

**STATEMENT OF ADDITIONAL INFORMATION
CAMBRIA ETF TRUST**

Cambria LargeCap Shareholder Yield ETF (LYLD)

**3300 Highland Avenue, Manhattan Beach, CA 90266
PHONE: (310) 683-5500**

July 8, 2024

This SAI describes additional information related to certain series of the Cambria ETF Trust. The Trust is an open-end registered management investment company under the Investment Company Act. This SAI relates to the Fund listed above.

Shares of the Fund are listed and traded on the CBOE BZX Exchange, Inc.

The Fund is actively managed. Cambria Investment Management, L.P. serves as the investment adviser to the Fund, and Tidal Investments LLC serves as the sub-adviser to the Fund. ALPS Distributors, Inc. serves as the Distributor for the Fund.

This SAI, dated July 8, 2024, as may be revised from time to time, is not a prospectus. It should be read in conjunction with the Fund's Prospectus, dated July 8, 2024, as may be revised from time to time, which incorporates this SAI by reference.

Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted. A copy of the Prospectus may be obtained without charge by writing to the Distributor, calling 855-ETF-INFO (383-4636) or visiting www.cambriafunds.com. An annual report for the Fund (when available) can be obtained in the same manner at no charge by request to the Fund(s) at the address, website, or phone number noted above. The Fund's audited financial statements for the most recent fiscal year (when available) are incorporated in this SAI by reference to the Fund's annual report to shareholders.

**THE U.S. SECURITIES AND EXCHANGE COMMISSION HAS NOT APPROVED OR DISAPPROVED
THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS SAI. ANY REPRESENTATION TO THE
CONTRARY IS A CRIMINAL OFFENSE.**

No person has been authorized to give any information or to make any representations other than those contained in this SAI and the Prospectus and, if given or made, such information or representations may not be relied upon as having been authorized by the Trust. This SAI does not constitute an offer to sell securities.

GLOSSARY

The following terms are used throughout this SAI, and have the meanings used below:

“**1933 Act**” means the Securities Act of 1933, as amended.

“**1934 Act**” means the Securities Exchange Act of 1934, as amended.

“**Authorized Participant**” means a broker-dealer or other participant in the Continuous Net Settlement System of the National Securities Clearing Corporation (NSCC) or a participant in DTC with access to the DTC system, who has executed an agreement with the Distributor that governs transactions in the Fund’s Creation Units.

“**Balancing Amount**” means an amount equal to the difference between the NAV of a Creation Unit and the market value of the In-Kind Creation (or Redemption) Basket, used to ensure that the NAV of the Fund Deposit (or Redemption) (other than the Transaction Fee), is identical to the NAV of the Creation Unit being purchased.

“**Board**” means the Board of Trustees of the Trust.

“**Business Day**” means any day on which the Trust is open for business.

“**Cambria**” or the “**Adviser**” means Cambria Investment Management, L.P., the investment adviser to the Fund.

“**Cash Component**” means an amount of cash consisting of a Balancing Amount and a Transaction Fee calculated in connection with creations.

“**Cash Redemption Amount**” means an amount of cash consisting of a Balancing Amount and a Transaction Fee calculated in connection with redemptions.

“**CEA**” means the Commodity Exchange Act, as amended.

“**CFTC**” means the Commodity Futures Trading Commission.

“**Code**” means the Internal Revenue Code of 1986, as amended.

“**Creation Unit**” means an aggregation of Shares that the Fund issues and redeems on a continuous basis at NAV. Shares will not be issued or redeemed except in Creation Units.

“**Distribution Plan**” means the Fund’s Distribution and Service Plan adopted pursuant to Rule 12b-1 under the Investment Company Act.

“**Distributor**” means ALPS Distributors, Inc., the distributor to the Fund.

“**Dodd-Frank Act**” means the Dodd-Frank Wall Street Reform and Consumer Protection Act.

“**DTC**” means the Depository Trust Company.

“**ETF**” means exchange-traded fund.

“**Exchange**” means CBOE BZX Exchange, Inc.

“**FINRA**” means the Financial Industry Regulatory Authority.

“**Fund**” means the series of the Trust discussed in this SAI: Cambria LargeCap Shareholder Yield ETF.

“**Fund Deposit**” means the In-Kind Creation Basket and Cash Component necessary to purchase a Creation Unit from the Fund.

“**Fund Redemption**” means the In-Kind Redemption Basket and Cash Redemption Amount received in connection with the redemption of a Creation Unit.

“**In-Kind Creation Basket**” means the basket of securities to be deposited to purchase Creation Units of the Fund.

“**In-Kind Redemption Basket**” means the basket of securities a shareholder will receive upon redemption of a Creation Unit.

“**Investment Company Act**” means the Investment Company Act of 1940, as amended.

“**IRS**” means the Internal Revenue Service.

“**NAV**” means the net asset value of a Share.

“**NSCC**” means the National Securities Clearing Corporation.

“**NYSE**” means the New York Stock Exchange, Inc.

“**Prospectus**” means the Fund’s Prospectus, dated July 8, 2024, as may be amended and supplemented from time to time.

“**REIT**” means a real estate investment trust.

“**RIC**” means a “regulated investment company” under Subchapter M of the Code.

“**SAI**” means this Statement of Additional Information, dated July 8, 2024, as may be amended and supplemented from time to time.

“**SEC**” means the United States Securities and Exchange Commission.

“**Shares**” means the shares of the Fund.

“**Sub-Adviser**” means Tidal Investments LLC, the investment sub-adviser to the Fund.

“**Transaction Fees**” are fees imposed to compensate the Trust for costs incurred in connection with transactions for Creation Units. The Transaction Fee is comprised of a flat (or standard) fee and may include a variable fee. For the Transaction Fees applicable to the Fund, see “Transaction Fees” in this SAI.

“**Trust**” means the Cambria ETF Trust, a Delaware statutory trust.

TRUST AND FUND OVERVIEW

The Trust is a Delaware statutory trust formed on September 9, 2011, and an open-end registered management investment company comprised of twenty-two funds, fifteen of which have commenced operations as of the date of this SAI. The Fund is a diversified, actively-managed ETF. The offering of the Shares is registered under the 1933 Act. Cambria serves as the investment adviser to the Fund. Tidal Investments LLC serves as the investment sub-adviser to the Fund.

The Fund offers and issues Shares at NAV only in aggregations of a specified number of Shares, generally in exchange for a basket of securities, together with the deposit of a specified cash payment, or, in certain circumstances, for an all cash payment. Shares of the Fund are listed and traded on the Exchange. Shares trade on the Exchange at market prices that may be below, at, or above NAV.

Unlike mutual funds, Shares are not individually redeemable securities. Rather, the Fund issues and redeems Shares on a continuous basis at NAV, only in Creation Units. In the event of the liquidation of the Fund, the Trust may lower the number of Shares in a Creation Unit.

In the instance of creations and redemptions, Transaction Fees may be imposed. Such fees are limited in accordance with requirements of the SEC applicable to management investment companies offering redeemable securities. Some of the information contained in this SAI and the Prospectus — such as information about purchasing and redeeming Shares from the Fund and Transaction Fees — is not relevant to most retail investors because it applies only to transactions for Creation Units and most retail investors do not transact for Creation Units.

Once created, Shares generally trade in the secondary market, at market prices that change throughout the day, in amounts less than a Creation Unit. Investors purchasing Shares in the secondary market through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges.

Diversification

The Fund is “diversified” within the meaning of the Investment Company Act. Under applicable federal laws, to qualify as a diversified fund, the Fund, with respect to 75% of its total assets, may not invest greater than 5% of its total assets in any one issuer and may not hold greater than 10% of the securities of one issuer, other than investments in cash and cash items (including receivables), U.S. government securities, and securities of other investment companies. The remaining 25% of the Fund’s total assets does not need to be “diversified” and may be invested in securities of a single issuer, subject to other applicable laws. The diversification of the Fund’s holdings is measured at the time the Fund purchases a security. However, if the Fund purchases a security and holds it for a period of time, the security may become a larger percentage of the Fund’s total assets due to movements in the financial markets. If the market affects several securities held by the Fund, the Fund may have a greater percentage of its assets invested in securities of fewer issuers.

EXCHANGE LISTING AND TRADING

Shares of the Fund are listed and traded on the Exchange. Shares trade on the Exchange or in secondary markets at prices that may differ from their NAV, including because such prices may be affected by market forces (such as supply and demand for Shares). As is the case of other securities traded on an exchange, when you buy or sell Shares on the Exchange or in the secondary markets your broker will normally charge you a commission or other transaction charges. Further, the Trust reserves the right to adjust the price of Shares in the future to maintain convenient trading ranges for investors (namely, to maintain a price per Share that is attractive to investors) by share splits or reverse share splits, which would have no effect on the NAV.

There can be no assurance that the Fund will continue to meet the requirements of the Exchange necessary to maintain the listing of Shares. The Exchange will consider the suspension of trading in, and will initiate delisting proceedings of, Shares under any of the following circumstances: (i) if any of the requirements set forth in the Exchange rules are not continuously maintained; (ii) if the Exchange files separate proposals under Section 19(b) of the Investment Company Act and any of the statements regarding (a) the description of the Fund; (b) limitations on the Fund’s portfolio holdings or reference assets; or (c) the applicability of the Exchange listing rules specified in such proposals are not continuously maintained; (iii) if following the initial 12-month period beginning at the commencement of trading of the Fund, there are fewer than 50 beneficial owners of the Shares of the Fund; or (iv) such other event shall occur or condition shall exist that, in the opinion of the Exchange, makes further dealings on such Exchange inadvisable. The Exchange will remove the Shares of the Fund from listing and trading upon termination of the Fund.

The Fund is not sponsored, endorsed, sold or promoted by the Exchange. The Exchange makes no representation or warranty, express or implied, to the owners of Shares of the Fund or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly or the ability of the Fund to achieve its objective. The Exchange has no obligation or liability in connection with the administration, marketing or trading of the Fund.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Board has adopted a policy regarding the disclosure of information about the Fund's portfolio securities. Under the policy, portfolio holdings of the Fund, which form the basis for the calculation of NAV on a Business Day, are publicly disseminated prior to the opening of trading on the Exchange that Business Day through financial reporting or news services, including the website www.cambriafunds.com. In addition, each Business Day a portfolio composition file, which displays the In-Kind Creation Basket and Cash Component, is publicly disseminated prior to the opening of the Exchange via the NSCC.

INVESTMENT POLICIES AND RESTRICTIONS

In addition to the investment objectives and policies set forth in the Prospectus, the Fund is subject to the investment restrictions set forth below. The investment policies enumerated in this section may be changed with respect to the Fund only by a vote of the holders of a majority of the Fund's outstanding voting securities. For the purposes of the Investment Company Act, a "majority of outstanding shares" means the vote of the lesser of: (i) 67% or more of the voting securities of the Fund present at the meeting if the holders of more than 50% of the Fund's outstanding voting securities are present or represented by proxy; or (ii) more than 50% of the outstanding voting securities of the Fund.

1. The Fund may not borrow money, except to the extent permitted by the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
2. The Fund may not issue senior securities, except to the extent permitted by the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
3. The Fund may not engage in the business of underwriting securities except to the extent that the Fund may be considered an underwriter within the meaning of the 1933 Act in the acquisition, disposition or resale of its portfolio securities or in connection with investments in other investment companies, or to the extent otherwise permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
4. The Fund may not purchase or sell real estate, except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
5. The Fund may not purchase or sell commodities, contracts relating to commodities or options on contracts relating to commodities except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief. This policy shall not prevent the Fund from purchasing or selling foreign currency or purchasing, selling or entering into futures contracts, options, forward contracts, swaps, caps, floors, collars and other financial instruments as currently exist or may in the future be developed.
6. The Fund may not make loans, except to the extent permitted under the Investment Company Act, the rules and regulations thereunder and any applicable exemptive relief.
7. The Fund will not concentrate its investments in issuers of one or more particular industries.

In addition to the foregoing fundamental investment policies, the Fund is also subject to the following non-fundamental investment policies, which may be changed by the Board without a shareholder vote upon at least 60 days' prior written notice to shareholders:

1. The Fund may not hold illiquid assets in excess of 15% of its net assets. For this purpose, "illiquid securities" are securities that the Fund may not sell or dispose of within seven days in the ordinary course of business at approximately the amount at which the Fund has valued the securities. A repurchase agreement maturing in more than seven days is considered illiquid, unless it can be terminated after a notice period of seven days or less.

2. Under normal market conditions, the Fund will invest at least 80% of its net assets, plus borrowings for investment purposes, in equity securities, including common stock, issued by U.S.-based large capitalization publicly listed companies that provide high “shareholder yield.”

With respect to the fundamental policy relating to borrowing money set forth in (1) above, the Investment Company Act permits the Fund to borrow money in amounts of up to one-third of the Fund’s total assets, at the time of borrowing, from banks for any purpose (the Fund’s total assets include the amounts being borrowed). To limit the risks attendant to borrowing, the Investment Company Act requires the Fund to maintain at all times an “asset coverage” of at least 300% of the amount of its borrowings (not including borrowings for temporary purposes in an amount not exceeding 5% of the value of the Fund’s total assets). Asset coverage means the ratio that the value of the Fund’s total assets (including amounts borrowed), minus liabilities other than borrowings, bears to the aggregate amount of all borrowings. In the event that such asset coverage falls below this percentage, the Fund is required to reduce the amount of its borrowings within three days (not including Sundays and holidays) so that the asset coverage is restored to at least 300%.

With respect to the fundamental policy relating to issuing senior securities set forth in (2) above, “senior securities” are defined as fund obligations that have a priority over the Fund’s shares with respect to the payment of dividends or the distribution of Fund assets. The Investment Company Act prohibits the Fund from issuing any class of senior securities or selling any senior securities of which it is the issuer, except that the Fund is permitted to borrow from banks, as described immediately above.

With respect to the fundamental policy relating to making loans set forth in (6) above, the Investment Company Act does not prohibit the Fund from making loans; however, SEC staff interpretations currently prohibit funds from lending more than one-third of their total assets, except through the purchase of debt obligations. (A repurchase agreement is an agreement to purchase a security, coupled with an agreement to sell that security back to the original seller on an agreed-upon date at a price that reflects current interest rates. The SEC staff treats repurchase agreements as loans). Certain types of derivatives give rise to future payment obligations and therefore, also may be considered to be senior securities. Rule 18f-4 under the Investment Company Act permits funds that comply with the conditions therein to enter into certain types of derivatives transactions notwithstanding the prohibitions and restrictions on the issuance of senior securities under the Investment Company Act.

Except with respect to borrowing and illiquid securities, if a percentage limitation is satisfied at the time of investment, a later increase or decrease in such percentage resulting from a change in the value of the Fund’s investments will not constitute a violation of such limitation. Thus, the Fund may continue to hold a security even though it causes the Fund to exceed a percentage limitation because of fluctuation in the value of the Fund’s assets, except that any borrowing by the Fund or investment in illiquid securities that exceeds the fundamental investment limitations stated above must be reduced to meet such limitations within the period required by the Investment Company Act or the relevant rules, regulations or interpretations thereunder.

For purposes of applying the limitations set forth in the concentration policy, the Fund, with respect to its equity holdings, will generally use the industry classifications provided by the Global Industry Classification Standards (GICS[®]), a widely recognized industry classification methodology developed by MSCI, Inc. and Standard & Poor’s Financial Services LLC.

INVESTMENT OBJECTIVES, INVESTMENT STRATEGIES AND RISKS

The Fund’s investment objective, principal investment strategies and associated risks are described in the Fund’s Prospectus. The following information, which supplements and should be read together with the information in the Prospectus, describes the specific investments and techniques applicable to the Fund. Unless otherwise indicated in the Prospectus or this SAI, the investment objective and policies of the Fund may be changed without shareholder approval.

Recent Events. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally and on specific securities. Periods of market volatility may occur in response to such events and other economic, political, and global macro factors. The COVID-19 pandemic, Russia’s invasion of Ukraine, and higher inflation have resulted in extreme volatility in the financial markets, economic downturns around the world, severe losses to some sectors of the economy and individual issuers, and reduced liquidity of certain instruments. These events have caused significant disruptions to business operations, including business closures; strained healthcare systems; disruptions to supply chains and employee availability; large fluctuations in consumer demand; large expansion of government deficits and debt as a result of government actions to mitigate the effects of such events; and widespread uncertainty regarding the long-term effects of such events.

Governments and central banks, including the Federal Reserve in the United States, took extraordinary and unprecedented actions to support local and global economies and the financial markets in response to the COVID-19 pandemic, including by keeping interest rates at historically low levels for an extended period. The Federal Reserve concluded its market support activities in 2022 and began to raise interest rates in an effort to fight inflation. The Federal Reserve may determine to raise interest rates further. This and other government intervention into the economy and financial markets to address the pandemic, inflation, or other significant events in the future may not work as intended, particularly if the efforts are perceived by investors as being unlikely to achieve the desired results.

Cash Items

The Fund may invest a portion of its assets in cash or cash items pending other investments or to maintain liquid assets required in connection with some of the Fund's investments. These cash items and other high quality debt securities may include money market instruments, such as securities issued by the U.S. Government and its agencies, bankers' acceptances, commercial paper, bank certificates of deposit and investment companies that invest primarily in such instruments.

Credit Quality Standards

When investing in fixed income securities and, if applicable, preferred or convertible stocks, the Fund maintains the following credit quality standards, which apply at the time of investment:

For securities that carry a rating assigned by a nationally recognized statistical rating organization (a "Rating Organization"), Cambria will use the highest rating assigned by the Rating Organization to determine a security's credit rating. Commercial paper must be rated at least "A-1" or equivalent by a Rating Organization. Corporate debt obligations, mortgage-backed and other asset-backed securities and municipal securities must be rated at least "B-" or equivalent by a Rating Organization. For securities that are not rated by a Rating Organization, Cambria's internal credit rating will apply and be subject to the equivalent rating minimums described here. The Fund may retain a debt security that has been downgraded below the initial investment criteria.

Debt-Related Investments

Debt and Other Fixed Income Securities Generally

Debt securities include securities issued or guaranteed by the U.S. Government, its agencies, instrumentalities, and political subdivisions, foreign governments, their authorities, agencies, instrumentalities, and political subdivisions, supra-national agencies, corporate debt securities, master-demand notes, Yankee dollar and Eurodollar bank certificates of deposit, time deposits, bankers' acceptances, commercial paper and other notes, inflation-indexed securities, and other debt securities. Debt securities may be investment grade securities or high yield securities, which are described below. Investment grade securities include securities issued or guaranteed by the U.S. Government, its agencies and instrumentalities, as well as securities rated in one of the four highest rating categories by at least two Rating Organizations rating that security, such as Standard & Poor's Ratings Services ("Standard & Poor's"), Moody's Investors Service, Inc. ("Moody's") or Fitch Ratings Ltd. ("Fitch"), or rated in one of the four highest rating categories by one Rating Organization if it is the only Rating Organization rating that security or unrated, if deemed to be of comparable quality by Cambria and traded publicly on the world market. The Fund, at the discretion of Cambria, may retain a debt security that has been downgraded below the initial investment criteria.

Debt and other fixed income securities include fixed and floating rate securities of any maturity. Fixed rate securities pay a specified rate of interest or dividends. Floating rate securities pay a rate that is adjusted periodically by reference to a specified index or market rate. Fixed and floating rate securities include securities issued by federal, state, local, and foreign governments and related agencies, and by a wide range of private issuers, and generally are referred to in this SAI as "fixed income securities." Indexed bonds are a type of fixed income security whose principal value and/or interest rate is adjusted periodically according to a specified instrument, index, or other statistic (e.g., another security, inflation index, currency, or commodity).

Holdings of fixed income securities are exposed to both market and credit risk. Market risk (or "interest rate risk") relates to changes in a security's value as a result of changes in interest rates. In general, the values of fixed income securities increase when interest rates fall and decrease when interest rates rise. Given the historically low interest rate environment, risks associated with rising rates are heightened. Credit risk relates to the ability of an issuer to make payments of principal and interest. Obligations of issuers are subject to bankruptcy, insolvency and other laws that affect the rights and remedies of creditors.

Because interest rates vary, the future income of the Fund that invests in fixed income securities cannot be predicted with certainty. The future income of the Fund that invests in indexed securities also will be affected by changes in those securities' indices over time (*e.g.*, changes in inflation rates, currency rates, or commodity prices).

U.S. Government Securities

U.S. government securities include securities issued or guaranteed by the U.S. government or its authorities, agencies, or instrumentalities. Different kinds of U.S. government securities have different kinds of government support. For example, some U.S. government securities (*e.g.*, U.S. Treasury bonds and Treasury inflation protected securities (TIPS)) are supported by the full faith and credit of the U.S. Other U.S. government securities are issued or guaranteed by federal agencies or government-chartered or -sponsored enterprises but are neither guaranteed nor insured by the U.S. government (*e.g.*, debt securities issued by the Federal Home Loan Mortgage Corporation ("Freddie Mac"), Federal National Mortgage Association ("FNMA" or "Fannie Mae"), and Federal Home Loan Banks ("FHLBs").

It is possible that the availability and the marketability (that is, liquidity) of the securities discussed in this section could be adversely affected by actions of the U.S. government to tighten the availability of credit.

As with other fixed income securities, U.S. government securities expose their holders to market risk because their values typically change as interest rates fluctuate. For example, the value of U.S. government securities may fall during times of rising interest rates. Yields on U.S. government securities tend to be lower than those of corporate securities of comparable maturities.

In addition to investing directly in U.S. government securities, the Fund may purchase certificates of accrual or similar instruments evidencing undivided ownership interests in interest payments and/or principal payments of U.S. government securities. Certificates of accrual and similar instruments may be more volatile than other government securities.

Derivatives

The Fund may use derivative instruments as part of its investment strategies. Generally, derivatives are financial contracts whose value depends upon, or is derived from, the value of an underlying asset, reference rate or index, and may relate to bonds, interest rates, currencies, commodities, and related indexes. Examples of derivative instruments include put options, call options, swap agreements, forward currency contracts, futures contracts, and options on futures contracts.

Regulatory developments may limit the availability of certain derivatives, may make the use of derivatives by the Fund more costly, and may otherwise adversely impact the performance and value of derivatives. Regulatory developments also may change the way in which the Fund itself is regulated. Such developments may affect the Fund's ability to invest or the extent to which it may invest in certain derivatives and subject the Fund to additional regulatory requirements. Complying with new requirements may increase the cost of the Fund's investments and the cost of implementing the Fund's investment program and related operations, which could adversely affect the Fund's performance.

CFTC Regulation

The 2010 enactment of the Dodd-Frank Act resulted in historic and comprehensive statutory reform of derivatives, including swaps, options, futures and forward contracts, and the manner in which they are designed, negotiated, reported, executed, settled (or "cleared") and regulated. Title VII of the Dodd-Frank Act creates a framework for the regulation of OTC derivatives, such as swaps. In particular, it makes broad changes to the OTC derivatives market and grants significant new authority to the SEC and the CFTC to regulate OTC derivatives and market participants. The legislation and the related regulations developed by the CFTC, SEC, and other federal regulators that have been and may be promulgated in the future may negatively impact the Fund's ability to meet its investment objective either through investment limits or requirements imposed on it or any of its counterparties. In particular, capital requirements and requirements related to the mandatory clearing of OTC derivatives transactions have impacted and may continue to impact the costs to the Fund of trading these instruments and, as a result, may affect returns to investors in the Fund.

Central Clearing. Forward currency contracts that are centrally cleared are subject to the creditworthiness of the clearing organizations involved in the transaction. For example, an investor could lose margin payments it has deposited with the clearing organization as well as the net amount of gains not yet paid by the clearing organization if it breaches its agreement with the investor or becomes insolvent or goes into bankruptcy. In the event of bankruptcy of the clearing organization, the investor may be entitled to the net amount of gains the investor is entitled to receive plus the return of margin owed to it only in proportion to the amount received by the clearing organization's other customers, potentially resulting in losses to the investor.

To the extent a forward currency contract is not centrally cleared, the use of forward currency contracts also involves the risk that a loss may be sustained as a result of the insolvency or bankruptcy of the counterparty or the failure of the counterparty to make required payments or otherwise comply with the terms of the agreement. The creditworthiness of firms with which the Fund enters into forward currency contracts will be monitored by Cambria. If a counterparty's creditworthiness declines, the value of the forward currency contract might decline, potentially resulting in losses to the Fund. Changing conditions in a particular market area may have an adverse impact on the creditworthiness of the counterparty. For example, the counterparty may have experienced losses as a result of its exposure to a sector of the market that adversely affect its creditworthiness. If a default occurs by the other party to such transaction, the Fund may have contractual remedies pursuant to the agreements related to the transaction, but exercising these remedies could take significant time and expense.

Commodity Pool Exclusion and Registration. In February 2012, the CFTC announced substantial amendments to the exclusion in its Regulation 4.5 for registered investment companies from registration as a commodity pool operator ("CPO"). Under these amendments, if the Fund uses commodity interests (such as CFTC-regulated futures, options on futures and swaps) other than for *bona fide* hedging purposes (as defined by the CFTC) and seeks to claim the Regulation 4.5 exclusion from registration, the aggregate initial margin and premiums required to establish these positions (after taking into account unrealized profits and unrealized losses on any such positions and excluding the amount by which options are "in-the-money" at the time of purchase) may not exceed 5% of the Fund's NAV. Alternatively, the aggregate net notional value of these positions, determined at the time the most recent position was established, may not exceed 100% of the Fund's NAV (after taking into account unrealized profits and unrealized losses on any such positions).

Cambria has claimed the Regulation 4.5 exclusion from registration as a CPO under the CEA, in its management of the Fund and intends to comply with one of the two alternative limitations described above. To the extent these limits are approached, Cambria may not be able to take advantage of investment opportunities for the Fund in order to comply with and maintain the exclusion.

Outer Limits. Transactions using derivative instruments, such as options or forward currency contracts, may expose the Fund to an obligation to another party. Under such circumstances, the Fund will comply with Rule 18f-4 under the Investment Company Act and, if applicable, the value-at-risk limitations thereunder to create an outer limit on the Fund's leverage risk.

Turnover. The Fund's forward currency contracts activities, if any, may affect its turnover rate. The sale or purchase of forward currency contracts may cause the Fund to sell or purchase related investments, thus increasing its turnover rate.

Equity-Related Investments

Common Stocks

Common stock represents an ownership interest in a company and usually possesses voting rights and earns dividends. Dividends on common stock are not fixed but are declared at the discretion of the issuer. Common stock generally represents the riskiest investment in a company. In addition, common stock generally has the greatest appreciation and depreciation potential because increases and decreases in earnings are usually reflected in a company's common stock price.

The fundamental risk of investing in common stock is the risk that the value of the stock might decrease. Stock values fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. Historically, common stocks have provided greater long-term returns and have entailed greater short-term risks than preferred stocks, fixed-income securities and money market investments. This may not be true currently or in the future. The market value of all securities, including common stocks, is based upon the market's perception of value and not necessarily the book value of an issuer or other objective measure of a company's worth. If you invest in the Fund, you should be willing to accept the risks of the stock market and should consider an investment in the Fund only as a part of your overall investment portfolio.

Convertible Securities

Convertible securities include fixed-income securities, preferred stock or other securities that may be converted into or exchanged for a given amount of common stock of the same or a different issuer during a specified period and at a specified price in the future. A convertible security entitles the holder to receive interest on debt or the dividend on preferred stock until the convertible security matures or is redeemed, converted or exchanged.

Convertible securities have unique investment characteristics in that they generally: (1) have higher yields than the underlying common stock, but lower yields than comparable non-convertible securities; (2) are less subject to fluctuation in value than the underlying common stock since they have fixed-income characteristics; and (3) provide the potential for capital appreciation if the market price of the underlying common stock increases.

A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security is called for redemption, the Fund will be required to permit the issuer to redeem the security, convert it into the underlying common stock or sell it to a third party.

Convertible securities are typically issued by smaller capitalization companies whose stock price may be volatile. Therefore, the price of a convertible security may reflect variations in the price of the underlying common stock in a way that non-convertible debt does not. The extent to which such risk is reduced, however, depends in large measure upon the degree to which the convertible security sells above its value as a fixed-income security.

Investments in Other Investment Companies or Other Pooled Investments

The Fund may invest in the securities of other investment companies to the extent permitted by law. Subject to applicable regulatory requirements, the Fund may invest in shares of both open- and closed-end investment companies (including money market funds and ETFs). The market price for ETF and closed-end fund shares may be higher or lower than, respectively, the ETF's and closed-end fund's NAV. Investing in another investment company exposes the Fund to all the risks of that investment company and, in general, subjects it to a pro rata portion of the other investment company's fees and expenses. As a result, an investment by the Fund in an ETF or investment company could cause the Fund's operating expenses to be higher and, in turn, performance to be lower than if the Fund were to invest directly in the securities underlying the ETF or investment company. The Fund also may invest in private investment funds, vehicles, or structures.

Preferred Stocks

The Fund may invest in preferred stocks. Preferred stocks include convertible and non-convertible preferred and preference stocks that are senior to common stock. Preferred stocks are equity securities that are senior to common stock with respect to the right to receive dividends and a fixed share of the proceeds resulting from the issuer's liquidation. Some preferred stocks also entitle their holders to receive additional liquidation proceeds on the same basis as holders of the issuer's common stock, and thus represent an ownership interest in the issuer. Depending on the features of the particular security, holders of preferred stock may bear the risks disclosed in the Prospectus or this SAI regarding equity or fixed income securities.

Real Estate Investment Trusts (REITs)

A REIT is a company that pools investor funds to invest primarily in income producing real estate or real estate related loans or interests. REITs are not taxed on income distributed to their shareholders if, among other things, they distribute substantially all of their taxable income (other than net capital gains) for each taxable year.

Because REITs have ongoing fees and expenses, which may include management, operating and administration expenses, REIT shareholders, including the Fund, will indirectly bear a proportionate share of those expenses in addition to the expenses of the Fund. However, such expenses are not considered to be Acquired Fund Fees and Expenses and, therefore, are not reflected as such in the Fund's fee table.

The Fund also may be subject to certain risks associated with the direct investments of the REITs. REITs may be affected by changes in their underlying properties and by defaults by borrowers or tenants. Mortgage REITs may be affected by the quality of the credit extended. Furthermore, REITs are dependent on specialized management skills. Some REITs may have limited diversification and may be subject to risks inherent in financing a limited number of properties. REITs depend generally on their ability to generate cash flow to make distributions to shareholders or unitholders, and may be subject to defaults by borrowers and to self-liquidations. In addition, the performance of a U.S. REIT may be affected by its failure to qualify for tax-free pass-through of income under the Code, including regulations thereunder and IRS interpretations, or similar authority upon which the Fund may rely or its failure to maintain exemption from registration under the Investment Company Act.

Foreign Investments Generally

Foreign Market Risk. Foreign security investment or exposure involves special risks not present in U.S. investments that can increase the chances that the Fund will lose money. These risks are higher for emerging markets investments, which can be subject to greater social, economic, regulatory and political uncertainties, and may have significantly less liquidity, than developed markets. In particular, the Fund is subject to the risk that because there are generally fewer investors on foreign exchanges and a smaller number of shares traded each day, it may be difficult for the Fund to buy and sell securities, or increase or decrease exposures, on those exchanges. In addition, prices of foreign securities may fluctuate more than prices of securities traded in the U.S.

Foreign Economy Risk. The economies of certain foreign markets often do not compare favorably with that of the U.S. with respect to such issues as growth of gross domestic product, reinvestment of capital, resources, and balance of payments positions. Certain foreign economies may rely heavily on particular industries or foreign capital and are more vulnerable to diplomatic developments, the imposition of economic sanctions against a particular country or countries, changes in international trading patterns, trade barriers, and other protectionist or retaliatory measures. Investments in foreign markets may also be adversely affected by governmental actions such as the imposition of capital controls, nationalization of companies or industries, expropriation of assets, or the imposition of punitive taxes. In addition, the governments of certain countries may prohibit or impose substantial restrictions on foreign investing in their capital markets or in certain industries. Any of these actions could severely affect security prices, impair the Fund's ability to purchase or sell foreign securities, or obtain exposure to them, or transfer the Fund's assets back into the U.S., or otherwise adversely affect the Fund's operations. Other foreign market risks include foreign exchange controls, difficulties in pricing securities, defaults on foreign government securities, difficulties in enforcing favorable legal judgments in foreign courts, and political and social instability. Legal remedies available to investors in certain foreign countries may be less extensive than those available to investors in the U.S. or other foreign countries. Foreign corporate governance may not be as robust as in the U.S. As a result, protections for minority investors may not be strong, which could affect security prices.

Currency Risk and Exchange Risk. Securities in which the Fund invests, or to which they obtain exposure, may be denominated or quoted in currencies other than the U.S. dollar. Changes in foreign currency exchange rates will affect the value of these securities. Generally, when the U.S. dollar rises in value against a foreign currency, an investment in a security denominated in that currency loses value because the currency is worth fewer U.S. dollars. Similarly, when the U.S. dollar decreases in value against a foreign currency, an investment in, or exposure to, a security denominated in that currency gains value because the currency is worth more U.S. dollars. This risk is generally known as "currency risk," which is the possibility that a stronger U.S. dollar will reduce returns for U.S. investors investing overseas. Foreign currencies also involve the risk that they will be devalued or replaced, adversely affecting the Fund's investments.

Governmental Supervision and Regulation/Accounting Standards. Many foreign governments supervise and regulate stock exchanges, brokers and the sale of securities to a lesser extent than the U.S. government. Some countries may not have laws to protect investors the way that the U.S. securities laws do. Accounting standards in other countries are not necessarily the same as in the U.S. If the accounting standards in another country do not require as much disclosure or detail as U.S. accounting standards, it may be harder to completely and accurately determine a company's financial condition.

Certain Risks of Holding Fund Assets Outside the U.S. Foreign securities in which the Fund invests, or to which it obtains exposure, are generally held outside the U.S. in foreign banks and securities depositories. The Fund's custodian is the Fund's "foreign custody manager" as provided in Rule 17f-5 under the Investment Company Act. The "foreign custody manager" is responsible for determining that the Fund's directly-held foreign assets will be subject to reasonable care, based on standards applicable to custodians in relevant foreign markets. However, certain foreign banks and securities depositories may be recently organized or new to the foreign custody business. They may also have operations subject to limited or no regulatory oversight. Also, the laws of certain countries may put limits on the Fund's ability to recover its assets if a foreign bank or depository or issuer of a security or an agent of any of the foregoing goes bankrupt. In addition, it likely will be more expensive for the Fund to buy, sell and hold securities, or increase or decrease exposures thereto, in certain foreign markets than it is in the U.S. market due to higher brokerage, transaction, custody and/or other costs. The increased expense of investing in foreign markets reduces the amount the Fund can earn on its investments.

Settlement and clearance procedures in certain foreign markets differ significantly from those in the U.S. Foreign settlement and clearance procedures and trade regulations also may involve certain risks (such as delays in payment for or delivery of securities) not typically involved with the settlement of U.S. investments. Communications between the U.S. and emerging market countries may be unreliable, increasing the risk of delayed settlements or losses of security certificates. Settlements in certain foreign countries at times have not kept pace with the number of securities transactions. The problems may make it difficult for the Fund to carry out transactions. If the Fund cannot settle or is delayed in settling a purchase of securities, the Fund may miss attractive investment opportunities and certain of its assets may be uninvested with no return earned thereon for some period. If the Fund cannot settle or is delayed in settling a sale of securities, directly or indirectly, it may lose money if the value of the security then declines or, if it has contracted to sell the security to another party, the Fund could be liable to that party for any losses incurred.

Dividends and interest on, and proceeds from the sale of, foreign securities the Fund holds, or has exposure to, may be subject to foreign withholding or other taxes, and special federal tax considerations may apply.

Depository Receipts

The Fund may invest in foreign securities by purchasing sponsored and unsponsored depository receipts, including American Depository Receipts (“ADRs”), European Depository Receipts (“EDRs”) and Global Depository Receipts (“GDRs”) or other securities convertible into securities of issuers based in foreign countries. These securities may not necessarily be denominated in the same currency as the securities which they represent. Generally, ADRs, in registered form, are denominated in U.S. dollars and are designed for use in the U.S. securities markets, GDRs, in bearer form, are issued and designed for use outside the United States and EDRs (also referred to as Continental Depository Receipts (“CDRs”)), in bearer form, may be denominated in other currencies and are designed for use in European securities markets. ADRs are receipts typically issued by a U.S. bank or trust company evidencing ownership of the underlying securities. EDRs are European receipts evidencing a similar arrangement. GDRs are receipts typically issued by non-United States banks and trust companies that evidence ownership of either foreign or domestic securities. For purposes of the Fund’s investment policies, ADRs, GDRs and EDRs are deemed to have the same classification as the underlying securities they represent. Thus, an ADR, GDR or EDR representing ownership of common stock will be treated as common stock.

In an unsponsored arrangement, the foreign issuer assumes no obligations and the depository’s transaction fees are paid by the depository holder. Unsponsored depository receipts may be created without the participation of the foreign issuer. Holders of these receipts generally bear all the costs of the depository receipt facility, whereas foreign issuers typically bear certain costs in a sponsored depository receipt. The bank or trust company depository of an unsponsored depository receipt may be under no obligation to distribute shareholder communications received from the foreign issuer or to pass through voting rights. Accordingly, available information concerning the issuer may not be current, and the prices of unsponsored depository receipts may be more volatile than the prices of sponsored depository receipts. In addition, the issuers of securities underlying unsponsored depository receipts may be subject to less stringent government supervision.

Illiquid Securities

The Fund may invest up to 15% of its net assets in illiquid securities. For this purpose, “illiquid securities” are securities that the Fund may not sell or dispose of within seven days in the ordinary course of business at approximately the amount at which the Fund has valued the securities. A repurchase agreement maturing in more than seven days is considered illiquid, unless it can be terminated after a notice period of seven days or less.

Cambria also may deem certain securities to be illiquid as a result of Cambria’s receipt from time to time of material, non-public information about an issuer, which may limit Cambria’s ability to trade such securities for the account of any of its clients, including the Fund. In some instances, these trading restrictions could continue in effect for a substantial period of time.

At times, the inability to sell illiquid securities can make it more difficult to determine their fair value for purposes of computing the Fund’s net asset value. The judgment of Cambria normally plays a greater role in valuing these securities than in valuing publicly traded securities.

Repurchase Agreements

The Fund may enter into repurchase agreements with banks and broker-dealers. A repurchase agreement is an agreement under which securities are acquired by the Fund from a securities dealer or bank subject to resale at an agreed upon price on a later date. The Fund bears a risk of loss in the event that the other party to a repurchase agreement defaults on its obligations and the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities. Such a default may subject the Fund to expenses, delays, and risks of loss including: (i) possible declines in the value of the underlying security while the Fund seeks to enforce its rights, (ii) possible reduced levels of income and lack of access to income during this period, and (iii) the inability to enforce its rights and the expenses involved in attempted enforcement.

Repurchase agreements may be treated as loans by the SEC staff. The Fund will not enter into repurchase agreements if, as a result, the aggregate amount of the Fund’s loans would exceed 33 1/3% of its total assets.

Securities Lending

The Fund may make secured loans of its portfolio securities; however, securities loans will not be made if, as a result, the aggregate amount of all outstanding securities loans by the Fund exceeds 33 1/3% of its total assets (including the market value of collateral received). For purposes of complying with the Fund's investment policies and restrictions, collateral received in connection with securities loans is deemed an asset of the Fund to the extent required by law. The Fund continues to receive dividends or interest, as applicable, on the securities loaned and simultaneously earns either interest on the investment of the cash collateral or fee income if the loan is otherwise collateralized.

To the extent the Fund engages in securities lending, securities loans will be made to broker-dealers that Cambria believes to be of relatively high credit standing pursuant to agreements requiring that the loans continuously be collateralized by cash, liquid securities, or shares of other investment companies with a value at least equal to the market value of the loaned securities. As with other extensions of credit, the Fund bears the risk of delay in the recovery of the securities and of loss of rights in the collateral should the borrower fail financially. The Fund also bears the entire risk of loss on any reinvested collateral received in connection with securities lending.

Voting rights or rights to consent with respect to the loaned securities pass to the borrower. The Fund has the right to call loans at any time on reasonable notice. However, the Fund bears the risk of delay in the return of the security, impairing the Fund's ability to vote on such matters. Cambria will retain lending agents on behalf of the Fund based on a percentage of the Fund's return on its securities lending. The Fund may also pay various fees in connection with securities loans, including shipping fees and custodian fees. The costs of lending securities are not reflected in the Fund's Annual Fund Operating Expenses.

PORTFOLIO TURNOVER

“Portfolio Turnover Rate” is defined under the rules of the SEC as the lesser of the value of the securities purchased or of the securities sold, excluding all securities whose maturities at the time of acquisition were one-year or less, divided by the average monthly value of such securities owned during the year. Based on this definition, instruments with a remaining maturity of less than one-year are excluded from the calculation of the portfolio turnover rate. Instruments excluded from the calculation of portfolio turnover generally would include the futures contracts and option contracts in which the Fund invests because such contracts generally have a remaining maturity of less than one-year.

The value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund’s shares also is excluded from the calculation of the Fund’s portfolio turnover rate. As a result, the Fund’s reported portfolio turnover may be low despite relatively high portfolio activity which would, in turn, produce correspondingly greater expenses for the Fund, including brokerage commissions or dealer mark-ups and other transaction costs on the sale of securities and reinvestments in other securities. Generally, the higher the rate of portfolio turnover of a fund, the higher these transaction costs borne by the fund and its long-term shareholders. Such sales may result in the realization of taxable capital gains (including short-term capital gains, which, when distributed, are generally taxed to shareholders at ordinary income tax rates).

The Fund has not commenced operations as of the date of this SAI. Accordingly, no portfolio turnover information is provided.

MANAGEMENT OF THE FUND

Trustees and Officers

The business and affairs of the Trust are managed by its officers under the oversight of its Board. The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of Cambria and the Trust's other service providers. Each Trustee serves until his or her successor is duly elected or appointed and qualified.

The Board is comprised of four Trustees. One Trustee and certain of the officers of the Trust are directors, officers or employees of Cambria. The other Trustees are not "interested persons" (as defined in Section 2(a)(19) of the Investment Company Act) of the Trust (the "Independent Trustees"). The fund complex includes all funds advised by Cambria (the "Fund Complex").

The Trustees, their age (by year of birth), term of office and length of time served, their principal business occupations during the past five years, the number of portfolios in the Fund Complex overseen and other directorships, if any, held by each Trustee, are shown below. The officers, their age (by year of birth), term of office and length of time served and their principal business occupations during the past five years, are shown below. Unless noted otherwise, the address of each Trustee and each Officer is: c/o Cambria ETF Trust, 3300 Highland Avenue, Manhattan Beach, CA 90266.

Trustees

Name and Year of Birth	Position(s) Held with Trust, Term of Office, and Length of Time Served	Principal Occupation During Past 5 Years	Number of Funds in Fund Complex Overseen by Trustee	Other Directorships Held by Trustee
Interested Trustee*				
Mebane Faber YOB: 1977	Chairperson of the Board, Trustee, and President of the Trust since 2018; Vice President of the Trust (2013 – 2018); no set term	Co-Founder and Chief Investment Officer (2006 – present), Chief Executive Officer (2018 – present), Cambria Investment Management, L.P.	15	None.
Independent Trustees				
Cullen Roche YOB: 1980	Trustee; no set term	Founder and Chief Investment Officer, Orcam Financial Group, d/b/a Discipline Funds (investment firm) (2012 – present).	15	None.
Dennis G. Schmal YOB: 1947	Trustee since 2013; no set term	Retired.	15	Trustee, AssetMark Mutual Funds (since 2007); Trustee, Wells Fargo GAI Hedge Funds (2007 – 2019); Director and Chairman, Owens Realty Mortgage Inc. (real estate) (2013 – 2019).
Thomas (Taz) M. Turner, Jr.** YOB: 1977	Trustee; no set term	Founder and Portfolio Manager, Southshore Capital Partners (investment firm) (since 2010).	15	Chairman and Chief Executive Officer, CordovaCann Inc. (Canadian-domiciled cannabis retail) (since 2017).

* Mr. Faber is an "interested person," as defined by the Investment Company Act, because of his employment with and ownership interest in Cambria.

** Messrs. Faber and Turner are first cousins, but they are not immediate family members for the purpose of identifying "interested persons" of the Trust as defined in the Investment Company Act.

Officers

Name and Year of Birth	Position(s) Held with Trust, Term of Office, and Length of Time Served	Principal Occupation During Past 5 Years
Aaron Perkovich YOB: 1973	Treasurer and Principal Financial Officer since Sept. 2023; no set term	Head of Fund Administration (since 2023), Fund Administration Manager (2022 – 2023), Tidal ETF Services LLC; Assistant Director – Investments, Mason Street Advisors, LLC (2021 – 2022); Vice President, U.S. Bancorp Fund Services, LLC (2006 – 2021).
Jonathan Keetz YOB: 1988	Vice President since Nov. 2020; no set term	Chief Operating Officer (since Nov. 2020) and Vice President (2015 – 2020), Cambria Investment Management, L.P.
Douglas Tyre YOB: 1980	Chief Compliance Officer since June 2018; no set term	Senior Principal Consultant, ACA Group (May 2022 – Present); Compliance Director, Foreside Financial Group, LLC (April 2022 – May 2022); Compliance Director (2019 – 2022), Assistant Compliance Director (2018 – 2019), Cipperman Compliance Services, LLC.

Additional Information About the Trustees

The following provides information additional to that set forth in the table above regarding other relevant qualifications, experience, attributes or skills applicable to each Trustee.

Mebane Faber: Mr. Faber has extensive experience in the investment management industry, including as a portfolio manager, an author of multiple investment strategy books, and host of his own wealth management podcast.

Cullen Roche: Mr. Roche has extensive experience in the investment management industry, including as a portfolio manager and an author well-known for his research on the monetary system and portfolio construction. He is the founder and Chief Investment Officer of an SEC-registered investment adviser, and he serves as the portfolio manager for the firm’s exchange-traded fund. Mr. Roche has consulted on portfolio management as a discretionary and non-discretionary advisor for over 15 years.

Dennis G. Schmal: Mr. Schmal has extensive experience in the investment management industry, including as a member of senior management of the investment company audit practice at a large public accounting firm, as well as service on multiple boards of directors overseeing public companies, registered investment companies and private companies and funds.

Taz Turner: Mr. Turner has extensive experience in the investment management industry, including over 20 years of experience investing in global equity and debt securities in both public and private markets on behalf of various hedge funds and private equity firms. In 2010, he founded the investment firm Southshore Capital Partners, and he serves as the firm’s General Partner and portfolio manager for the firm’s global investment fund.

The Board has determined that each Trustee on an individual basis and in combination with the other Trustees is qualified to serve, and should serve, on the Board. To make this determination the Board considered a variety of criteria, none of which in isolation was controlling. Among other things, the Board considered each Trustee’s experience, qualifications, attributes and skills.

Board Structure

Mr. Faber is considered to be an Interested Trustee and serves as Chairman of the Board. The Chairman’s responsibilities include: setting an agenda for each meeting of the Board; presiding at all meetings of the Board and, if present, meetings of the Independent Trustees; and, serving as a liaison between the other Trustees, Trust officers, management personnel and counsel.

The Board believes that having an interested Chairman, who is familiar with Cambria and its operations, while also having two-thirds of the Board composed of Independent Trustees, strikes an appropriate balance that allows the Board to benefit from the insights and perspective of a representative of management while empowering the Independent Trustees with the ultimate decision-making authority. The Board has not appointed a lead Independent Trustee at this time. The Board does not believe that an independent Chairman or lead Independent Trustee would enhance the Board's effectiveness, as the relatively small size of the Board allows for diverse viewpoints to be shared and for effective communications between and among Independent Trustees and management so that meetings proceed efficiently. Independent Trustees have effective control over the Board's agenda because they form a majority of the Board and can direct Trust officers, Cambria, and the Fund's third-party service providers to give presentations and address agenda topics at Board meetings.

The Board normally holds four regularly scheduled meetings each year, at least one of which is in person. The Board may hold special meetings, as needed, either in person or by telephone, to address matters arising between regular meetings. The Independent Trustees meet separately at each regularly scheduled in-person meeting of the Board; during a portion of each such separate meeting management is not present. The Independent Trustees may also hold special meetings, as needed, either in person or by telephone.

The Board conducts a self-assessment on an annual basis, as part of which it considers whether the structure of the Board and its Committees is appropriate under the circumstances. Based on such self-assessment, among other things, the Board considers whether its current structure is appropriate. As part of this self-assessment, the Board considers several factors, including the number of funds overseen by the Board, their investment objectives, and the responsibilities entrusted to Cambria and other service providers with respect to the oversight of the day-to-day operations of the Trust and the Fund.

The Board sets broad policies for the Trust and may appoint Trust officers. The Board oversees the performance of Cambria and the Trust's other service providers. As part of its oversight function, the Board monitors Cambria's risk management, including, as applicable, its management of investment, compliance and operational risks, through the receipt of periodic reports and presentations. The Board has not established a standing risk committee. Rather, the Board relies on Trust officers, advisory personnel and service providers to manage applicable risks and report exceptions to the Board in order to enable it to exercise its oversight responsibility. To this end, the Board receives reports from such parties at least quarterly, including, but not limited to, investment and/or performance reports, distribution reports, Rule 12b-1 reports, valuation and internal controls reports. Similarly, the Board receives quarterly reports from the Trust's chief compliance officer ("CCO"), including, but not limited to, a report on the Trust's compliance program, and the Independent Trustees have an opportunity to meet separately each quarter with the CCO. The CCO typically provides the Board with updates regarding the Trust's compliance policies and procedures, including any enhancements to them. The Board expects all parties, including, but not limited to, Cambria, other service providers and the CCO, to inform the Board on an intra-quarter basis if a material issue arises that requires the Board's oversight.

The Board generally exercises its oversight as a whole, but the Board has delegated certain oversight functions to an Audit Committee. The function of the Audit Committee is discussed in detail below.

Committees

The Board currently has two standing committees: an Audit Committee and a Nominating Committee. Each Independent Trustee serves on each of these committees.

The purposes of the Audit Committee are to: (1) oversee generally the Fund's accounting and financial reporting policies and practices, their internal controls and, as appropriate, the internal controls of certain service providers; (2) oversee the quality, integrity, and objectivity of the Fund's financial statements and the independent audit thereof; (3) assist the full Board with its oversight of the Trust's compliance with legal and regulatory requirements that relate to the Fund's accounting and financial reporting, internal controls and independent audits; (4) approve, prior to appointment, the engagement of the Trust's independent auditors and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust's independent auditors; and (5) act as a liaison between the Trust's independent auditors and the full Board. During the fiscal year ended April 30, 2024, the Audit Committee met two times.

The purposes of the Nominating Committee are, among other things, to: (1) identify and recommend for nomination candidates to serve as Trustees and/or on Board committees who are not “interested persons” as defined in Section 2(a) (19) of the Investment Company Act (“Interested Person”) of the Trust and who meet any independence requirements of Exchange Rule 5.3(k)(1) or the applicable rule of any other exchange on which shares of the Trust are listed; (2) evaluate and make recommendations to the full Board regarding potential trustee candidates who are Interested Persons of the Trust; and (3) review periodically the workload and capabilities of the Trustees and, as the Committee deems appropriate, to make recommendations to the Board if such a review suggests that changes to the size or composition of the Board and/or its committees are warranted. The Committee does not consider potential candidates for nomination identified by shareholders. During the fiscal year ended April 30, 2024, the Nominating Committee did not meet.

Compensation of Trustees. The Independent Trustees determine the amount of compensation that they receive. In determining compensation for the Independent Trustees, the Independent Trustees take into account a variety of factors including, among other things, their collective significant work experience (*e.g.*, in business and finance, government or academia). The Independent Trustees also recognize that these individuals’ advice and counsel are in demand by other organizations, that these individuals may reject other opportunities because of the time demands of their duties as Independent Trustees, and that they undertake significant legal responsibilities. The Independent Trustees also consider the compensation paid to independent board members of other registered investment company complexes of comparable size.

The Independent Trustees are paid \$10,000 per quarter for attendance at meetings of the Board and the Chairman of the Audit Committee receives an additional \$1,250 per quarter. The Trust’s officers and any interested Trustees receive no compensation directly from the Trust. All Trustees are reimbursed for their travel expenses and other reasonable out-of-pocket expenses incurred in connection with attending Board meetings. The Trust does not accrue pension or retirement benefits as part of the Fund’s expenses, and Trustees are not entitled to benefits upon retirement from the Board.

The following table reflects compensation paid to the Trustees for the fiscal year ended April 30, 2024:

Independent Trustees	Compensation¹	Compensation Deferred¹	Total Compensation from the Fund Complex Paid to Trustee¹
Cullen Roche ²	\$25,000	\$0	\$25,000
Dennis G. Schmal	\$45,000	\$0	\$45,000
Taz Turner ²	\$25,000	\$0	\$25,000
Interested Trustee			
Mebane Faber ³	\$0	\$0	\$0

¹ Trustee compensation is allocated across the series of the Fund Complex on the basis of assets under management. Under the Fund’s Management Agreement, however, Cambria ultimately pays the compensation and expenses of the Trustees.

² Messrs. Roche and Turner were elected to serve as Independent Trustees effective as of August 25, 2023.

³ Mr. Faber is an “interested person,” as defined by the Investment Company Act, because of his employment with and ownership interest in Cambria.

Equity Ownership of Trustees. The following table shows the dollar amount range of each Trustee’s “beneficial ownership” of shares of the Fund and each series of the Trust as of the end of the most recently completed calendar year. Dollar amount ranges disclosed are established by the SEC. “Beneficial ownership” is determined in accordance with Rule 16a-1(a)(2) under the 1934 Act. The Trustees and officers of the Trust collectively own less than 1% of the outstanding shares of the Trust.

Name of Trustee	Name of Fund	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies¹
Interested Trustee			
Mebane Faber	Cambria LargeCap Shareholder Yield ETF	None	Over \$100,000
Independent Trustees			
Cullen Roche ²	Cambria LargeCap Shareholder Yield ETF	None	None
Dennis G. Schmal	Cambria LargeCap Shareholder Yield ETF	None	None
Taz Turner ²	Cambria LargeCap Shareholder Yield ETF	None	None

¹ Dollar ranges are based on a December 31, 2023 valuation date.

² Messrs. Roche and Turner were elected to serve as Independent Trustees effective as of August 25, 2023.

As of December 31, 2023, none of the Independent Trustees or their immediate family members beneficially owned any securities in any investment adviser or principal underwriter of the Trust, or in any person (other than a registered investment company) directly or indirectly controlling, controlled by, or under common control with an investment adviser or principal underwriter of the Trust.

Codes of Ethics

The Board, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the Investment Company Act. In addition, Cambria, the Sub-Adviser, and the Distributor each have adopted a Code of Ethics pursuant to Rule 17j-1. These Codes of Ethics (each, a “Code of Ethics” and, collectively, the “Codes of Ethics”) apply to the personal investing activities of trustees, directors, officers and certain employees (“access persons”). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to engage in personal securities transactions, including in securities that may be purchased or held by the Fund, but the access persons are required to report their personal securities transactions for monitoring purposes. In addition, certain access persons are required to obtain approval before investing in private placements and are prohibited from investing in IPOs. Copies of the Codes of Ethics are on file with the SEC and available to the public.

Proxy Voting

The Board has delegated to Cambria the responsibility to vote proxies related to the securities held in the Fund’s portfolios. Under this authority, Cambria is required by the Board to vote proxies related to portfolio securities in the best interests of the Fund and its shareholders. Cambria has subsequently delegated the authority and responsibility to vote proxies for the Fund’s securities to the Sub-Adviser pursuant to the Sub-Advisory Agreement described in greater detail below. The Sub-Adviser will vote such proxies in accordance with its proxy policies and procedures, which are included in Appendix A to this SAI.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 will be available without charge by calling 855-ETF-INFO (383-4636) or by accessing the SEC’s website at <http://www.sec.gov>.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

Cambria owns all of the initial Shares issued by the Fund prior to the commencement of investment operations and the public launch of the Fund.

INVESTMENT MANAGEMENT AND OTHER SERVICES

Investment Advisory Agreement

Under an investment advisory agreement between Cambria and the Trust, on behalf of the Fund (the “Management Agreement”), the Fund pays Cambria a fee at an annualized rate, which is calculated daily and paid monthly, based on its average daily net assets, set forth in the table below:

Fund	Advisory Fee
Cambria LargeCap Shareholder Yield ETF	0.59%

The Fund had not commenced operations as of the end of the most recent fiscal year. Accordingly, the Fund has not paid any advisory fees to Cambria during the most recently ended fiscal period.

Cambria manages the investment and the reinvestment of the assets of the Fund in accordance with the investment objective, policies, and limitations of the Fund, subject to the general supervision and control of the Board. Cambria is a registered investment adviser under the Investment Advisers Act of 1940 and is a limited partnership organized under the laws of Delaware. The address of Cambria is 3300 Highland Avenue, Manhattan Beach, California 90266. Mebane Faber, Sofia Reyes Descendants Trust, Lillian Elizabeth Richardson Trust, Cambria Investments Holdings, LLC, and Cambria Investments Holdings II, LLC are limited partners of the Adviser, and Cambria GP, LLC is the Adviser’s general partner. Cambria GP, LLC shares the address of the Adviser. Mebane Faber is the sole manager of, and controls, Cambria GP, LLC. Cambria GP, LLC controls the Adviser as its sole general partner. Cambria was founded in 2006 and provides investment advisory services to registered and unregistered investment companies, individuals (including high net worth individuals), pensions and charitable organizations.

Under the Management Agreement, Cambria bears all of the costs of the Fund, except for the advisory fee, payments under the Fund’s 12b-1 plan, brokerage expenses, acquired fund fees and expenses, taxes, interest (including borrowing costs and dividend expenses on securities sold short), litigation expenses and other extraordinary expenses (including litigation to which the Trust or the Fund may be a party and indemnification of the Trustees and officers with respect thereto).

The Management Agreement provides that Cambria will not be liable for any error of judgment or mistake of law or for any loss suffered by the Trust in connection with the matters to which the Management Agreement relates, but will be liable to the Trust and its shareholders only for willful misfeasance, bad faith, or gross negligence on its part in the performance of its duties or from reckless disregard of its obligations or duties thereunder.

The Management Agreement also provides that Cambria may engage in other businesses, devote time and attention to any other business whether of a similar or dissimilar nature, and render investment advisory services to others.

The Management Agreement with respect to the Fund will remain in effect for two (2) years from its effective date and thereafter continue in effect for as long as its continuance is specifically approved at least annually, by (1) the vote of the Trustees or by a vote of a majority of the shareholders of the Fund, and (2) by the vote of a majority of the Trustees who are not parties to the Management Agreement or Interested Persons of any person thereto, cast in person at a meeting called for the purpose of voting on such approval. The Management Agreement provides that it may be terminated at any time, without the payment of any penalty, by the Board of Trustees or by a majority of the outstanding shares of the Fund, on 60 days’ written notice to Cambria, and by Cambria upon 60 days’ written notice and that it shall be automatically terminated if it is assigned.

Investment Sub-Advisory Agreement

The Sub-Adviser is an SEC-registered investment adviser and a Delaware limited liability company located at 234 W. Florida Street, Suite 203, Milwaukee, Wisconsin 53204. The Sub-Adviser is the parent company of Tidal ETF Services LLC. The Sub-Adviser was founded in, and has been managing investment companies, since March 2012. The Sub-Adviser is dedicated to understanding, researching and managing assets within the expanding ETF universe. As of June 1, 2024, the Sub-Adviser had assets under management of approximately \$16 billion and served as the investment adviser or sub-adviser for 148 registered funds. Under a sub-advisory agreement between Cambria and Tidal Investments LLC (the “Sub-Advisory Agreement”), the Adviser pays the Sub-Adviser a portion of its fee, which is calculated daily and paid monthly, at the following fee rate: 3 basis points on the first \$2 billion of aggregate Fund assets; and 2.5 basis points on aggregate Fund assets above \$2 billion.

The Fund had not commenced operations as of the end of the most recent fiscal year. Accordingly, the Adviser did not pay any fees to the Sub-Adviser during the most recently ended fiscal period.

The Sub-Advisory Agreement with respect to the Fund will remain in effect for two (2) years from its effective date and thereafter continue in effect for as long as its continuance is specifically approved at least annually, by (1) the vote of the Trustees or by a vote of a majority of the shareholders of the Fund, and (2) by the vote of a majority of the Trustees who are

not parties to the Sub-Advisory Agreement or Interested Persons of any person thereto, cast in person at a meeting called for the purpose of voting on such approval. The Sub-Advisory Agreement provides that it may be terminated at any time, without the payment of any penalty, (i) by the Board of Trustees, including a majority of the Independent Trustees, or by the vote of a majority of the outstanding shares of the Fund, on sixty (60) days' written notice to Cambria and the Sub-Adviser, or (ii) by Cambria or the Sub-Adviser on sixty (60) days' written notice to the Trust and the other party. In addition, the Sub-Advisory Agreement shall be automatically terminated if it is assigned.

The Trust is in the process of applying for exemptive relief from the SEC, which, if obtained, will permit the Adviser, subject to certain conditions, to terminate the existing Sub-Adviser or hire new sub-advisers for the Fund, to materially amend the terms of particular agreements with sub-advisers or to continue the employment of a sub-adviser after events that would otherwise cause an automatic termination of a sub-advisory agreement. Consequently, under the exemptive order, the Adviser will have the right to hire, terminate and replace a sub-adviser to the Fund when the Board and the Adviser feel that a change would benefit the Fund. Within 90 days of retaining a new sub-adviser, shareholders of any affected Fund will receive notification of the change. This structure, known as a "manager of managers" structure, enables the Fund to operate with greater efficiency and without incurring the expense and delays associated with obtaining shareholder approval of sub-advisory agreements. The structure does not permit investment advisory fees paid by the Fund to be increased or change the Adviser's obligations under the investment advisory agreement, including the Adviser's responsibility to monitor and oversee sub-advisory services furnished to the Fund, without shareholder approval. Furthermore, any sub-advisory agreements with affiliates of the Fund or the Adviser will require shareholder approval. Until the Adviser and the Trust obtain this relief, the Fund will continue to submit these matters to shareholders for their approval to the extent required by applicable law.

Administrator

Tidal ETF Services LLC ("Tidal" or the "Administrator"), a Tidal Financial Group company and an affiliate of the Sub-Adviser, located at 234 West Florida Street, Suite 203, Milwaukee, Wisconsin 53204, serves as the administrator to the Fund. Pursuant to a Fund Administration Servicing Agreement between the Trust and Tidal, Tidal provides the Trust with, or arranges for, administrative and management services (other than investment advisory services) to be provided to the Trust and the Board, such as, but not limited to, clerical and general back office services; bookkeeping, internal accounting and secretarial services; the calculation of NAV; and the preparation and filing of certain reports, updates to registration statements, and other materials required to be filed or furnished by the Fund under federal and state securities laws. In addition, Tidal provides an officer or employee of Tidal to serve as the Trust's principal financial officer, coordinates the payment of certain Fund-related expenses, and manages the Trust's relationships with certain of its service providers. As compensation for the services it provides, Tidal receives a fee based on the Fund's average daily net assets. Tidal also is entitled to certain out-of-pocket expenses for the services mentioned above.

Sub-Administrator, Fund Accountant and Transfer Agent

U.S. Bancorp Fund Services, LLC, d/b/a U.S. Bank Global Fund Services ("Global Fund Services" or the "Sub-Administrator" or the "Transfer Agent"), located at 615 East Michigan Street, Milwaukee, Wisconsin 53202, serves as the Fund's sub-administrator and fund accountant as well as transfer agent to the Fund's assets. Pursuant to a Partial Fund Administration Servicing Agreement and a Fund Accounting Servicing Agreement between Global Fund Services and the Trust, Global Fund Services provides the Trust with administrative and management services (other than investment advisory services) and accounting services, including portfolio accounting services, tax accounting services and furnishing financial reports. In this capacity, Global Fund Services does not have any responsibility or authority for the management of the Fund, the determination of investment policy, or for any matter pertaining to the distribution of Shares. Pursuant to a Transfer Agent Servicing Agreement, Global Fund Services has agreed to: (1) issue and redeem shares of the Fund in Creation Units, (2) make dividend and other distributions to shareholders of the Fund, (3) maintain shareholder accounts, and (4) make periodic reports to the Fund. As compensation for each of these services, Global Fund Services receives a fee based on the Fund's average daily net assets, subject to a minimum annual fee. Global Fund Services also is entitled to certain out-of-pocket expenses for the services mentioned above, including pricing expenses.

Custodian

U.S. Bank National Association ("U.S. Bank" or the "Custodian"), located at 1555 N. Rivercenter Drive, Milwaukee, Wisconsin 53212, serves as custodian to the Fund's assets. U.S. Bank is the parent company of Global Fund Services. As custodian, U.S. Bank has agreed to: (1) make receipts and disbursements of money on behalf of the Fund, (2) collect and receive all income and other payments and distributions on account of the Fund's portfolio investments, and (3) make periodic reports to the Fund concerning the Fund's operations. U.S. Bank does not exercise any supervisory function over the purchase and sale of securities. As compensation for these services, the Custodian receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by Cambria from its fees.

PORTFOLIO MANAGERS

The following table provides information about the other accounts, in addition to the Fund, for which the portfolio managers have day-to-day management responsibility. None of the other accounts managed by the portfolio managers are subject to a performance-based advisory fee. The reporting information is provided as of June 1, 2024:

Type of Account	Number of Accounts Managed	Total Assets Managed (\$ millions)
Mebane Faber		
Registered Investment Companies	15	\$2,600
Other Pooled Investment Vehicles	0	\$0
Other Accounts	300	\$30
Jonathan Keetz		
Registered Investment Companies	15	\$2,600
Other Pooled Investment Vehicles	0	\$0
Other Accounts	300	\$30

Potential Conflicts of Interest

Each portfolio manager's management of "other accounts" may give rise to potential conflicts of interest in connection with his management of the Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby a portfolio manager could favor one account over another. Another potential conflict could include a portfolio manager's knowledge about the size, timing and possible market impact of Fund trades, whereby a portfolio manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. Cambria has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated. There can be no assurance, however, that these policies and procedures will be effective.

Compensation

Mr. Faber owns an equity interest in Cambria and his compensation is determined by the advisory fee revenue generated by the firm's assets under management. Thus, portfolio manager compensation is aligned with the interests of Cambria's clients, including the Fund and their investors, because it is in the portfolio manager's best interests to grow the assets of its clients, including the Fund, by delivering strong performance to each. The portfolio managers may also earn a bonus each year based on the profitability of Cambria.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Brokerage Transactions

Portfolio changes will generally be implemented through in-kind transactions for Creation Units; however, the Adviser or Sub-Adviser, as applicable, may execute brokerage transactions for the Fund and the Fund may incur brokerage commissions, particularly during the early stages of the Fund's development or in the case of transactions involving realized losses. Also, the Fund may accept cash as part or all of an In-Kind Creation or Redemption Basket, in which case Cambria may need to execute brokerage transactions for the Fund. Generally, equity securities, including securities of underlying ETFs, are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. Money market securities and other debt securities are usually bought and sold directly from the issuer or an underwriter or market maker for the securities. Generally, the Fund will not pay brokerage commissions for such purchases. When a debt security is bought from an underwriter, the purchase price will usually include an underwriting commission or concession. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark-up or reflect a dealer's mark-down. When the Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In addition, the Adviser or Sub-Adviser, as applicable, may place a combined order, often referred to as "bunching," for two or more accounts it manages, including the Fund, engaged in the purchase or sale of the same security or other instrument if, in its judgment, joint execution is in the best interest of each participant and will result in best price and execution. Transactions involving commingled orders are allocated in a manner deemed equitable to each account or Fund. Although it

is recognized that, in some cases, the joint execution of orders could adversely affect the price or volume of the security that a particular account or the Fund may obtain, it is the opinion of the Adviser or Sub-Adviser, as applicable, that the advantages of combined orders outweigh the possible disadvantages of separate transactions. In addition, in some instances the Fund effecting the larger portion of a combined order may not benefit to the same extent as participants effecting smaller portions of the combined order. Nonetheless, the Adviser or Sub-Adviser, as applicable, believes that the ability of the Fund to participate in higher volume transactions will generally be beneficial to the Fund.

The Fund had not commenced operations as of the end of the most recent fiscal year. Accordingly, for the fiscal year ended April 30, 2024, the Fund did not pay any brokerage commissions.

Brokerage Selection

The Trust does not expect to use one particular broker-dealer to effect the Trust's portfolio transactions. When one or more broker-dealers is believed capable of providing the best combination of price and execution, the Adviser or Sub-Adviser may not select a broker-dealer based on the lowest commission rate available for a particular transaction. In such cases, the Adviser or Sub-Adviser may pay a higher commission than otherwise obtainable from other brokers in return for brokerage or research services provided to the Adviser or Sub-Adviser consistent with Section 28(e) of the 1934 Act, which provides that the Adviser or Sub-Adviser may cause the Fund to pay a broker-dealer a commission for effecting a transaction in excess of the amount of commission another broker-dealer would have charged as long as the Adviser or Sub-Adviser makes a good faith determination that the amount of commission is reasonable in relation to the value of the brokerage and research services provided by the broker-dealer. To the extent the Adviser or Sub-Adviser obtains brokerage and research services that it otherwise would acquire at its own expense, the Adviser or Sub-Adviser may have an incentive to place a greater volume of transactions or pay higher commissions than would otherwise be the case.

The Adviser or Sub-Adviser, as applicable, will only obtain brokerage and research services from broker-dealers in arrangements that are consistent with Section 28(e) of the 1934 Act. The types of products and services that the Adviser or Sub-Adviser may obtain from broker-dealers through such arrangements will include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. The Adviser or Sub-Adviser may use products and services provided by brokers in servicing all of its client accounts and not all such products and services may necessarily be used in connection with the account that paid commissions to the broker-dealer providing such products and services. Any advisory or other fees paid to the Adviser or Sub-Adviser are not reduced as a result of the receipt of brokerage and research services.

In some cases, the Adviser or Sub-Adviser may receive a product or service from a broker that has both a "research" and a "non-research" use. When this occurs, the Adviser or Sub-Adviser will make a good faith allocation between the research and non-research uses of the product or service. The percentage of the service that is used for research purposes may be paid for with brokerage commissions, while the Adviser or Sub-Adviser will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, the Adviser or Sub-Adviser faces a potential conflict of interest, but each of the Adviser and Sub-Adviser believes that its allocation procedures are reasonably designed to appropriately allocate the anticipated use of such products and services to research and non-research uses.

Directed Brokerage

Because the Fund is new, for the fiscal year ended April 30, 2024, neither the Fund, nor Cambria, nor the Sub-Adviser paid any commissions on brokerage transactions directed to brokers pursuant to an agreement or understanding with a broker, or otherwise through an internal allocation procedure, whereby the broker provides research or other brokerage services to Cambria or the Sub-Adviser.

Brokerage with Fund Affiliates

Although not expected, the Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of the Fund, Cambria, the Sub-Adviser, or the Distributor for a commission in conformity with the Investment Company Act, the 1934 Act and rules promulgated by the SEC. Under the Investment Company Act and the 1934 Act, affiliated broker-dealers are permitted to receive and retain compensation for effecting portfolio transactions for the Fund on an exchange if a written contract is in effect between the affiliate and the Fund expressly permitting the affiliate to receive and retain such compensation. These rules further require that commissions paid to the affiliate by the Fund for exchange transactions not exceed "usual and customary" brokerage commissions. The rules define "usual and customary" commissions to include amounts that are

“reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time.” The Board, including those who are not “interested persons” of the Fund, has adopted procedures for evaluating the reasonableness of commissions paid to affiliates and reviews these procedures periodically.

Because the Fund is new, for the fiscal year ended April 30, 2024, the Fund did not pay any commissions to affiliated broker-dealers.

Securities of “Regular Broker-Dealers”

The Fund is required to identify any securities of their “regular brokers and dealers” (as such term is defined in the Investment Company Act) (or the parent of the regular broker-dealers) that the Fund may hold at the close of their most recent fiscal year. “Regular brokers and dealers” of the Trust are the ten brokers or dealers that, during the most recent fiscal year: (i) received the greatest dollar amounts of brokerage commissions from the Trust’s portfolio transactions; (ii) engaged as principal in the largest dollar amounts of portfolio transactions of the Trust; or (iii) sold the largest dollar amounts of the Trust’s shares.

The Fund had not commenced operations as of the end of the most recent fiscal year. Accordingly, for the fiscal year ended April 30, 2024, the Fund did not hold any securities of its “regular brokers and dealers.”

THE DISTRIBUTOR

The Distributor is ALPS Distributors, Inc. (the “Distributor”), 1290 Broadway, Suite 1000, Denver, Colorado 80203.

Shares will be continuously offered for sale by the Trust through the Distributor only in Creation Units, as described below under “Transactions in Creation Units.” Shares in less than Creation Units are not distributed by the Distributor. The Distributor also acts as agent for the Trust. The Distributor will deliver a Prospectus to persons purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority, Inc. The Distributor has no role in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund.

The Board has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the Investment Company Act (the “Plan”). In accordance with its Plan, the Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year for certain distribution-related activities. In addition, if the payment of management fees by the Fund is deemed to be indirect financing by the Fund of the distribution of its shares, such payment is authorized by the Plan. The Plan specifically recognizes that Cambria may use its legitimate profits to pay for expenses incurred in connection with providing services intended to result in the sale of Shares. Cambria may pay amounts to third parties for distribution or marketing services on behalf of the Fund.

The Plan was adopted in order to permit the implementation of the Fund’s method of distribution. No fees are currently paid by the Fund under the Plan, however, and there are no current plans to impose such fees. In the event such fees were to be charged, over time they would increase the cost of an investment in the Fund because they would be paid on an ongoing basis. If fees were charged under the Plan, the Trustees would receive and review at the end of each quarter a written report provided by the Distributor of the amounts expended under the Plan and the purpose for which such expenditures were made. The Plan is a compensation plan, which means that, if the Plan were activated, the Distributor would be compensated regardless of its expenses, as opposed to a reimbursement plan which would reimburse only for expenses incurred.

The Plan will remain in effect for a period of one year and is renewable from year to year with respect to the Fund, so long as its continuance is approved at least annually (1) by the vote of a majority of the Trustees and (2) by a vote of the majority of those Independent Trustees who have no direct or indirect financial interest in the Plan (“Rule 12b-1 Trustees”), cast in person at a meeting called for the purpose of voting on such approval. The Plan may not be amended to increase materially the amount of fees paid by the Fund unless such amendment is approved by an Investment Company Act majority vote of the outstanding shares and by the Fund Trustees in the manner described above. The Plan is terminable with respect to the Fund at any time by a vote of a majority of the Rule 12b-1 Trustees or by an Investment Company Act majority vote of the outstanding shares.

Payments to Financial Intermediaries

The Fund, at its own expense, may pay additional compensation to financial intermediaries for shareholder-related services, including administrative, recordkeeping and shareholder communication services. In addition, pursuant to any applicable 12b-1 plan, the Fund may pay compensation to financial intermediaries for distribution-related services. For example, compensation may be paid to make Fund shares available to sales representatives and/or customers of a fund supermarket platform or a similar program sponsor or for services provided in connection with such fund supermarket platforms and programs. To the extent that the Fund pays all or a portion of such compensation, the payment is designed to compensate the financial intermediary for distribution activities and for providing services that would otherwise be provided by the Fund’s transfer agent and/or administrator.

Cambria or another affiliate of the Fund, out of its own resources and not as an expense of the Fund, may provide additional compensation to financial intermediaries. Such compensation is sometimes referred to as “revenue sharing.” Compensation received by a financial intermediary from Cambria or another Fund affiliate may include payments for shareholder servicing, marketing and/or training expenses incurred by the financial intermediary, including expenses incurred by the financial intermediary in educating its salespersons with respect to Fund shares. For example, such compensation may include reimbursements for expenses incurred in attending educational seminars regarding the Fund, including travel and lodging expenses. It may also cover costs incurred by financial intermediaries in connection with their efforts to sell Fund shares, including costs incurred in compensating registered sales representatives and preparing, printing and distributing sales literature.

The amount of compensation paid to different financial intermediaries may vary. The compensation paid to a financial intermediary may be based on a variety of factors, including average assets under management in accounts distributed and/or serviced by the financial intermediary, gross sales by the financial intermediary and/or the number of accounts serviced by the financial intermediary that invest in the Fund.

Any compensation received by a financial intermediary, whether from the Fund or its affiliates, and the prospect of receiving such compensation, may provide the financial intermediary with an incentive to recommend the shares of the Fund over other potential investments. Similarly, the compensation may cause financial intermediaries to elevate the prominence of the Fund within its organization by, for example, placing it on a list of preferred funds.

ACCOUNTING AND LEGAL SERVICE PROVIDERS

Independent Registered Public Accounting Firm

Cohen & Company, Ltd., 1350 Euclid Avenue, Suite 800, Cleveland, Ohio 44115, serves as the Fund's independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Fund and reviewing the tax returns.

Legal Counsel

Morgan, Lewis & Bockius LLP, located at 1111 Pennsylvania Avenue, N.W., Washington, D.C. 20004, serves as legal counsel to the Trust.

ADDITIONAL INFORMATION CONCERNING SHARES

Organization and Description of Shares of Beneficial Interest

The Trust is a Delaware statutory trust and registered open-end investment company. The Trust was organized on September 9, 2011 and has authorized capital of unlimited Shares of beneficial interest of no par value that may be issued in more than one class or series. Currently, the Trust consists of twenty-two funds, fifteen of which have commenced operations, and seven of which have not commenced operations, as of the date of this SAI. Each of the funds are actively managed. The Board may designate additional series and classify Shares of a particular series into one or more classes of that series.

Under Delaware law, the Trust is not required to hold an annual shareholders meeting if the Investment Company Act does not require such a meeting. Generally, there will not be annual meetings of Trust shareholders, but if requested in writing by shareholders of at least 25% of the outstanding Shares of the Fund, the Trust will call a meeting of shareholders of the relevant Fund. Shareholders holding two-thirds of Shares outstanding of the relevant Fund may remove Trustees from office by votes cast at a meeting of Trust shareholders or by written consent.

All Shares are freely transferable. Shares will not have preemptive rights or cumulative voting rights, and none of the Shares will have any preference to conversion, exchange, dividends, retirements, liquidation, redemption, or any other feature. Shares have equal voting rights. The Trust Instrument confers upon the Board the power, by resolution, to alter the number of Shares constituting a Creation Unit or to specify that Shares of the Fund may be individually redeemable. The Trust reserves the right to adjust the stock prices of Shares to maintain convenient trading ranges for investors. Any such adjustments would be accomplished through stock splits or reverse stock splits that would have no effect on the value of an investor's investment in the Fund.

The Trust Instrument of the Trust disclaims liability of the shareholders or the officers of the Trust for acts or obligations of the Trust that are binding only on the assets and property of the Trust. The Trust Instrument provides for indemnification out of the Fund's property for all loss and expense of the Fund's shareholders being held personally liable solely by reason of his or her being or having been a shareholder and not because of his or her acts or omissions or for some other reason. The risk of a Trust shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund itself would not be able to meet the Trust's obligations and this risk should be considered remote.

If the Fund does not grow to a size to permit it to be economically viable, the Fund may cease operations. In such an event, shareholders may be required to liquidate or transfer their Shares at an inopportune time and shareholders may lose money on their investment.

Book Entry Only System

The following information supplements and should be read in conjunction with the section in the Prospectus entitled "Book Entry."

DTC acts as Securities Depository for Shares. Shares of the Fund is represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited purpose trust company, was created to hold securities of its participants (the "DTC Participants") and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by NYSE and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the "Indirect Participants").

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as "Beneficial Owners") is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase and sale of Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Fund distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in Shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to Shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

TRANSACTIONS IN CREATION UNITS

The Fund sells and redeems Shares in Creation Units on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt of an order in proper form on any Business Day. As of the date of this SAI, the NYSE observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The Fund will not issue fractional Creation Units. Shares of the Fund will only be issued against full payment, as further described in the Prospectus and this SAI.

A Creation Unit is an aggregation of Shares. The Board may declare a split or a consolidation in the number of Shares outstanding of the Fund or Trust, and make a corresponding change in the number of Shares in a Creation Unit.

To purchase or redeem any Creation Units from the Fund, you must be, or transact through, an Authorized Participant. In order to be an Authorized Participant, you must be either a broker-dealer or other participant ("Participating Party") in the Continuous Net Settlement System ("Clearing Process") of the National Securities Clearing Corporation ("NSCC") or a participant in DTC with access to the DTC system ("DTC Participant"), and you must execute an agreement ("Participant Agreement") with the Distributor that governs transactions in the Fund's Creation Units.

Transactions by an Authorized Participant that is a Participating Party using the NSCC system are referred to as transactions "through the Clearing Process." Transactions by an Authorized Participant that is a DTC Participant using the DTC system are referred to as transactions "outside the Clearing Process." Notwithstanding the foregoing, the Trust may, but is not required to, permit Orders until 4:00 p.m., Eastern time, or until the market close (in the event the Exchange closes early). In the case of custom orders (Cash, Cash in Lieu, or Negotiated), the order must be received by the Distributor no later than 3:00 p.m., Eastern time on the trade date. A custom order may be placed by an Authorized Participant in the event that the Trust permits or requires the substitution of securities or the substitution of an amount of cash to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or which may not be eligible for trading by such Authorized Participant or the investor for which it is acting or other relevant reason. The date on which an order to create Creation Unit Aggregations (or an order to redeem Creation Unit Aggregations, as discussed below) is placed is referred to as the "Transmittal Date." Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement, as described below (see the "Placement of Creation Orders Using Clearing Process" and the "Placement of Creation Orders Outside Clearing Process" sections). Severe economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the Distributor or an Authorized Participant.

Investors who are not Authorized Participants but want to transact in Creation Units may contact the Distributor for the names of Authorized Participants. An Authorized Participant may require investors to enter into a separate agreement to transact through it for Creation Units and may require orders for purchases of shares placed with it to be in a particular form. Investors should be aware that their broker may not be an Authorized Participant and, therefore, may need to place any order to purchase or redeem Creation Units through another broker or person that is an Authorized Participant, which may result in additional charges. There are expected to be a limited number of Authorized Participants at any one time.

Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement. Market disruptions and telephone or other communication failures may impede the transmission of orders.

Purchasing Creation Units

Fund Deposit. The consideration for a Creation Unit of the Fund is the Fund Deposit. The Fund Deposit will consist of the In-Kind Creation Basket and Cash Component, or an all cash payment ("Cash Value"), as determined by Cambria to be in the best interest of the Fund. Because any short positions in the Fund's portfolio cannot be transferred in-kind, they will be represented by cash in the Cash Component and not in the In-Kind Creation Basket.

The Cash Component will typically include a "Balancing Amount" reflecting the difference, if any, between the NAV of a Creation Unit and the market value of the securities in the In-Kind Creation Basket. If the NAV per Creation Unit exceeds the market value of the securities in the In-Kind Creation Basket, the purchaser pays the Balancing Amount to the Fund. By contrast, if the NAV per Creation Unit is less than the market value of the securities in the In-Kind Creation Basket, the Fund pays the Balancing Amount to the purchaser. The Balancing Amount ensures that the consideration paid by an investor for a Creation Unit is exactly equal to the value of the Creation Unit.

The Transfer Agent, in a portfolio composition file sent via the NSCC, generally makes available on each Business Day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m., Eastern time), a list of the names and the required number of shares of each security in the In-Kind Creation Basket to be included in the current Fund Deposit for the Fund (based on information about the Fund's portfolio at the end of the previous Business Day) (subject to amendment or correction). If applicable, the Transfer Agent, through the NSCC, also makes available on each Business Day, the estimated Cash Component or Cash Value, effective through and including the previous Business Day, per Creation Unit.

The announced Fund Deposit is applicable, subject to any adjustments as described below, for purchases of Creation Units of the Fund until such time as the next-announced Fund Deposit is made available. From day to day, the composition of the In-Kind Creation Basket may change as, among other things, corporate actions and investment decisions by Cambria are implemented for the Fund's portfolio. All questions as to the composition of the In-Kind Creation Basket and the validity, form, eligibility, and acceptance for deposit of any securities shall be determined by the Fund, and the Fund's determination shall be final and binding. The Fund reserves the right to accept a nonconforming (*i.e.*, custom) Fund Deposit.

Payment of any stamp duty or the like shall be the sole responsibility of the Authorized Participant purchasing a Creation Unit. The Authorized Participant must ensure that all Deposit Securities properly denote change in beneficial ownership.

Cash in lieu. The Fund may, in its sole discretion, permit or require the substitution of an amount of cash ("cash in lieu") to be added to the Cash Component to replace any security in the In-Kind Creation Basket. The Fund may permit or require cash in lieu:

- (a) in the case of bonds, for minor differences when it is impossible to break up bonds beyond certain minimum sizes needed for transfer and settlement;
- (b) for minor differences when rounding is necessary to eliminate fractional shares or lots that are not tradeable round lots;
- (c) TBA Transactions, short position and other positions that cannot be transferred in kind will be excluded from the Fund Deposit instruments; or
- (d) to the extent the Fund determines, on a given Business Day, to use a representative sampling of the Fund's portfolio.

In addition, purchases of Creation Units may be made in whole or in part on a cash basis, rather than in kind, under the following circumstances:

- (a) to the extent there is a Balancing Amount;
- (b) if, on a given Business Day, the Fund announces before the open of trading that all purchases or all purchases and redemptions on that day will be made entirely in cash;
- (c) if, upon receiving a purchase order from an Authorized Participant, the Fund determines to require the purchase to be made entirely in cash;
- (d) if, on a given Business Day, the Fund requires all Authorized Participants purchasing Shares on that day to deposit cash in lieu of some or all of the Fund Deposit instruments solely because:
 - (i) such instruments are not eligible for transfer either through the NSCC or DTC; or
 - (ii) in the case of the Fund's foreign holdings, such instruments are not eligible for trading due to local trading restrictions, local restrictions on securities transfers or other similar circumstances;
- (e) if the Fund permits an Authorized Participant to deposit cash in lieu of some or all of the Fund Deposit instruments because such instruments are not available in sufficient quantity; or
- (f) if the Fund permits a "custom" order, which is an order in which an Authorized Participant is permitted to deposit cash in lieu of some or all of the Fund Deposit instruments because such instruments are not eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting.

The Fund will comply with the federal securities laws in accepting securities in the In-Kind Creation Basket, including the securities in the In-Kind Creation Basket that are sold in transactions that would be exempt from registration under the 1933 Act. All orders involving cash in lieu are considered to be “custom orders.”

Order Cut-Off Time. For an order involving a Creation Unit to be effectuated at the Fund’s NAV on a particular day, it must be received by the Distributor by or before the deadline for such order (“Order Cut-Off Time”). The Order Cut-Off Time for creation and redemption orders for the Fund is generally expected to be 4:00 p.m. Eastern time for In-Kind Creation and Redemption Baskets, and 3:00 p.m. Eastern time for Cash Value transactions. Accordingly, In-Kind Creation and Redemption Baskets are expected to be accepted until the close of regular trading on the Exchange on each Business Day, which is usually 4:00 p.m. Eastern time. On days when the Exchange or bond markets close earlier than normal (such as the day before a holiday), the Order Cut-Off Time is expected to track the Exchange closing and be similarly earlier than normal.

Custom orders typically clear outside the Clearing Process and, therefore, like other orders outside the Clearing Process, may need to be transmitted early on the relevant Business Day to be effectuated at that day’s NAV. A custom order may be placed when, for example, an Authorized Participant cannot transact in a security in the In-Kind Creation or Redemption Basket and additional cash is included in the Fund Deposit or Fund Redemption in lieu of such security. Custom orders may be required to be received by the Distributor by 3:00 p.m. Eastern time to be effectuated based on the Fund’s NAV on that Business Day.

In all cases, cash and securities should be transferred to the Fund by the “Settlement Date,” which is generally the Business Day immediately following the Transmittal Date for cash and securities. However, the Fund reserves the right to settle transactions on a basis other than the Business Day after the Transmittal Date. Persons placing custom orders or orders involving Cash Value should be aware of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve Bank wire system, which may delay the delivery of cash and securities by the Settlement Date.

Placement of Creation Orders. All purchase orders must be placed by or through an Authorized Participant. To order a Creation Unit, an Authorized Participant must submit an irrevocable purchase order to the Distributor. In-kind (portions of) purchase orders will be processed through the Clearing Process when it is available. The Clearing Process is an enhanced clearing process that is available only for certain securities and only to DTC Participants that are also participants in the Clearing Process of the NSCC. In-kind (portions of) purchase orders not subject to the Clearing Process will go through a manual clearing process run by DTC. Fund Deposits that include government securities must be delivered through the Federal Reserve Bank wire transfer system (“Federal Reserve System”). Fund Deposits that include cash may be delivered through the Clearing Process or the Federal Reserve System. Certain orders for the Fund may be made outside the Clearing Process. In-kind deposits of securities for such orders must be delivered through the Federal Reserve System (for government securities) or through DTC (for corporate securities).

Orders Using Clearing Process. In connection with creation orders made through the Clearing Process, the Distributor transmits, on behalf of the Authorized Participant, such trade instructions as are necessary to effect the creation order. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Fund Deposit to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor on the Business Day the order is placed (“Transmittal Date”) if (i) such order is received by the Distributor by the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System, as described below.

Orders Outside Clearing Process. Fund Deposits made outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC. With respect to such orders, the Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of securities in the In-Kind Creation Basket (whether standard or custom) through DTC to the relevant Trust account by 11:00 a.m., Eastern time, (the “DTC Cut-Off Time”) on the Business Day immediately following the Transmittal Date. The amount of cash equal to the Cash Component, along with any cash in lieu and Transaction Fee, must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date. The delivery of corporate securities through DTC must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date. The delivery of government securities through the Federal Reserve System must occur by 3:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date.

An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor by the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed. If the Custodian does not receive both the required In-Kind Creation Basket by the DTC Cut-Off Time and the Cash Component by the appointed time, such order may be canceled. Upon written notice to the Distributor, a canceled order may be resubmitted the following Business Day using the Fund Deposit as newly constituted to reflect the then-current In-Kind Creation Basket and Cash Component. Except as described in the section titled "Settlement of Foreign Securities and Regular Foreign Holidays," the delivery of Creation Units so created will occur no later than the Business Day following the day on which the order is deemed received by the Distributor. Authorized Participants that submit a canceled order will be liable to the Fund for any losses resulting therefrom.

Orders involving foreign securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable purchase order, the Distributor will notify Cambria and the Custodian of such order. The Custodian, who will have caused the appropriate local sub-custodian(s) of the Fund to maintain an account into which an Authorized Participant may deliver the Fund Deposit (or cash in lieu), with adjustments determined by the Fund, will then provide information of the order to such local sub-custodian(s). The Authorized Participant must also make available on or before the Settlement, by means satisfactory to the Fund, immediately available or same day funds in U.S. dollars estimated by the Fund to be sufficient to pay the Cash Component and Transaction Fee.

Acceptance of Orders for Creation Units. The Trust reserves the right to reject a creation order transmitted to it by the Distributor in respect of the Fund if: (i) the order is not in proper form; (ii) the investor(s), upon obtaining the Shares, would own 80% or more of the currently outstanding Shares of the Fund; (iii) the securities delivered do not conform to the In-Kind Creation Basket for the relevant date; (iv) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (v) the acceptance or receipt of the order for a Creation Unit would, in the opinion of counsel to the Trust, be unlawful; or (vi) in the event that circumstances that are outside the control of the Trust, Custodian, Distributor and Cambria make it practically impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems resulting in telephone, telecopy and computer failures; fires, floods or extreme weather conditions; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, Cambria, the Distributor, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process; and similar extraordinary events. The Distributor shall notify an Authorized Participant of its rejection of the order. The Fund, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits, and they shall not incur any liability for the failure to give any such notification. Given the importance of the ongoing issuance of Creation Units to maintaining a market price that is at or close to the underlying NAV of the Fund, the Trust does not intend to suspend acceptance of orders for Creation Units.

Issuance of a Creation Unit. Once the Fund has accepted a creation order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Creation Unit, against receipt of payment, at such NAV. The Distributor will transmit a confirmation of acceptance to the Authorized Participant that placed the order.

Except as provided below, a Creation Unit will not be issued until the Fund obtains good title to the In-Kind Creation Basket securities and the Cash Component, along with any cash in lieu and Transaction Fee. Except as described in the section titled "Settlement of Foreign Securities and Regular Foreign Holidays," the delivery of Creation Units will generally occur no later than the Business Day following the Transmittal Date for securities.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

With respect to orders involving foreign securities, when the applicable local sub-custodian(s) has confirmed to the Custodian that the In-Kind Creation Basket (or cash in lieu) has been delivered to the Fund's account at the applicable sub-custodian(s), the Distributor and Cambria shall be notified of such delivery, and the Fund will issue and cause the delivery of the Creation Unit.

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable In-Kind Creation Basket, provided the purchaser tenders an initial deposit consisting of any available securities in the In-Kind Creation Basket and cash equal to the sum of the Cash Component and at least 115% of the market value, as adjusted from time to time by Cambria, of the In-Kind Creation Basket securities not delivered ("Additional Cash Deposit"). Such initial deposit will have a value greater than the NAV of the Creation Unit on the date the order is placed. The order shall be deemed to be received on the Transmittal Date provided that it is placed in proper form prior to 4:00 p.m., Eastern time, on such date, and federal funds in

the appropriate amount are deposited with the Custodian by the DTC Cut-Off Time the following Business Day. If the order is not placed in proper form by 4:00 p.m., Eastern time, or federal funds in the appropriate amount are not received by the DTC Cut-Off Time the next Business Day, then the order will be canceled or deemed unreceived and the Authorized Participant effectuating such transaction will be liable to the Fund for any losses resulting therefrom.

To the extent securities in the In-Kind Creation Basket remain undelivered, pending delivery of such securities additional cash will be required to be deposited with the Trust as necessary to maintain an Additional Cash Deposit equal to at least 115% (as adjusted by Cambria) of the daily marked-to-market value of the missing securities. To the extent that either such securities are still not received by 1:00 p.m., Eastern time, on the Business Day following the day on which the purchase order is deemed received by the Distributor or a marked-to-market payment is not made within one Business Day following notification to the purchaser and/or Authorized Participant that such a payment is required, the Trust may use the cash on deposit to purchase the missing securities, and the Authorized Participant effectuating such transaction will be liable to the Fund for any costs incurred therein or losses resulting therefrom, including any Transaction Fee, any amount by which the actual purchase price of the missing securities exceeds the Additional Cash Deposit or the market value of such securities on the day the purchase order was deemed received by the Distributor, as well as brokerage and related transaction costs. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing securities have been received by the Trust. The delivery of Creation Units so created will occur no later than the Business Day following the day on which the purchase order is deemed received by the Distributor.

Transaction Fees

To compensate the Trust for costs incurred in connection with creation and redemption transactions, investors will be required to pay to the Trust a Transaction Fee as follows:

Fund	Standard Transaction Fee*	Variable Charge
Cambria LargeCap Shareholder Yield ETF	\$300	Up to 2.0%

* The Transaction Fee may be higher for transactions outside the Clearing Process.

The Standard Transaction Fee applies to in-kind purchases of the Fund effected through the Clearing Process on any Business Day, regardless of the number of Creation Units purchased or redeemed that day (assuming, in the case of multiple orders on the same day, that the orders are received at or near the same time). A Transaction Fee of up to four times the standard fee may apply to creation and redemption transactions that occur outside the Clearing Process. As shown in the table above, certain Fund Deposits consisting of a Cash Value will be subject to a variable charge of up to 2% including the standard Transaction Fee. With cash received from the variable charge, Cambria will purchase the necessary securities for the Fund's portfolio and return any unused portion thereof to the investor. The Transaction Fee for redemptions of Creation Units will not exceed 2% of the value of the Creation Unit(s) redeemed.

Cambria may adjust or waive the Transaction Fee from time to time. The Standard Creation/Redemption Transaction Fee is based, in part, on the number of holdings in the Fund's portfolio and may be adjusted on a quarterly basis if the number of holdings increase. Investors will also be responsible for the costs associated with transferring the securities in the In-Kind Creation (and Redemption) Baskets to (and from) the account of the Trust. Further, investors who, directly or indirectly, use the services of a broker or other intermediary to compose a Creation Unit in addition to an Authorized Participant to effect a transaction in Creation Units may be charged an additional fee for such services.

Cash Purchase Method. When cash purchases of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind purchases. In the case of a cash purchase, the investor must pay the cash equivalent of the Fund Deposit. In addition, cash purchases may be subject to Transaction Fees.

Redeeming Creation Units

Fund Redemptions. Fund Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a Business Day. The redemption proceeds for a Creation Unit will consist of the In-Kind Redemption Basket and a Cash Redemption Amount, or an all cash payment (“Cash Value”), in all instances equal to the value of a Creation Unit. Because short positions cannot be transferred in kind, however, any short positions in the Fund’s portfolio will be represented by cash in the Cash Redemption Amount and not in the In-Kind Redemption Basket.

There can be no assurance that there will be sufficient liquidity in Shares in the secondary market to permit assembly of a Creation Unit. In addition, investors may incur brokerage and other costs in connection with assembling a Creation Unit.

The Cash Redemption Amount will typically include a Balancing Amount, reflecting the difference, if any, between the NAV of a Creation Unit and the market value of the securities in the In-Kind Redemption Basket. If the NAV per Creation Unit exceeds the market value of the securities in the In-Kind Redemption Basket, the Fund pays the Balancing Amount to the redeeming investor. By contrast, if the NAV per Creation Unit is less than the market value of the securities in the In-Kind Redemption Basket, the redeeming investor pays the Balancing Amount to the Fund.

The composition of the In-Kind Creation Basket will normally be the same as the composition of the In-Kind Redemption Basket. Otherwise, the In-Kind Redemption Basket will be made available by Cambria or the Transfer Agent. The Fund reserves the right to accept a nonconforming (*i.e.*, custom) Fund Redemption.

In lieu of an In-Kind Redemption Basket and Cash Redemption Amount, Creation Units may be redeemed consisting solely of cash in an amount equal to the NAV of a Creation Unit, which amount is referred to as the Cash Value. Such redemptions for the Fund may be subject to a variable charge, as explained above. If applicable, information about the Cash Value will be made available by Cambria or the Transfer Agent.

From day to day, the composition of the In-Kind Redemption Basket may change as, among other things, corporate actions are implemented for the Fund’s portfolio. All questions as to the composition of the In-Kind Redemption Basket and the validity, form, eligibility, and acceptance for deposit of any securities shall be determined by the Fund, and the Fund’s determination shall be final and binding.

The right of redemption may be suspended or the date of payment postponed: (i) for any period during which the NYSE is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on the NYSE is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the Shares or determination of the Fund’s NAV is not reasonably practicable; or (iv) in such other circumstances as permitted by the SEC, including as described below.

Cash in lieu. The Fund may, in its sole discretion, permit or require the substitution of an amount of cash to be added to the Cash Redemption Amount to replace any security in the In-Kind Redemption Basket. The Fund may permit or require cash in lieu:

- (a) in the case of bonds, for minor differences when it is impossible to break up bonds beyond certain minimum sizes needed for transfer and settlement;
- (b) for minor differences when rounding is necessary to eliminate fractional shares or lots that are not tradeable round lots;
- (c) TBA Transactions, short position and other positions that cannot be transferred in kind will be excluded from the Fund Redemption instruments; or
- (d) to the extent the Fund determines, on a given Business Day, to use a representative sampling of the Fund’s portfolio.

In addition, redemptions of Creation Units may be made in whole or in part on a cash basis, rather than in kind, under the following circumstances:

- (a) to the extent there is a Balancing Amount;
- (b) if, on a given Business Day, the Fund announces before the open of trading that all redemptions or all purchases and redemptions on that day will be made entirely in cash;
- (c) if, upon receiving a redemption order from an Authorized Participant, the Fund determines to require the redemption to be made entirely in cash;
- (d) if, on a given Business Day, the Fund requires all Authorized Participants redeeming Shares on that day to receive cash in lieu of some or all of the Fund Redemption instruments solely because:
 - (i) such instruments are not eligible for transfer either through the NSCC or DTC; or
 - (ii) in the case of the Fund's foreign holdings, such instruments are not eligible for trading due to local trading restrictions, local restrictions on securities transfers or other similar circumstances; or
- (e) if the Fund permits a "custom" order, which is an order in which an Authorized Participant is permitted to receive cash in lieu of some or all of the Fund Redemption instruments because:
 - (i) such instruments are not eligible for trading by an Authorized Participant or the investor on whose behalf the Authorized Participant is acting; or
 - (ii) a holder of Shares of the Fund's foreign holdings would be subject to unfavorable income tax treatment if the holder receives redemption proceeds in kind.

The Fund will comply with the federal securities laws in satisfying redemptions with the applicable In-Kind Redemption Basket, including the securities in the In-Kind Redemption Basket that are sold in transactions that would be exempt from registration under the 1933 Act. All redemption orders involving cash in lieu are considered to be "custom redemptions."

Placement of Redemption Orders. Redemptions must be placed to the Transfer Agent through the Distributor. In addition, redemption orders must be processed either through the DTC process or the Clearing Process. To redeem a Creation Unit, an Authorized Participant must submit an irrevocable redemption order to the Distributor.

An Authorized Participant submitting a redemption order is deemed to represent to the Fund that, as of the close of that Business Day, it (or its client) will own (within the meaning of Rule 200 of Regulation SHO) or has arranged to borrow for delivery to the Trust on or prior to the settlement date of the redemption request, the requisite number of Shares of the relevant Fund to be redeemed as a Creation Unit. In either case, the Authorized Participant is deemed to acknowledge that: (i) it (or its client) has full legal authority and legal right to tender for redemption the requisite number of Shares of the applicable Fund and to receive the entire proceeds of the redemption; and (ii) if such Shares submitted for redemption have been loaned or pledged to another party or are the subject of a repurchase agreement, securities lending agreement or any other arrangement affecting legal or beneficial ownership of such Shares being tendered, there are no restrictions precluding the tender and delivery of such Shares (including borrowed shares, if any) for redemption, free and clear of liens, on the redemption settlement date. The Fund reserves the absolute right, in its sole discretion, to verify these representations, but will typically require verification with respect to a redemption request from the Fund in connection with higher levels of redemption activity and/or short interest in the Fund. If the Authorized Participant, upon receipt of a verification report, does not provide sufficient verification of the requested representations, the redemption order will not be considered to be in proper form and may be rejected by the Fund.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Placement of Redemption Orders Using Clearing Process. Orders to redeem Creation Units through the Clearing Process are deemed received by the Trust on the Transmittal Date if (i) such order is received by the Transfer Agent not later than the Order Cut-Off Time on such Transmittal Date, and (ii) all other procedures set forth in the Participant Agreement are properly followed. Orders deemed received will be effectuated based on the NAV of the Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Trust after the Order Cut-Off

Time will be deemed received on the next Business Day and will be effected at the NAV next determined on such next Business Day. In connection with such orders, the Distributor transmits on behalf of the Authorized Participant such trade instructions as are necessary to effect the redemption. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Creation Unit(s) to the Fund, together with such additional information as may be required by the Distributor. Cash Redemption Amounts will be delivered using either the Clearing Process or the Federal Reserve System. The applicable In-Kind Redemption Basket and the Cash Redemption Amount will be transferred to the investor by the second NSCC business day following the date on which such request for redemption is deemed received.

Placement of Redemption Orders Outside Clearing Process. Orders to redeem Creation Units outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. Such orders are deemed received by the Trust on the Transmittal Date if: (i) such order is received by the Transfer Agent not later than the Order Cut-Off Time on the Transmittal Date; (ii) such order is accompanied or followed by the delivery of both (a) the Creation Unit(s), which delivery must be made through DTC to the Custodian no later than the DTC Cut-Off Time on the Business Day immediately following the Transmittal Date and (b) the Cash Redemption Amount by 12:00 p.m., Eastern time, on the Business Day immediately following the Transmittal Date; and (iii) all other procedures set forth in the Participant Agreement are properly followed. After the Trust has deemed such an order received, the Trust will initiate procedures to transfer, and expect to deliver, the requisite In-Kind Redemption Basket and/or any Cash Redemption Amount owed to the redeeming party by the Business Day following the Transmittal Date on which such redemption order is deemed received by the Trust.

Orders involving foreign securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable redemption order, the Distributor will notify Cambria and the Custodian. The Custodian will then provide information of the redemption to the Fund's local sub-custodian(s). The redeeming Authorized Participant, or the investor on whose behalf it is acting, will have established appropriate arrangements with a broker-dealer, bank or other custody provider in each jurisdiction in which the securities are customarily traded and to which such securities (and any cash in lieu) can be delivered from the Fund's accounts at the applicable local sub-custodian(s).

The calculation of the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received upon redemption will be made by the Custodian computed on the Business Day on which a redemption order is deemed received by the Trust. Therefore, if a redemption order in proper form is submitted to the Transfer Agent by a DTC Participant or an Authorized Participant with the ability to transact through the Federal Reserve System, as applicable, not later than Closing Time on the Transmittal Date, and the requisite number of Shares of the relevant Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received will be determined by the Custodian on such Transmittal Date. If, however, either: (i) the requisite number of Shares of the relevant Fund are not delivered by the DTC Cut-Off-Time, as described above, or (ii) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the In-Kind Redemption Basket and the Cash Redemption Amount to be delivered/received will be computed on the Business Day following the Transmittal Date provided that the Fund Shares of the relevant Fund are delivered through DTC to the Custodian by 11:00 a.m., Eastern time, the following Business Day pursuant to a properly submitted redemption order.

The Authorized Participant may request the redeeming beneficial owner of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of shares or delivery instructions.

Delivery of Redemption Basket. Once the Fund has accepted a redemption order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of an In-Kind Redemption Basket, against receipt of the Creation Unit(s) at such NAV, any cash in lieu and Transaction Fee. A Creation Unit tendered for redemption and the payment of the Cash Redemption Amount, any cash in lieu and Transaction Fee will be effected through DTC. The Authorized Participant, or the investor on whose behalf it is acting, will be recorded on the book-entry system of DTC.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Cash Redemption Method. When cash redemptions of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind redemptions. In the case of a cash redemption, the investor will receive the cash equivalent of the In-Kind Redemption Basket minus any Transaction Fees.

Settlement of Foreign Securities and Regular Foreign Holidays

The Fund generally intend to effect deliveries of Creation Units and portfolio securities on a basis of the Transmittal Date (“T”) plus one Business Day (*i.e.*, days on which the national securities exchange is open) (“T+1”). The Fund may effect deliveries of Creation Units and portfolio securities on a basis other than T+1 in order to accommodate local holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates or under certain other circumstances. Given that foreign securities settle in accordance with the normal rules of settlement of such securities in the applicable foreign market, coupled with foreign market holiday schedules, the Settlement Date may be up to 14 calendar days after the Transmittal Date in certain circumstances.

The ability of the Trust to effect in-kind creations and redemptions within one Business Day of receipt of an order in good form is subject, among other things, to the condition that, within the time period from the date of the order to the date of delivery of the securities, there are no days that are holidays in the applicable foreign market. In such cases, the local market settlement procedures will not commence until the end of the local holiday periods. For every occurrence of one or more intervening holidays in the applicable foreign market that are not holidays observed in the U.S. equity market, the redemption settlement cycle will be extended by the number of such intervening holidays. In addition to holidays, other unforeseeable closings in a foreign market due to emergencies may also prevent the Trust from delivering securities within normal settlement periods. The proclamation of new holidays, the treatment by market participants of certain days as “informal holidays” (*e.g.*, days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays or changes in local securities delivery practices could affect the information set forth herein at some time in the future.

Because the Fund’s portfolio securities may trade on days that the Fund’s Exchange is closed or on days that are not Business Days for the Fund, Authorized Participants may not be able to redeem their Shares, or to purchase and sell Shares on the Exchange, on days when the NAV of the Fund could be significantly affected by events in the relevant non-U.S. markets.

DETERMINATION OF NET ASSET VALUE

The net asset value, or NAV, of Shares is calculated each business day as of the close of regular trading on the NYSE, generally 4:00 p.m. Eastern time. The Fund’s NAV per Share is computed by dividing the net assets by the number of Shares outstanding. For further information, see the “Net Asset Value” section of the Prospectus, which is incorporated by reference here.

TAXATION

The following is only a summary of certain additional U.S. federal income tax considerations generally affecting the Fund and its shareholders that is intended to supplement the tax information contained in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders, and the discussion here does not address investors subject to special rules, such as investors who hold shares through an individual retirement account, 401(k) or other tax-advantaged account. The discussion here and in the Prospectus is not intended as a substitute for careful tax planning. Shareholders are urged to consult their tax advisors with specific reference to their own tax situations, including their state, local, and foreign tax liabilities.

The following general discussion of certain federal income tax consequences is based on the Code and the regulations issued thereunder as in effect on the date of this SAI. New legislation, as well as administrative changes or court decisions, may significantly change the conclusions expressed herein, and may have a retroactive effect with respect to the transactions contemplated herein.

Qualification as a Regulated Investment Company. For federal income tax purposes, the Fund intends to elect and intends to qualify each year to be treated as a RIC under Subchapter M of the Code. By following such a policy, the Fund expects to eliminate or reduce to a nominal amount the federal taxes to which it may be subject. The Fund that qualifies as a RIC will generally not be subject to federal income taxes on the net investment income and net realized capital gains that the Fund timely distributes to its shareholders. The Board reserves the right not to maintain the qualification of the Fund as a RIC if it determines such course of action to be beneficial to shareholders.

In order to qualify as a RIC under the Code, the Fund must distribute annually to its shareholders at least 90% of its net investment income (which, includes dividends, taxable interest, and the excess of net short-term capital gains over net long-term capital losses, less operating expenses) and at least 90% of its net tax exempt interest income, for each tax year, if any (the “Distribution Requirement”) and also must meet certain additional requirements. Among these requirements are the following: (i) at least 90% of the Fund’s gross income each taxable year must be derived from dividends, interest, payments with respect to

certain securities loans, and gains from the sale or other disposition of stock, securities, or foreign currencies, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities, or currencies, and net income derived from an interest in a qualified publicly traded partnership (the “Qualifying Income Test”); and (ii) at the close of each quarter of the Fund’s taxable year: (A) at least 50% of the value of the Fund’s total assets must be represented by cash and cash items, U.S. government securities, securities of other RICs and other securities, with such other securities limited, in respect to any one issuer, to an amount not greater than 5% of the value of the Fund’s total assets and that does not represent more than 10% of the outstanding voting securities of such issuer, including the equity securities of a qualified publicly traded partnership, and (B) not more than 25% of the value of the Fund’s total assets is invested, including through corporations in which the Fund owns a 20% or more voting stock interest in the securities (other than U.S. government securities or the securities of other RICs) of any one issuer or the securities (other than the securities of another RIC) of two or more issuers that the Fund controls and which are engaged in the same or similar trades or businesses or related trades or businesses, or the securities of one or more qualified publicly traded partnerships (the “Asset Test”).

If the Fund fails to satisfy the Qualifying Income or Asset Tests in any taxable year, the Fund may be eligible for relief provisions if the failures are due to reasonable cause and not willful neglect and if a penalty tax is paid with respect to each failure to satisfy the applicable requirements. Additionally, relief is provided for certain de minimis failures of the Asset Test where the Fund corrects the failure within a specified period. In order to be eligible for the relief provisions with respect to a failure to meet the Asset Test, the Fund may be required to dispose of certain assets. If the Fund fails to maintain qualification as a RIC for a tax year, and the relief provisions are not available, the Fund would be subject to federal tax on all of its taxable income at the regular corporate rate (currently 21%), without any deduction for dividends to shareholders. In such event, distributions (including capital gains distributions) would be taxable as ordinary income to shareholders to the extent of the Fund’s current and accumulated earnings and profits and non-corporate shareholders may be eligible for taxation at reduced rates for qualified dividend income and corporate shareholders may benefit from the dividends received deduction available in some circumstances. In addition, the Fund could be required to recognize unrealized gains, pay substantial taxes and interest, and make substantial distributions before requalifying as a RIC. If the Fund determines that it will not qualify for treatment as a RIC, the Fund will establish procedures to reflect the anticipated tax liability in the Fund’s NAV.

The Fund intends to distribute annually to shareholders substantially all of its investment company taxable income (computed without regard to the dividends paid deduction) and any realized net capital gain (after taking into account any capital loss carryovers). If the Fund failed to satisfy the Distribution Requirement for any taxable year, the Fund would be taxed as a regular corporation, with consequences generally similar to those described above. If the Fund meets the Distribution Requirement but retains some or all of its income or gains, it will be subject to federal income tax to the extent any such income or gains are not distributed.

The Fund may elect to treat part or all of any “qualified late year loss” as if it had been incurred in the succeeding taxable year in determining the Fund’s taxable income, net capital gain, net short-term capital gain, and earnings and profits. The effect of this election is to treat any such “qualified late year loss” as if it had been incurred in the succeeding taxable year in characterizing Fund distributions for any calendar year. A “qualified late year loss” generally includes net capital loss, net long-term capital loss, or net short-term capital loss incurred after October 31 of the current taxable year (commonly referred to as “post-October losses”) and certain other late-year losses.

The treatment of capital loss carryovers for the Fund is similar to the rules that apply to capital loss carryovers of individuals, which provide that such losses are carried over indefinitely. If the Fund has a “net capital loss” (that is, capital losses in excess of capital gains) the excess of the Fund’s net short-term capital losses over its net long-term capital gains is treated as a short-term capital loss arising on the first day of the Fund’s next taxable year, and the excess (if any) of the Fund’s net long-term capital losses over its net short-term capital gains is treated as a long-term capital loss arising on the first day of the Fund’s next taxable year. The carryover of capital losses may be limited under the general loss limitation rules if the Fund experiences an ownership change as defined in the Code.

Federal Excise Tax. Notwithstanding the Distribution Requirement described above, which generally requires the Fund to distribute at least 90% of its annual investment company taxable income and the excess of its exempt interest income (but does not require any minimum distribution of net capital gain), a 4% non-deductible excise tax will be imposed to the extent the Fund fails to distribute by the end of the calendar year at least 98% of its ordinary taxable income and 98.2% of capital gain net income (excess of capital gains over capital losses) for the one-year period ending on October 31 of such year (including any retained amount from the prior calendar year on which the Fund paid no federal income tax). The Fund intends to make sufficient distributions to avoid liability for this excise tax but can make no assurance that such tax will be completely eliminated. For

example, the Fund may receive delayed or corrected tax reporting statements from its investments that cause the Fund to accrue additional income and gains after the Fund has already made its excise tax distributions for the year. In such a situation, the Fund may incur an excise tax liability resulting from such delayed receipt of such tax information statements. In addition, the Fund may in certain circumstances be required to liquidate Fund investments in order to make sufficient distributions to avoid federal excise tax liability at a time when the investment adviser might not otherwise have chosen to do so, and liquidation of investments in such circumstances may affect the ability of the Fund to satisfy the requirement for qualification as a RIC.

Distributions to Shareholders. The Fund receives income generally in the form of dividends on investments. This income, plus net short-term capital gains, if any, less expenses incurred in the operation of the Fund, constitutes the Fund's net investment income from which dividends may be paid to you. Any distributions by the Fund from such income will be taxable to you as ordinary income or at the lower capital gains rates that apply to individuals receiving qualified dividend income (as discussed below), whether you take them in cash or in additional shares.

Distributions by the Fund is currently eligible for the reduced maximum tax rate to individuals of 20% (lower rates apply to individuals in lower tax brackets) to the extent that the Fund receives qualified dividend income on the securities they hold and the Fund reports the distributions as qualified dividend income. Qualified dividend income is, in general, dividend income from taxable domestic corporations and certain foreign corporations (*e.g.*, foreign corporations incorporated in a possession of the United States or in certain countries with a comprehensive tax treaty with the United States, or the stock of which is readily tradable on an established securities market in the United States). A dividend will not be treated as qualified dividend income to the extent that: (i) the shareholder has not held the shares on which the dividend was paid for more than 60 days during the 121-day period that begins on the date that is 60 days before the date on which the shares become "ex-dividend" (which is the day on which declared distributions (dividends or capital gains) are deducted from the Fund's assets before it calculates the net asset value) with respect to such dividend, (ii) the Fund has not satisfied similar holding period requirements with respect to the securities it holds that paid the dividends distributed to the shareholder), (iii) the shareholder is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to substantially similar or related property, or (iv) the shareholder elects to treat such dividend as investment income under section 163(d)(4)(B) of the Code. Therefore, if you lend your shares in the Fund, such as pursuant to a securities lending arrangement, you may lose the ability to treat dividends (paid while the shares are held by the borrower) as qualified dividend income. Distributions that the Fund receives from an underlying fund taxable as a RIC or from a REIT will be treated as qualified dividend income only to the extent so reported by such underlying fund or REIT. The Fund's investment strategies may limit its ability to distribute dividends eligible for treatment as qualified dividend income.

Distributions by the Fund of its net short-term capital gains will be taxable as ordinary income. Capital gain distributions consisting of the Fund's net capital gains will be taxable as long-term capital gains for individual shareholders currently set at a maximum rate of 20% regardless of how long you have held your shares in the Fund.

In the case of corporate shareholders, Fund distributions (other than capital gain distributions) generally qualify for the dividends received deduction to the extent such distributions are so reported and do not exceed the gross amount of qualifying dividends received by the Fund for the year. Generally, and subject to certain limitations (including certain holding period limitations), a dividend will be treated as a qualifying dividend if it has been received from a domestic corporation. The Fund's investment strategies may limit its ability to distribute dividends eligible for the dividends received deduction.

To the extent that the Fund makes a distribution of income received by the Fund in lieu of dividends (a "substitute payment") with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

A RIC that receives business interest income may pass through its net business interest income for purposes of the tax rules applicable to the interest expense limitations under Section 163(j) of the Code. A RIC's total "Section 163(j) Interest Dividend" for a tax year is limited to the excess of the RIC's business interest income over the sum of its business interest expense and its other deductions properly allocable to its business interest income. A RIC may, in its discretion, designate all or a portion of ordinary dividends as Section 163(j) Interest Dividends, which would allow the recipient shareholder to treat the designated portion of such dividends as interest income for purposes of determining such shareholder's interest expense deduction limitation under Section 163(j) of the Code. This can potentially increase the amount of a shareholder's interest expense deductible under Section 163(j) of the Code. In general, to be eligible to treat a Section 163(j) Interest Dividend as interest income, you must have held your shares in the Fund for more than 180 days during the 361-day period beginning on the date that is 180 days before the date on which the share becomes ex-dividend with respect to such dividend. Section 163(j) Interest Dividends, if so designated by the Fund, will be reported to your financial intermediary or otherwise in accordance with the requirements specified by the IRS.

If, for any calendar year, the total distributions made exceed the Fund's current and accumulated earnings and profits, the excess will, for federal income tax purposes, be treated as a tax-free return of capital to each shareholder up to the amount of the shareholder's basis in his or her Shares, and thereafter as gain from the sale of Shares. The amount treated as a tax-free return of capital will reduce the shareholder's adjusted basis in his or her Shares, thereby increasing his or her potential gain or reducing his or her potential loss on the subsequent sale of his or her Shares.

A dividend or distribution received shortly after the purchase of shares reduces the NAV of the shares by the amount of the dividend or distribution and, although in effect a return of capital, will be taxable to the shareholder. If the NAV of shares were reduced below the shareholder's cost by dividends or distributions representing gains realized on sales of securities, such dividends or distributions would be a return of investment though taxable to the shareholder in the same manner as other dividends or distributions.

The Fund (or your broker) will inform you of the amount of your ordinary income dividends, qualified dividend income and capital gain distributions, if any, and will advise you of their tax status for federal income tax purposes shortly after the close of each calendar year. Distributions may be subject to state and local taxes. If you have not held Fund shares for a full year, the Fund may report and distribute to you, as ordinary income, qualified dividend income or capital gain, a percentage of income that is not equal to the actual amount of such income earned during the period of your investment in the Fund.

Dividends declared to shareholders of record in October, November or December and actually paid in January of the following year will be treated as having been received by shareholders on December 31 of the calendar year in which declared. Under this rule, therefore, a shareholder may be taxed in one year on dividends or distributions actually received in January of the following year.

Sales, Exchanges or Redemptions. A sale or exchange of Shares or redemption of Creation Units may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of Shares by a shareholder will generally be treated as capital gain or loss if the Shares are capital assets in the shareholder's hands, and will be long-term capital gain or loss if the Shares have been held for more than 12 months, and short-term capital gain or loss if the Shares are held for 12 months or less. Any loss realized on a sale or exchange of Shares of the Fund may be disallowed if other substantially identical Shares are acquired (whether through the automatic reinvestment of dividends or otherwise) within a sixty-one (61) day period beginning thirty (30) days before and ending thirty (30) days after the date that the Shares are disposed of. In such a case, the basis of the Shares acquired must be adjusted to reflect the disallowed loss. Any loss upon the sale or exchange of Shares held for six (6) months or less is treated as long-term capital loss to the extent of any long-term capital gain dividends received by the shareholders.

An Authorized Participant who exchanges securities for Creation Units generally will recognize gain or loss from the exchange. The gain or loss will be equal to the difference between the market value of the Creation Unit(s) at the time of the exchange and the sum of the exchanger's aggregate basis in the securities surrendered plus (or minus) the amount of cash paid (or received) for such Creation Unit(s). The ability of Authorized Participants to receive a full or partial cash redemption of Creation Units of the Fund may limit the tax efficiency of the Fund. A person who redeems one or more Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Unit(s) and the aggregate market value of the securities received plus (or minus) the amount of cash received (or paid) for such Creation Unit(s). The IRS, however, may assert that a loss that is realized by an Authorized Participant upon an exchange of securities for Creation Unit(s) may not be deducted currently under the rules governing "wash sales" (for an Authorized Participant that does not mark-to-market its holdings) or on the basis that there has been no significant change in economic position.

The Trust on behalf of the Fund has the right to reject an order for a purchase of Shares of the Fund if the purchaser (or a group of purchasers) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to Section 351 of the Code, the Fund would have a basis in the securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial Share ownership for purposes of the 80% determination. If the Fund issues Creation Units to a purchaser (or a group of purchasers) who would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund, the purchaser (or a group of purchasers) may not recognize gain or loss upon the exchange of securities for Creation Units.

Authorized Participants purchasing or redeeming Creation Units should consult their own tax advisers with respect to the tax treatment of any creation or redemption transaction and whether the wash sales rule applies and when a loss may be deductible.

Cost Basis Reporting. The cost basis of Shares acquired by purchase will generally be based on the amount paid for the Shares and then may be subsequently adjusted for other applicable transactions as required by the Code. The difference between the selling price and the cost basis of Shares generally determines the amount of the capital gain or loss realized on the sale or exchange of Shares. Contact the broker through whom you purchased your Shares to obtain information with respect to the available cost basis reporting methods and elections for your account.

Net Investment Income Tax. Certain net investment income received by an individual having adjusted gross income in excess of \$200,000 (or \$250,000 for married individuals filing jointly) will be subject to a U.S. federal tax of 3.8 percent. Undistributed net investment income of trusts and estates in excess of a specified amount also will be subject to this tax. Any taxable dividends (including capital gain distributions) paid by the Fund, and gain realized on the sale or redemption of Fund shares, will constitute investment income of the type subject to this tax.

Tax-Exempt Shareholders. Certain tax-exempt shareholders, including qualified pension plans, individual retirement accounts, salary deferral arrangements, 401(k)s, and other tax-exempt entities, generally are exempt from federal income taxation except with respect to their unrelated business taxable income (“UBTI”). Tax-exempt entities are not permitted to offset losses from one trade or business against the income or gain of another trade or business. Certain net losses incurred prior to January 1, 2018 are permitted to offset gain and income created by an unrelated trade or business, if otherwise available. Under current law, the Fund generally serves to block UBTI from being realized by their tax-exempt shareholders. However, notwithstanding the foregoing, the tax-exempt shareholder could realize UBTI by virtue of an investment in the Fund where, for example: (i) the Fund invests in residual interests of Real Estate Mortgage Investment Conduits (“REMICs”), (ii) the Fund invests in a REIT that is a taxable mortgage pool (“TMP”) or that has a subsidiary that is a TMP or that invests in the residual interest of a REMIC, or (iii) shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of section 514(b) of the Code. Charitable remainder trusts are subject to special rules and should consult their tax advisor. The IRS has issued guidance with respect to these issues and prospective shareholders, especially charitable remainder trusts, are strongly encouraged to consult their tax advisors regarding these issues.

The Fund’s shares held in a tax-qualified retirement account will generally not be subject to federal taxation on income and capital gains distributions from the Fund until a shareholder begins receiving payments from their retirement account. Because each shareholder’s tax situation is different, shareholders should consult their tax advisor about the tax implications of an investment in the Fund.

Backup Withholding. The Fund (or financial intermediaries, such as brokers, through which a shareholder holds Shares) will be required in certain cases to impose “backup withholding” at a rate of 24% and remit to the U.S. Treasury the amount withheld on amounts paid to shareholders who have failed to provide a correct tax identification number in the manner required, who are subject to backup withholding by the IRS for failure properly to include on their return payments of taxable interest or dividends, who have failed to certify to the Fund when required to do so that they are not subject to backup withholding, or who have failed to certify to the Fund that they are a U.S. person (including a resident alien). Backup withholding is not an additional tax and any amounts withheld may be credited against a shareholder’s ultimate federal income tax liability if proper documentation is provided.

Non-U.S. Investors. Any non-U.S. investors in the Fund may be subject to U.S. withholding and estate tax and are encouraged to consult their tax advisors prior to investing in the Fund. Except as described below, dividends paid by the Fund to non-U.S. Shareholders (*i.e.*, nonresident alien individuals and foreign corporations, partnerships, trusts and estates) are generally subject to withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty to the extent derived from taxable ordinary income. In order to obtain a reduced rate of withholding, a non-U.S. Shareholder will be required to provide an IRS Form W-8BEN or W-8BEN-E certifying its entitlement to benefits under a treaty. The withholding tax does not apply to regular dividends paid to a non-U.S. Shareholder who provides a Form W-8ECI, certifying that the dividends are effectively connected with the non-U.S. Shareholder’s conduct of a trade or business within the United States. Instead, the effectively connected dividends will be subject to regular U.S. income tax as if the non-U.S. Shareholder were a U.S. Shareholder. A non-U.S. corporation receiving effectively connected dividends may also be subject to additional “branch profits tax” imposed at a rate of 30% (or lower treaty rate). A non-U.S. Shareholder who fails to provide an IRS Form W-8BEN or other applicable form may be subject to backup withholding at the appropriate rate.

In general, withholding tax will not apply to any distributions to a non-U.S. Shareholder of net long-term capital gains over net short-term capital loss or upon such a shareholder’s sale or other disposition of Shares. The Fund may, under certain circumstances, report all or a portion of a dividend as an “interest-related dividend” or a “short-term capital gain dividend,” which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term

capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax. Gains realized by foreign shareholders from the sale or other disposition of shares of the Fund generally are not subject to U.S. taxation, unless the recipient is an individual who is physically present in the U.S. for 183 days or more per year. Foreign shareholders who fail to provide an applicable IRS form may be subject to backup withholding on certain payments from the Fund. Backup withholding will not be applied to payments that are subject to the 30% (or lower applicable treaty rate) withholding tax described in this paragraph. Different tax consequences may result if the foreign shareholder is engaged in a trade or business within the United States. In addition, the tax consequences to a foreign shareholder entitled to claim the benefits of a tax treaty may be different than those described above.

Under legislation known as “FATCA” (the Foreign Account Tax Compliance Act), a U.S. withholding tax of 30% will apply to payments to certain foreign entities of U.S.-source interest and dividends unless various U.S. information reporting and due diligence requirements that are different from, and in addition to, the beneficial owner certification requirements described above have been satisfied. A non-U.S. shareholder may be exempt from the withholding described in this paragraph under an applicable intergovernmental agreement between the U.S. and a foreign government, provided that the shareholder and the applicable foreign government comply with the terms of the agreement. The Fund will not pay an additional amounts in respect to any amounts withheld. Non-U.S. shareholders should consult their tax advisers regarding the effect, if any, of this legislation on their ownership and sale or disposition of the Fund’s common shares.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, generally, if a shareholder recognizes a loss of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC such as the Fund are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer’s treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

State Taxes. Depending upon state and local law, distributions by the Fund to its shareholders and the ownership of such shares may be subject to state and local taxes. Rules of state and local taxation of dividend and capital gains distributions from RICs often differ from the rules for federal income taxation described above. It is expected that the Fund will not be liable for any corporate excise, income or franchise tax in Delaware if it qualifies as a RIC for federal income tax purposes.

Many states grant tax-free status to dividends paid to you from interest earned on direct obligations of the U.S. government, subject in some states to minimum investment requirements that must be met by the Fund. Investment in Ginnie Mae or Fannie Mae securities, banker’s acceptances, commercial paper, and repurchase agreements collateralized by U.S. government securities do not generally qualify for such tax-free treatment. The rules on exclusion of this income are different for corporate shareholders. Shareholders are urged to consult their tax advisers regarding state and local taxes applicable to an investment in the Fund.

General Considerations. The federal income tax discussion set forth above is for general information only. Prospective investors should consult their tax advisers regarding the specific federal income tax consequences of purchasing, holding and disposing of Shares, as well as the effect of state, local and foreign tax law and any proposed tax law changes.

FINANCIAL STATEMENTS

Because the Fund had not yet commenced operations as of the date of this SAI, the Fund does not have financial statements to present at this time. The Fund’s audited financial statements, when available, will be incorporated by reference into this SAI.

Appendix A
Proxy Voting Policies and Procedures for the Trust

Tidal Investments LLC
(the “Company” or the “Sub-Adviser”)

Proxy Voting Policies

1. General

As a fiduciary, an investment adviser with proxy voting authority has a duty to monitor corporate events and to vote proxies, as well as a duty to cast votes in the best interest of clients and not subrogate client interests to its own interests. Rule 206(4)-6 under the Advisers Act (the “Proxy Voting Rule”) places specific requirements on registered investment advisers with proxy voting authority. Because the Company has discretionary authority over the securities held by each series of Cambria ETF Trust as well as various other advisory Client accounts (together, the “Clients”), the Company is viewed as having proxy voting authority and is subject to the Proxy Voting Rule. To meet the obligations under this rule, the Company has adopted and implemented policies and procedures reasonably designed to ensure the Company votes proxies in the best interest of its Clients and addresses how it will resolve any conflict of interest that may arise when voting proxies. Additionally, the Company will: (i) maintain certain records required to be maintained by the Proxy Voting Rule relating to all voted proxies; (ii) disclose its proxy voting policies and procedures to Clients and upon request providing Clients with a copy of it; and (iii) inform Clients as to how they can obtain information from the Company as to how their securities were voted.

The Company has adopted the following Proxy Voting Guidelines (the “Guidelines”) in an effort to comply with the Proxy Voting Rule.

The Portfolio Managers and the Chief Compliance Officer (or their Designated Persons) will generally adhere to the following procedures (subject to limited exception):

- a. A written record of each proxy received by the Sub-Adviser will be maintained in the Sub-Adviser’s files;
- b. The Portfolio Management Team (or designee) will determine which of the Advisory Clients hold the security to which the proxy relates;
- c. Confirm that the proxy materials received relate to the correct number of shares, as of the record date;
- d. Confirm if there are any conflicts of interest related to the proxy in question in accordance with the general guidelines below. If a conflict is identified, the Portfolio Managers and the Chief Compliance Officer together will make a determination as to whether the conflict is material.
- e. If the conflict is not material, the Sub-Adviser will proceed to vote the proxy. The Sub-Adviser also has the flexibility to abstain from a particular proxy vote if doing so would be in the best interests of the Clients, taking into account associated costs, benefits, and interests of the Clients.

The Company may retain a third party to assist it in coordinating and voting proxies with respect to Client securities (which may include the Client’s prime broker(s)). If so, the Chief Compliance Officer shall monitor the third party to assure that all proxies are being properly voted and appropriate records are being retained. The Company bases its voting decisions on its policy guidelines which are driven by considerations of the best interests of its Clients and mutual fund shareholders. The Company will generally vote in favor of management positions however they must coincide with the best interests of its Clients and fund shareholders.

2. Conflicts of Interest

As stated above, in evaluating how to vote a proxy, the Sub-Adviser will first determine whether there is a conflict of interest related to the proxy in question between the Sub-Adviser and the Advisory Clients. This examination will include (but will not be limited to) an evaluation of whether the Sub-Adviser (or any affiliate of the Sub-Adviser) has any relationship with the company (or an affiliate of the company) to which the proxy relates outside an investment in such company by an Advisory Client managed by the Sub-Adviser.

If a conflict is identified and deemed to be material, the Sub-Adviser will generally seek to mitigate the conflict by either appointing an independent third party to vote the proxy or disclosing the conflict to affected Advisory Clients and/or Investors.

3. Recordkeeping

Pursuant to the Proxy Voting Rule, the Company shall retain the following five (5) types of records relating to proxy voting: (i) proxy voting policy and procedures, including any proxy advisory firm's proxy voting policy and procedures; (ii) proxy statements received for Client securities; (iii) records of votes cast on behalf of Clients; (iv) written Client requests for proxy voting information and written adviser responses to any Client request (whether oral or written) for proxy voting information; and (v) any documents prepared by the Company that were material to making a proxy voting decision or that memorialized the basis for the decision.

These records shall be maintained and preserved in an easily accessible place for a period of not less than six (6) years from the end of the Company's fiscal year during which the last entry was made in the records, the first two (2) years in an appropriate office of the Company. The Company may rely on proxy statements filed on the SEC's EDGAR system or on proxy statements and records of votes cast by the Company maintained by a third party, such as a proxy voting service (provided the Company had obtained an undertaking from the third party to provide a copy of the proxy statement or record promptly on request). The CCO is responsible for ensuring all Clients, who have given the Company proxy voting authority, are voted and for maintaining a record of all proxies voted.
