree with the Fund's position regarding the applicability of the mark-to-market rules to such put options. These rules may operate to accelerate the amount that the Fund must distribute to satisfy its distribution requirement (*i.e.*, with respect to the portion treated as short-term capital gain, which will be includible in investment company taxable income and thus taxable to its shareholders as ordinary income when distributed to them), and to increase the net capital gain the Fund recognizes, even though the Fund may not have closed the transactions and received cash to pay the distributions.

To the extent the Fund writes options that are not subject to the rules of section 1256 of the Code, the amount of the premium received by the Fund for writing such options will be entirely short-term capital gain to the Fund. In addition, if such an option is closed by the Fund, any gain or loss realized by the Fund as a result of the closing the transaction will also be short-term capital gain or loss. If the holder of a put option exercises the holder's right under the option, any gain or loss realized by the Fund upon the sale of the underlying security pursuant to such exercise will be short-term or long-term capital gain or loss to the Fund depending on the Fund's holding period for the underlying security.

The trading strategies of the Fund may involve non-equity options on stock indices which may constitute "straddle" transactions. In general, straddles are subject to certain rules that may affect the amount, character, and timing of the Fund's gains and losses with respect to the straddle positions by requiring, among other things, that (1) any loss realized on disposition of one position of a straddle may not be recognized to the extent that the Fund has unrealized gains with respect to the other positions in the straddle, (2) the Fund's holding period in straddle positions be suspended while the straddle exists (possibly resulting in a gain being treated as short-term rather than long-term capital gain), (3) the losses recognized with respect to certain straddle positions that are part of a mixed straddle and are non-section 1256 contracts be treated as 60% long-term and 40% short-term capital loss, and (4) losses recognized with respect to certain straddle positions that would otherwise constitute short-term capital losses be treated as long-term capital losses. The Fund may have available a number of elections under the Code concerning the treatment of straddles for tax purposes. Taxation of these transactions will vary according to the elections made by the Fund. These tax considerations may have an impact on investment decisions made by the Fund. In general, the straddle rules described above do not apply to any straddles held by the Fund if all of the offsetting positions consist of contracts governed by section 1256 of the Code.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, individual retirement accounts, salary deferral arrangements, 401(k)s, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income ("UBTI"). Under current law, the Fund generally serves to block UBTI from being realized by their tax-exempt shareholders. However, notwithstanding the foregoing, the tax-exempt shareholder could realize UBTI by virtue of an investment in the Fund where, for example: (i) the Fund invests in residual interests of Real Estate Mortgage Investment Conduits ("REMICs"), (ii) the Fund invests in a REIT that is a taxable mortgage pool ("TMP") or that has a subsidiary that is a TMP or that invests in the residual interest of a REMIC, or

(iii) shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisor. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult their tax advisors regarding these issues.

Backup Withholding. The Fund (or financial intermediaries, such as brokers, through which a shareholder holds Shares) will be required in certain cases to impose “backup withholding” at a rate of 28% and remit to the U.S. Treasury the amount withheld on amounts paid to shareholders who have failed to provide a correct tax identification number in the manner required, who are subject to backup withholding by the IRS for failure properly to include on their return payments of taxable interest or dividends, who have failed to certify to the Fund when required to do so that they are not subject to backup withholding, or who have failed to certify to the Fund that they are a U.S. person (including a resident alien). Backup withholding is not an additional tax and any amounts withheld may be credited against a shareholder’s ultimate federal income tax liability if proper documentation is provided.

Non-U.S. Investors. Any non-U.S. investors in the Fund may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisors prior to investing in the Fund. Except as described below, dividends paid by the Fund to non-U.S. Shareholders (i.e., nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty to the extent derived from taxable ordinary income.

The Fund may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of shares of the Fund generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Under legislation known as “FATCA” (the Foreign Account Tax Compliance Act), a U.S. withholding tax of 30% will apply to (1) payments to certain foreign entities of U.S.-source dividends and (2) the gross proceeds paid after December 31, 2018, from dispositions of the Fund’s shares and certain capital gain dividends, unless various U.S. information reporting and due diligence requirements that are different from, and in addition to, the beneficial owner certification requirements described above have been satisfied. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the U.S. and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement. The Fund will not pay an additional amounts in respect to any amounts withheld. Non-U.S. shareholders should consult their tax advisers regarding the effect, if any, of this legislation on their ownership and sale or disposition of the Fund’s common shares.

A beneficial holder of Shares who is a foreign person may be subject to foreign, state and local tax and to the U.S. federal estate tax in addition to the federal income tax consequences referred to above. If a shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment or fixed base maintained by the shareholder in the United States.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, generally, if a shareholder recognizes a loss of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC such as the Fund are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

State and Local Taxes. The Fund may be subject to tax or taxes in certain states where the Fund does business. Furthermore, in those states which have income tax laws, the tax treatment of a Fund and of Fund shareholders with respect to distributions by the Fund may differ from federal tax treatment.

General Considerations. The federal income tax discussion set forth above is for general information only. Prospective investors should consult their tax advisors regarding the specific federal income tax consequences of purchasing, holding and disposing of Shares of the Fund, as well as the effect of state, local and foreign tax law and any proposed tax law changes.

FINANCIAL STATEMENTS

The Fund's audited financial statements, when available, will be incorporated by reference into this SAI.

Proxy Voting Policies and Procedures for the Trust

CAMBRIA INVESTMENT MANAGEMENT, L.P.

Proxy Voting Policies and Procedures

Introduction

Cambria Investment Management, LP (“Cambria”) is a registered investment adviser with the U.S. Securities and Exchange Commission (“SEC”) pursuant to the Investment Advisers Act of 1940, as amended, (the “Advisers Act”). Cambria provides investment advisory services to various types of clients such as registered funds, unregistered private funds and separate accounts. Pursuant to the terms of an investment management agreement between Cambria and its client or as a result of some other type of specific delegation by the client, Cambria is often given the authority and discretion to vote proxy statements relating to the underlying securities which are held on behalf of such client. Cambria has developed the following Proxy Voting Policies and Procedures (the “Procedures”) in order to ensure that Cambria votes proxies or gives proxy voting advice that is in the best interests of its clients.

Procedures for Voting Proxies

To help make sure that Cambria votes client proxies in accordance with the Procedures and in the best interests of clients, Cambria has established a Management Committee (the “Committee”), which is responsible for overseeing the Cambria’s proxy voting process.

The person(s) representing the Committee may change from time to time. The Committee will meet as necessary to help Cambria fulfill its duties to vote proxies for clients, but in any event, will meet at least quarterly to discuss various proxy voting issues.

One of the main responsibilities of the Committee is to review and approve the Procedures on a yearly basis. When reviewing the Procedures, the Committee looks to see if the Procedures are designed to allow Cambria to vote proxies in a manner consistent with the goals of voting in the best interests of clients and maximizing the value of the underlying shares being voted on by Cambria. The Committee will also review the Procedures to make sure that they comply with any new rules promulgated by the SEC or other relevant regulatory bodies. After the Procedures are approved by the Committee, Cambria will vote proxies generally in accordance with such Procedures, although in certain cases, the CEO or designee may direct a particular proxy to be voted contrary to the Procedures if the CEO or designee believes that such a vote would better serve the client’s best interests.

In order to facilitate the actual process of voting proxies, Cambria has contracted with Egan-Jones Proxy Services (“Egan-Jones”). Both Egan-Jones and the client’s custodian monitor corporate events for Cambria. Cambria gives an authorization and letter of instruction to the client’s custodian who then forwards proxy materials it receives to Egan-Jones so that Egan-Jones may vote the proxies.

After receiving the proxy statements, Egan-Jones will review the proxy issues and vote them in accordance with Cambria’s Procedures. When the Procedures state that a proxy issue will be decided on a case-by-case basis, Egan-Jones will look at the relevant facts and circumstances and research the issue to determine how the proxy should be voted, so that the proxy is voted in the best interests of the client and in accordance with the parameters described in these Procedures generally and specifically with the Egan-Jones Proxy Services Proxy Voting Principles and Guidelines (the “Guidelines”). If the Procedures do not address a particular proxy issue, Egan-Jones will similarly look at the relevant facts and circumstances and research the issue to determine how the proxy should be voted, so that the proxy is voted in the best interests of the client and pursuant to the spirit of the Procedures. After a proxy has been voted, Egan-Jones will create a record of the vote in order to help Cambria’s comply with their duties listed under “Availability of Proxy Voting Records and Recordkeeping” below. If a client provides Cambria with its own recommendations on a given proxy vote, Cambria will forward the client’s recommendation to Egan-Jones who will vote the client’s proxy pursuant to the client’s recommendation.

The Committee is responsible for overseeing Egan-Jones’s proxy voting activities for Cambria’s clients and will attempt to ensure that Egan-Jones is voting proxies pursuant to the Procedures. As part of the Committee’s oversight of Egan-Jones, the Committee will periodically review Egan-Jones’s conflict of interest procedures and any other pertinent procedures or representations from Egan-Jones in an attempt to ensure that Egan-Jones will make recommendations for voting proxies in an impartial manner and in the best interests of Cambria’s clients. There may be times when Cambria believes that the best

interests of the client will be better served if Cambria votes a proxy counter to Egan-Jones's recommended vote on that proxy. In those cases, the Committee will generally review the research provided by Egan-Jones on the particular issue, and it may also conduct its own research or solicit additional research from another third party on the issue. After gathering this information and possibly discussing the issue with other relevant parties, the Committee will use the information gathered to determine how to vote on the issue in a manner which the Committee believes is consistent with Cambria's Procedures and in the best interests of the client.

With the exception of proxies from non-U.S. issuers, Cambria will attempt to vote every proxy which it or its agents receive when a client has given Cambria the authority and direction to vote such proxies. However, there are situations in which Cambria may not be able to process a proxy. For example, Cambria may not have sufficient time to process a vote because Cambria or its agents received a proxy statement in an untimely manner, or Cambria may in certain situations be unable to vote a proxy in relation to a security that is on loan pursuant to a securities lending program. Use of a third party service, such as Egan-Jones, and relationships with multiple custodians can help mitigate a situation where Cambria is unable to vote a proxy.

International Proxy Voting

There are significant differences between voting U.S. company proxies and voting non-U.S. company proxies. For U.S. companies, it is relatively easy to vote proxies, as the proxies are automatically received and may be voted by mail or electronically. In most cases, the officers of a U.S. company soliciting a proxy act as proxies for the company's shareholders. For proxies of non-U.S. companies, however, it is typically both difficult and costly to vote proxies. The major difficulties and costs may include: (i) appointing a proxy; (ii) knowing when a meeting is taking place; (iii) obtaining relevant information about proxies, voting procedures for foreign shareholders, and restrictions on trading securities that are subject to proxy votes; (iv) arranging for proxy to vote; and (v) evaluation the cost of voting. Further, these difficulties and costs will vary by country. As a result, Cambria will generally abstain from voting on all non-U.S. company proxies. Nonetheless, when Cambria becomes aware of an issue to be voted on regarding a non-U.S. company that is likely to impact the economic value of the underlying securities, that its vote may influence the outcome, and that the benefits of voting exceed the expected costs, Cambria will make a reasonable effort to vote such proxies in a manner consistent with Cambria's Procedures.

Company Management Recommendations

When determining whether to invest in a particular company, one of the factors Cambria may consider is the quality and depth of the company's management. As a result, Cambria believes that recommendations of management on any issue (particularly routine issues) should be given a fair amount of weight in determining how proxy issues should be voted. Thus, on many issues, Cambria's votes are cast in accordance with the recommendations of the company's management. However, Cambria will normally vote against management's position when it runs counter to the Guidelines, and Cambria will also vote against management's recommendation when such position is not in the best interests of Cambria's clients.

Conflicts of Interest

As a matter of policy, the Committee and any other officers, directors, employees and affiliated persons of Cambria may not be influenced by outside sources who have interests which conflict with the interests of Cambria's clients when voting proxies for such clients. However, in order to ensure that Cambria votes proxies in the best interests of the client, Cambria has established various systems described below to properly deal with a material conflict of interest.

Most of the proxies which Cambria receives on behalf of its clients are voted by Egan-Jones in accordance with these pre-determined, pre-approved Procedures. As stated above, these Procedures are reviewed and approved by the Committee at least annually normally during the first quarter of the calendar year and at other necessary times. The Procedures are then utilized by Egan-Jones going forward to vote client proxies. The Committee approves the Procedures only after it has determined that the Procedures are designed to help Cambria vote proxies in a manner consistent with the goal of voting in the best interests of its clients. Because the majority of client proxies are voted by Egan-Jones pursuant to the pre-determined Procedures, it normally will not be necessary for Cambria to make a real-time determination of how to vote a particular proxy, thereby largely eliminating conflicts of interest for Cambria from the proxy voting process.

In the limited instances where Cambria is considering voting a proxy contrary to Egan-Jones's recommendation, the Committee will first assess the issue to see if there is any possible conflict of interest involving Cambria or affiliated persons of Cambria. If there is no perceived conflict of interest, the Committee will then vote the proxy according to the process described in "Procedures for Voting Proxies" above. If at least one member of the Committee has actual knowledge of a conflict of interest, the Committee will normally use another independent third party to do additional research on the particular issue in order to make a recommendation to the Committee on how to vote the proxy in the best interests of the client. The

Committee will then review the proxy voting materials and recommendation provided by Egan-Jones and the independent third party to determine how to vote the issue in a manner which the Committee believes is consistent with Cambria's Procedures and in the best interests of the client. In these instances, the Committee must come to a unanimous decision regarding how to vote the proxy or they will be required to vote the proxy in accordance with Egan-Jones's original recommendation. Documentation of the reasons for voting contrary to Egan-Jones's recommendation will generally be retained by Cambria.

Availability of Proxy Voting Information and Record Keeping

Clients of Cambria will be directed to the CCO or designee to obtain information from Cambria on how their securities were voted. At the beginning of a new relationship with a client, Cambria will provide clients with a concise summary of Cambria's proxy voting process and will inform clients that they can obtain a copy of the complete Procedures upon request. The information described in the preceding two sentences will be included in Part 2 of Cambria's Form ADV which is delivered to each new client prior to the commencement of investment management services. Existing clients will also be provided with the above information.

Cambria will also retain extensive records regarding proxy voting on behalf of clients. Cambria will keep records of the following items: (i) the Procedures; (ii) proxy statements received regarding client securities (via hard copies held by Egan-Jones or electronic filings from the SEC's EDGAR filing system); (iii) records of votes cast on behalf of Cambria's clients (via Egan-Jones); (iv) records of a client's written request for information on how Cambria voted proxies for the client, and any Cambria written response to an oral or written client request for information on how Cambria voted proxies for the client; and (v) any documents prepared by Cambria that were material to making a decision how to vote or that memorialized the basis for that decision. These records will be maintained in an easily accessible place for at least five years from the end of the fiscal year during which the last entry was made on such record. For the first two years, such records will be stored at the offices of Cambria.

Proxy Voting Guidelines

The Guidelines summarize Cambria's position on various issues and give a general indication as to how Cambria will vote shares on each issue. The Management Committee has reviewed the Guidelines and determined that voting proxies pursuant to the Guidelines should be in the best interests of the client and should facilitate the goal of maximizing the value of the client's investments. Although Cambria will usually vote proxies in accordance with these Guidelines, Cambria reserves the right to vote certain issues counter to the Guidelines if, after a thorough review of the matter, Cambria determines that a client's best interests would be served by such a vote. Moreover, the list of Guidelines may not include all potential voting issues. To the extent that the Guidelines do not cover potential voting issues, Cambria will vote on such issues in a manner that is consistent with the spirit of the Guidelines below and that promotes the best interests of the client.

Cambria generally considers that clients' best interests are served by the promotion of high levels of corporate governance and adequate disclosure of company policies and practices. The Guidelines are available upon request to the CCO or CEO or designee.
