	Current Distribution	% Breakdown of the Current Distribution	Total Cumulative Distributions for the Fiscal Year to Date	% Breakdown of the Total Cumulative Distributions for the Fiscal Year to Date
Net Investment Income	\$0.2268	76.38%	\$0.2268	76.38%

The GVAL estimates that it has distributed more than its income and net realized gains; therefore, a portion of your distribution may be return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital does not necessarily reflect GVAL's investment performance and should not be confused with "yield" or "income".

The amounts and sources of distributions reported in the Notice are only estimated and are not being provided for tax reporting purposes. GVAL will send you a Form 1099-DIV for the calendar year that will inform you how to report these distributions for federal income tax purposes.
